Joint Secretary
KBOCWWB, Bengaluru

SECTION 2 INFORMATION TO SERVICE PROVIDER

1. INTRODUCTION

- 1.1 The Client named in the “Data Sheet” will select a firm among those listed in the Letter of Invitation, in accordance with the method of selection indicated in the Data Sheet.
- 1.2 The Service Provider are invited to submit a Technical Proposal and a Financial Proposal, as specified in the Data Sheet (the Proposal) for consulting services required for the Assignment named in the Data Sheet. The proposal will be the basis for contract negotiations and ultimately for a signed contract with the selected Service Provider.
- 1.3 The Assignment shall be implemented in accordance with the phasing indicated in the Data Sheet. When the Assignment includes several phases, the performance of the Service Provider under each phase must be to the client’s satisfaction before the work begins on next phase.
- 1.4 The Service Provider must familiarize themselves with local conditions and take these into account while preparing their proposals. To obtain first-hand information of the assignment and of the local conditions, the Service Provider are encouraged to pay a visit to the Client before submitting their proposal. The Service Provider’s Representative should contact the officials named in the Data Sheet to arrange for their visit or to obtain additional information if required. Service Provider should ensure that these officials are advised of the visit well in advance to allow them to make appropriate arrangements.
- 1.5 The Client will provide the inputs specified in the Data Sheet, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and Reports.
- 1.6 Please note that (i) the costs of preparing the proposal and of negotiating the contract, including visits to the Client, are not reimbursable as a direct cost of the Assignment; and (ii) the Client is not bound to accept any of the Proposals submitted.
- 1.7 Karnataka Building and Other Construction Workers Welfare Board, Bengaluru expects Service Provider to provide professional, objective, and impartial advice and at all times hold the Client’s interest paramount, without any consideration for future work, and strictly avoid conflicts with other assignment or their own corporate interests. Service Provider shall not be hired for any assignment that would be conflicting with their prior or current obligation to their clients or they may place them in a position of not being able to carry out the assignment in the best interest of the Client.
 - 1.7.1 Without limitation on the generality of this rule, Service Provider shall not be hired under the circumstances set forth below:
 - (a) A firm which has been engaged by the Client to provide goods or works for a project and any of their affiliates shall be disqualified from providing consulting services for the same project. Conversely, firm hired to provide consulting services for the preparation or implementation of a project, and any of their affiliates, shall be disqualified from subsequently providing goods or

works or services related to the initial assignment other than a continuation of the firm's earlier consulting services for the same project.

(b) The Service Provider or any of their affiliates shall not be hired for any assignment which, by its nature, may be in conflict with another assignment of the Service Provider.

1.7.2 As pointed in Para 1.7.1 (a) above, Service Provider may be hired for downstream works, when continuity is essential, in which case this possibility shall be indicated in the Data Sheet and the factors used for the selection of the Service Provider should take the likelihood of continuation into account. It will be the exclusive decision of the Client whether or not to have the down stream assignment carried out, and if it is carried out, which Service Provider will be hired for the purpose.

1.8 The policy of Karnataka Building and Other Construction Workers Welfare Board, Bengaluru is that Service Provider observe the highest standard of ethics during the execution of such contracts. In pursuance of this policy, the client Karnataka Building and Other Construction Workers Welfare Board, Bengaluru lays down:

(a) For the purposes of this provision, the terms: below:

- (i) "Corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the selection process or in contract execution; and
- (ii) "Fraudulent practice" means a misrepresentation of facts in order to influence a selection process or the execution of a contract to the detriment of Karnataka Building and Other Construction Workers Welfare Board, Bengaluru and includes collusive practice among Service Provider (prior to or after submission of proposals) designed to establish prices at artificial, non competitive levels and to deprive Karnataka Building and Other Construction Workers Welfare Board, Bengaluru of the benefits of free and open competition.

(b) will reject the proposal for award if it detects that the firm recommended for award has been engaged in corrupt or fraudulent activities in competing for the contract in question;

(c) will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded by Karnataka Building and Other Construction Workers Welfare Board, Bengaluru - financed contract if it at any time detects that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a Karnataka Building and Other Construction Workers Welfare Board, Bengaluru - financed contract; and

(d) Will have the right to inspect Service Provider's accounts and records relating to the performance of the contract and to have them audited by auditors appointed by Karnataka Building and Other Construction Workers Welfare Board, Bengaluru.

1.9 The Service Provider should not be under a declaration of ineligibility for corrupt and fraudulent practices issued by Karnataka Building and Other Construction Workers Welfare Board, Bengaluru in accordance with the above sub para.

1.10 The Service Provider shall be aware of the provisions on fraud and corruption stated in the standard contract under the clauses indicated in the Data Sheet.

2. CLARIFICATION AND AMENDMENT OF RFP DOCUMENTS

2.1 Service Provider may request a clarification of any item of RFP documents up to the number of days indicated in the Data Sheet before the date of Proposal submission. Any request for clarification must be sent in writing by paper mail, cable, telex, facsimile, or electronic mail. The client will send copies of the response including an explanation of the query but without identifying the source of inquiry to all invited Service Provider who intend to submit proposals.

2.2 At any time before the submission of Proposals, the Client may, for any reasons, whether at its own initiative or in response to a clarification requested by an invited firm, modify the RFP documents by amendment. Any amendment shall be issued in writing through addenda and sent by mail, cable, telex, facsimile, or electronic mail to all invited Service Provider and will be binding on them. The Client may at his discretion extend the deadline for the submission of Proposals.

3. PREPARATION OF PROPOSAL

3.1 Service Provider are requested to submit a Proposal (Para 1.2) written in the language (s) specified in the Data Sheet.

Technical Proposal

3.2 In preparing the Technical Proposal, Service Provider are expected to examine the documents comprising this RFP in detail. Material deficiencies in providing the information requested may result in rejection of a Proposal.

3.3 While preparing the Technical Proposal, Service Provider will give particular attention to the following:

The firms having following minimum experience only will be considered for Qualification;

1. The Bidder should be a company registered in India under companies Act 1956 or 2013 / LLP registered and operating for the last 10 years or more in IT/ITeS Services as of 31st March 2025. Company should be minimum ten years since inception. Bids shall be considered from Sole Bidding entity. Bids in Consortium / JV / Partnership / Associate / OEM-Partner bids shall not be considered for evaluation. (Roc shall be uploaded).
2. The Bidder should have a minimum Average Annual Turnover of Rs. 30.10 Crores, during the last three financial years i.e. 2022-23, 2023-24 and 2024-25.
Bidder should be a profit-making company during each of the last three financial years namely 2022-23, 2023-24 and 2024-25 (Annual Turnover Certificate from the Statutory Auditor / Chartered Accountant and Copy of Audited Financial Statements shall be uploaded).
3. The Bidder shall have a minimum Net Worth of INR. 15.05 Crores at the close of the preceding financial year. (Certificate from the Statutory Auditor / Chartered Accountant and Copy of Audited Financial Statements shall be uploaded).
4. The bidder should have experience in gone Live project in IT Transformation project / ICT Project / IT & ITES projects with any State/Central Govt Organization/PSU/Govt Dept. during the last 5 years in India comprising minimum of One (1) project of value not less than INR 15.05 crores OR two (2) projects of value not less than INR 7.53 crores each (Bidder should submit the PO / Work orders and its Project Completion Certificate from the Department/ Client).
5. The Bidder should have on its pay roll at least 50 technically qualified professionals. (Self-Certification by the Authorized signatory shall be uploaded).

6. The Bidder should possess all three (3) of the following Certifications which are valid at the time of bid submission 1) ISO 9001 2) ISO/IEC 27001 3) CMMI Level 3.
- Valid Copy of valid certificates on the name of the Bidder.
 - The certifications shall need to be kept valid throughout the duration of the contract period.
 - CMMI certification will be verified on <https://www.cmmiinstitute.com/pars/>.
7. The Bidder should not have been blacklisted by any Central Government and Department / State Government and Department / Central or state Public Sector Unit / Defence / Govt. Boards in India from last 5 years as on last date of submission of bid (A self-certified undertaking signed by the Authorized Signatory of the Bidder).

i) Joint ventures are **not allowed**.

ii) For assignments on a staff-time basis, the estimated number of key professional staff-months is given in the Data Sheet. The proposal shall, however, be based on the number of key professional staff-months estimated by the firm.

iii) It is desirable that the minimum of 30% of the key professional staff proposed are permanent employees of the firm or have an extended and stable working relation with minimum 5 years & above.

iv) Proposed key professional staff must have the minimum laid down experience indicated in the Data Sheet.

v) Alternative key professional staff shall not be proposed, only one curriculum vitae (CV) to be submitted for each position.

(vi) Reports to be issued by the Service Provider as part of this assignment must be in the language(s) specified in the Data Sheet. It is desirable that the firm's personnel have a working knowledge of the Client's official language.

3.4 The Technical Proposal should provide the following information using the attached Standard Forms (Section 3):

- A brief description of the Service Provider's organization and an outline of recent experience on assignments (section 3B) of a similar nature. For each assignment, the outline should indicate inter-alias, the profiles and names of the staff provided, duration of the assignment, contract amount and firm's involvement.
- Any comments or suggestion on the Terms of Reference and on the data, list of services, and facilities to be provided by the Client (section 3C).
- A description of the methodology and work plan for performing the assignment (section 3D).
- The list of the proposed staff team by specialty, the tasks that would be assigned to each staff team member, and their timing (section 3E).
- The recent CVs signed by the proposed key professional staff and the authorized Representative submitting the proposal (section 3F). Key information should include number of years working for the firm, entity, and responsibilities held in various assignments during the last ten (10) years. Letter of Consent from the proposed key professional staff only, are to be appended to the bid.
- Estimates of the total staff effort (professional and support staff, staff time) to be provided to carry out the assignment, supported by bar chart diagrams showing the time proposed for each key professional staff team member (section 3E and 3G).

- vii) A detailed description of the proposed methodology, staffing and monitoring of training, if the Data Sheet specifies training as a major component of the assignment.
- viii) Any additional information requested in the data sheet.

3.5 The Technical Proposal shall not include any financial information other than the specified technical criteria in the RFP. Bid will be treated Technically Non-Responsive if technical proposal includes any financial submission forms.

Financial Proposal

3.6 In preparing the Financial Proposal, Service Provider are expected to take into account the requirements and conditions of the RFP documents. The financial proposal should follow standard forms (section 4). It lists all costs associated with the Assignments, including (a) remuneration for staff and (b) reimbursable such as subsistence (per diem, housing) transportation (national and local, for mobilization and demobilization), services and equipment (vehicles, office equipment, furniture and supplies), office rent, insurance, printing of documents, surveys and training, if it is a major component of the assignment. If appropriate, these costs should be broken down by activity. If financial forms under section 4 are not uploaded, the bid shall stand rejected.

3.7 Service Provider shall express the price of their services in Indian Rupees in the Karnataka Public Procurement Portal.

3.8 The Data Sheet indicates how long the proposals must remain valid after the submission of data. During this period, the Service Provider is expected to keep available the key professional staff proposed for the assignment. The Client will make its best effort to complete negotiations with in this period. If the Client wishes to extend the validity period of the proposals, the Service Provider who do not agree have the right not to extend the validity of their proposals.

4. SUBMISSION, RECEIPT, AND OPENING OF PROPOSALS

4.1 The original Proposal (Technical Proposal and Financial Proposal; see Para 1.2) shall be uploaded in the Karnataka Public Procurement Portal. The documents and details mentioned in clause 3 above shall be submitted online on website www.kppp.karnataka.gov.in. Details and process of online submission of the tender and relevant documents are given in the website mentioned above.

4.2 The proposal under this contract is electronic proposal submission through website www.kppp.karnataka.gov.in. Detailed guidelines for viewing proposals and submission of online proposals are given on the website. The Invitation for Proposals is published on this website. Service Provider can logon to this website and view the Invitation for Proposals and can view the details of works for which proposals are invited. The prospective Service Provider can submit proposals online; for this, the Service Provider is required to have enrolment/registration in the website and should have valid Digital Signature Certificate (DSC). The DSC can be obtained from any authorized certifying agencies. The Service Provider should register in the web site www.kppp.karnataka.gov.in. After this, the Service Provider

can login the site through the secured login.

Note: The Employer shall not be responsible for any technical issues pertaining to internet connectivity, browser compatibility and any other technical issues pertaining to Karnataka Public Procurement Portal.

4.3 Service Provider are requested to go through the RFPs carefully and submit the required information without exception, otherwise proposals will be rejected.

4.4 The completed proposal comprising documents indicated in clause 3, should be uploaded on the website given above through e-tendering along with scanned copies of requisite certificates as are mentioned in different sections in the RFP document

4.5 Proposals must be received by the Employer on line not later than time specified in the proposal data sheet. The electronic system would not allow any late submission of proposals after due date and time as per server time.

4.6 After the deadline for submission of Proposals, The Financial Proposal of the Technically qualified Service Provider only will be opened.

5. PROPOSAL EVALUATION

5.1 General

From the time the proposals are opened to the time the contract is awarded, if any Service Provider wishes to contact the client on any matter related to its proposal, it should do so in writing at the address indicated in the Data Sheet. Any effort by the firm to influence the Client in the Client's proposal evaluation, proposal comparison or contract award decision may result in the rejection of the Service Provider's proposal.

5.2 Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation, including its approval by competent authority is obtained.

5.3 Evaluation of Technical Proposals

The Tender Scrutiny committee as a whole evaluates the proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub-criteria (typically not more than three per criteria) and point systems specified in the Data Sheet. Each responsive proposal will be given a technical score (St). A proposal shall be rejected at this stage if it does not respond to important aspects of the Terms of Reference or if it fails to achieve the minimum technical score indicated in the Data Sheet.

Public Opening and Evaluation of Financial Proposals; Ranking

5.4 After the evaluation of technical proposal against the criteria and the marks specified in the RFP, the technically qualified responsive firms will be intimated the date of opening of the financial proposal.

The financial proposal will have opened on the date, time and venue as per the letter communicated to the technically responsive firms by the client.

5.5 The Financial Proposals shall be opened in the presence of the Service Provider/ their authorized Representatives who choose to attend. The name of the Service Provider, the quality scores, and the proposed prices shall be read aloud and recorded when the Financial Proposals are opened.

5.6 The evaluation committee will determine whether the Financial Proposals are complete as per the specified breakdown of cost as specified in section (4) of the information to Service Provider of RFP.

The Client will select the lowest proposal (evaluated price) among those of the technically qualified firms. The selected Service Provider will be invited for negotiations.

- 5.7 The lowest Financial Proposal (Fm) will be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet: $S = St \times T\% + Sf \times P\%$. The Service Provider achieving the highest combined technical/financial score will be invited for negotiations.

6. NEGOTIATIONS

- 6.1 Negotiations will be held at the address indicated in the Data Sheet. The aim is to reach agreement on all points and sign a contract.
- 6.2 Negotiations will include a discussion of the Technical Proposals, the proposed methodology of work plan, staffing and any suggestions made by the firm to improve the Terms of Reference. The Client and Service Provider will then work out final Terms of Reference, staffing and bar charts indicating activities, staff, periods in the field and in the home office, staff-months, logistics, and Reporting. The agreed work plan and final Terms of Reference will then be incorporated in the “Description of Services” and form part of the contract. Special attention will be paid to getting the most the Service Provider can offer within the available budget and to clearly defining the inputs required from the Client to ensure satisfactory implementation of the Assignment.
- 6.3 Unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff (no breakdown of fees) nor other proposed unit rates.
- 6.4 Having selected the Service Provider on the basis of among other things, an evaluation of proposed key professional staff, the Client expects to negotiate a contract on the basis of the experts named in the Proposal. Before contract negotiations, the Client will require assurances that the experts will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the assignment. If this is not the case and it is established that key staff was offered in the proposal without confirming their availability, the Service Provider may be disqualified.
- 6.5 The negotiations will conclude with a review of the draft from the contract. To complete negotiations the Client and the Service Provider will initial the agreed contract. If negotiations fail, the Client will invite the firm whose proposal received the second higher score to negotiate a contract.

7. AWARD OF CONTRACT

- 7.1 The contract will be awarded after negotiations are completed, the Client will promptly notify other Service Provider who were unsuccessful through KPP Portal.
- 7.2 The Service Provider is expected to commence the Assignment on the date and the location specified

in the Data Sheet.

8. CONFIDENTIALITY

- 8.1 Information relating to evaluation of proposals and recommendations concerning awards shall not be disclosed to the Service Provider who submitted the proposals or to other persons not officially concerned with the process, until the winning firm has been notified that it has been awarded the contract.

SI No	Details	Points
1	The Bidder should be a company registered in India under companies Act 1956 or 2013/ LLP registered and operating for the last 10 years or more in IT/ITeS Services as of 31st March 2025. Company should be minimum ten years since inception. 10-15 years – 7.5 Marks. - More than 15 years – 10 Marks.	10
2	The Bidder should have a minimum Average Annual Turnover of Rs. 30.10 Crores, during the last three financial years i.e. 2022-23, 2023-24 and 2024-25. - Average Annual Turnover > 30.10 Crores to less than 50 Crores = 10 marks. - Average Annual Turnover >= 50 to less than 75 Crores = 15 marks. - Average Annual Turnover >= 75 Crores = 20 marks.	20
3	The bidder should have experience in gone Live project in IT Transformation project / ICT Project / IT & ITES projects with any State/Central Govt Organization/PSU/Govt Dept. during the last 5 years in India comprising minimum of One (1) project of value not less than INR 15.05 crores OR two (2) projects of value not less than INR 7.53 crores each. Total Cost of Projects: 15.05Cr up to 20.00Cr – 10 Marks. 20.00Cr up to 30 Cr projects – 15 Marks. 30 Cr or more – 20 Marks.	20
4	The bidder must have minimum 50 Technical manpower on its payroll > 50 to 100 employees – 7.5 Marks. > 100 employees – 10 Marks.	10
5	The Bidder should possess all three (3) of the following Certifications which are valid at the time of bid submission: - ISO 9001 - ISO/IEC 27001 - CMMI level 3 CMMI certification will be verified on https://www.cmmiinstitute.com/pars/ - ISO 9001 + 27001 + CMMI Level 3 – 5 Marks. - ISO 9001 + 27001 + 20000-1 + CMMI Level 3 – 7.5 Marks. - ISO 9001 + 27001 + 20000-1 + CMMI level 5 – 10 Marks.	10
6	Presentation (Presentation should be supported with Relevant information/data). Technical Presentation: Clearly indicating a complete understanding of the project along with a proposed work plan, methodology of implementation, risks envisaged and their mitigation, operations, maintenance...etc. Along with this a demo of any similar application during this presentation is mandatory.	20
7	Competence of the key professional staff for the Assignment: The number of points to be given for qualifications and competence of the key professional staff for the assignment are: Curriculum vitae of the key professional personnel as indicated in the terms of reference and scope of services will be considered for evaluation.	10
	Total	100
	The minimum technical score required to qualify is : 65 points	

The minimum technical score required to pass is 65 points.

The formula for determining the financial scores is the following:

1. Evaluation criteria proposed to be adopted will be Quality cum Cost Based System (QCBS) where Technical Bid Score will get a weightage of 75% and Commercial Bid Score a weightage of 25%.
2. The bidder would be technically evaluated out of 100 marks. All the bidders who Secure overall minimum of 65 Marks out of 100 across (all the components together) will be considered as technically qualified. Technical score of all bidders will be calculated based on the following formula:
Normalized Technical Score of a bidder = {Technical Score of that bidder / Score of the bidder with the highest technical score} X 100 (adjusted to 2 decimals).
3. The Bid having the Lowest Commercial Quote shall be termed as the Lowest Evaluated Bid. Commercial score fall the other bidders will be calculated on the basis of the following formula:
Normalized Commercial Score of a bidder = {lowest quote/ bidders quote} X 100 (adjusted to 2 decimals)
4. Final Score of the bidder: Final Score of each bidding party will be computed by adding the Technical score and Commercial Score on the basis of the following formula:
Final Score = (Normalized Technical Score of a bidder *75%) + (Normalized Commercial Score of a bidder*25%).
5. The bidder whose bid has secured the “Highest Total Score “out of 100 as per above evaluation will be considered as best evaluated Bid. In case of a tie where two or more bidders achieve the same highest overall score, the bidder with the higher technical score will be invited first for negotiations.

6.1 The address for negotiations is: Chief Executive Officer & Secretary, Karnataka Building and Other Construction Workers Welfare Board, Bengaluru.

7.2 The Assignment is expected to commence in the month of ____ 2026.

3F. FORMAT OF CURRICULUM VITAE (CV) FOR PROPOSED KEY PROFESSIONAL STAFF

Proposed Position: -----

Name of Service Provider:

..... Name of Staff:

..... Profession:

..... Date of

Birth:

Years with Firm/Entity: Nationality:.....

Membership in Professional Societies:

.....

Detailed Tasks Assigned:

.....

Key Qualifications:

(Give an outline of staff member's experience and training most pertinent to task an assignment. Describe degree of responsibility held by staff member on relevant previous assignments and give dates and locations.

Use about half a Page)

.....

Education:

(Summaries college/university and other specialized education of staff member, giving names of schools, dates attended and degrees obtained. (Use about one quarter of a page)

.....

Employment Record:

(Starting with present position. list in reverse order every employment held. List all positions held by staff member since graduation, giving dates, names of employing organizations, titles of positions held, and locations of assignments. For experience in last ten years, also give types of activities performed and client references where appropriate. Use about two pages)

.....

Languages:

(For each language indicate proficiency, excellent, good, fair, or poor, in speaking, reading and writing)

.....

Certification:

I, the undersigned, certify that to the best of my knowledge and belief, these data correctly describe me, my qualification, and my experience.

.....Date:.....

(Signature of staff member and authorized Representative of the Service

Provider) Full name of staff member:.....

Full name of authorized Representative:.....

3G. TIME SCHEDULE FOR PROFESSIONAL PERSONNEL

Sl. No.	Name	Position	Reports Due/Activities	Months (in the form of a Bar Chart)*												Number of Months

1. BACKGROUND
2. A CONCISE STATEMENT OF OBJECTIVES
3. AN OUTLINE OF THE TASKS TO BE CARRIED OUT
4. SCHEDULE FOR COMPLETION OF TASKS
5. DATA, SERVICES AND FACILITIES TO BE PROVIDED BY THE CLIENT
6. FINAL OUTPUTS (I.E., RFPs, DRAWINGS ETC) THAT WILL BE REQUIRED OF THE SERVICE PROVIDER
7. COMPOSITION OF REVIEW COMMITTEE TO MONITOR SERVICE PROVIDER WORK
8. PROCEDURE FOR REVIEW OF PROGRESS RFPs, INSPECTION, STATUS, FINAL DRAFT AND FINAL RFPs
9. LIST OF KEY PROFESSIONAL POSITIONS WHOSE CV AND EXPERIENCE WOULD BE EVALUATED (This should be same as indicated in Clause 3.3(iv) of Data Sheet to Information to Service Provider)

Design, Development, Implementation, Operation and Maintenance of Labour CESS Tracking & Monitoring System, Karnataka.

BACKGROUND

1. Introduction

The Karnataka Labour Department, through its statutory body — the Karnataka Building and Other Construction Workers Welfare Board (KBOCWBB) — is entrusted with the collection of 1% labour cess from all construction-related activities across the state, as per the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Rules framed in 1998. This cess is earmarked for the welfare of registered construction workers and their dependents, including healthcare, education, insurance, and other socio-economic benefits.

Despite clear legal mandates and the growing volume of construction in Karnataka, the Labour Department has identified that cess collections are substantially lower than the expected potential. Current estimates indicate that only 30–40% of eligible cess is being collected. Several factors contribute to this gap, including:

- Unable to assess the demand in terms of collection from stakeholders.
- Stakeholders have their own system to collect & share the CESS.
- A few stake holders have digitized & a few are in manual mode, so this becomes a hybrid situation
- Lack of information & cess tracking systems.
- Inconsistent data sharing between stakeholder departments.
- Manual and delayed reporting processes.
- Unmonitored construction activities, especially in peri-urban and rural areas.
- Non-standardized formats for cess submissions and approvals.

2. Abstract:

The Karnataka Building and Other Construction Workers' Welfare Board (KBOCWBB) is mandated to collect 1% CESS on all building and other construction activities as per the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996, and CESS Act, 1996. The CESS deducted by government undertakings, Urban Local Bodies (ULBs), and other agencies must be remitted to the Board within 30 days. These funds are vital to implement various welfare schemes for construction workers, and any delay leads to direct financial and welfare losses.

2.1 PRESENT ISSUES:

- **Difficulty in Demand Assessment:** Non-availability of timely data leads to underestimation of annual demand, impacting budgetary planning and welfare scheme execution.
- **Delay in Remittance:** Many departments and government undertakings deduct CESS but do not remit within the stipulated 30 days.
- **Lump-sum Transfer without Details:** Remittances are made after long delays and often in bulk, without proper breakup or details of deductions project-wise or year-wise.
- **Lack of Transparency:** The Board is unaware of the status of funds until approached by AG or other external auditors.
- **Interest Loss:** Delay in remittance means funds are not parked in nationalized banks on time, causing huge interest losses to the Board.
- **Audit Objections:** Due to incomplete reconciliation and reporting gaps, the Board faces statutory audit objections.

2.2 SOLUTIONS:

To address the above issues, the Board proposes to implement an Integrated CESS Remittance Monitoring and Management Software with the following features:

- **REAL-TIME INTEGRATION:**
 - Single cess portal login to be created with integration to KBOCWWB's KSK Platform
 - "Integration with e-Proc, treasury, building plan approval, and any other software will provide real-time intelligence, enable sharing of information with stakeholders, and compel them to raise demand promptly."
- **AUTOMATED TRACKING & ALERTS:**
 - Tracks deductions project-wise, department-wise, and region-wise.
 - Auto-alerts/reminders to remitting agencies for non-payment beyond 30 days.
- **DIGITAL RECONCILIATION:**
 - Automated reconciliation of deducted vs. remitted CESS.
 - Audit-ready reports for CAG/AG verification.
- **TRANSPARENCY & ACCOUNTABILITY:**
 - Dashboard for real-time monitoring of outstanding dues.
 - Authorized officers can view pending remittances and follow up accordingly.
- **FINANCIAL OPTIMIZATION:**
 - Automatic calculation of interest loss due to delay.
 - Early fund availability ensures timely deposit in nationalized banks and maximization of interest income.
- **WORKFLOW AUTOMATION:**
 - Digital correspondence and reminders with departments.
 - Escalation matrix if delay persists beyond prescribed limits.
- **EASE OF ACCESS, DATA ANALYTICS & FORECASTING:**
 - Web-based and mobile-enabled system for both government and private stakeholders & Mobile application for assessment.
 - User-friendly interfaces for uploading, verification, and payment acknowledgment.

2.3 EXPECTED OUTCOMES:

- Timely remittance of CESS by all agencies.
- Accurate assessment of annual demand and availability of funds.
- Elimination of interest losses.
- Transparency in fund flow and accountability across departments.
- Strengthened compliance with statutory obligations.
- Improved welfare delivery to construction workers.

3. A comprehensive, digital transformation strategy for cess management, a centralized, IT-enabled solution that includes:

- Department-level cess tracking dashboards.
- Automated cess computation from tender/project data.

- Integration with available information systems at different department or semi- automate information flow or manual (in case of non-IT systems) for labour department processing
- A digital platform for document management, workflow approvals, and notice generation.
- Real-time MIS and KPI dashboards to support policy decisions.
- APIs and custom forms for seamless onboarding of departments with/without IT infrastructure.
- The solution (modules of the proposed software application of this document will be owned by the KBOCWBB board along with latest version of the developed software application.
- The solution will be owned, governed and managed by the KBOCWBB and will be hosted in the Karnataka State Data Centre (SDC) with support for security audits, capacity building, and long-term maintenance.
- This solution will not be licensing version nor any COTS model. This application should be custom built only.

4. Roles and Responsibilities Matrix

Stakeholder Type	Responsibilities
Labour Department	Oversight, coordination with all other departments to enable integration for required data transfer, enforcement policy
KBOCWBB	Fund management, data provisioning, compliance enforcement, ensure appropriate timely approvals for integration with all CESS collection agencies/departments. Providing all the business rules to the implementing agencies. To ensure & create awareness to all the CESS collection agencies to comply for integration via CESS API self-service portal.
Other CESS Collection agencies	Project data submission, cess deduction at source, system usage by automated data exchange through integration by CESS API Self Service portal / application or create an account in CESS portal and update the records periodically or as defined by policy.
Implementing Agency	To design, build the required application software as mentioned in Scope of Work of this document & integrate with 3 rd party software application (KBOCWBB's KSK platform and to the list of agencies as listed in 7 & 8), the Implementing agency will provide CESS API self-service portal & technical support wherever required.

5. Scope of Work

To address the systemic inefficiencies and revenue leakages in Karnataka's labour cess collection process, desired a technology-led intervention:

Purpose:

To build a digital, centralized system that automates the full lifecycle of cess collection — from project registration and cess calculation to payment tracking, monitoring, reporting, and compliance enforcement.

Key Features:

Feature	Description
Infra Registry	Department-wise registration of all new construction projects, with details like project name, location, type, estimated cost, developer/contractor info, timelines.

Information Integration	Calculates 1% cess dynamically based on project inputs pulled from e-Procurement, building permit systems, and departmental entries.
Workflow Engine	Handles back-end data, approval workflows — project validation, cess calculation and validation, payment confirmation, compliance reminders.
MIS & Analytics Dashboards	Provides real-time department-wise cess collection, project status, cost/time overruns, pending actions, KPIs, and trends.
CESS API self-service portal for Integration	Integration with KBOCWVB's KSK platform as per clause 7 & 8 of this document

6. MODULES OF THE PROPOSED SOFTWARE APPLICATION

Module 1

Super administrator

- Creation of main master data for territory, organization structure etc.
- Managing the role-based access control system.
- User privilege settings.
- Controlling smart middleware module.
- Operational logs
- System logs
- Reports.
- Database backups.
- Version logs.

Module 2

Territory (MIS and GIS based)

- Creation of territories with details.
- Hierarchical Mapping of territories.

Module 3

Organization structure

- Departments and sub department masters
- Hierarchical Designation mapping.
- Users/staff profile creation.
- Mapping: Department, territory, designation and user.
- Services and subservices
- Subservices based stages with action mapping

Module 4

Inward/outward

- Integrated with Labour cess portal and Appeal module.
- Generation of digital inward acknowledgment.
- Integration with Document management system (DMS) and E-office module.
- Auto forward of inward application to respective inbox based on service mapping matrix for further processing.
- Generation of digital outward acknowledgment.

Module 5

Document management system (DMS)

- Provision to scan the documents letters, files and ledgers etc.
- OCR concept to search specific document.
- Integration with E-office module.

Module 6

E-office

- Integrated with territory and organization modules.
- Inbox based processing of files. Digital file processing system.
- Provision to have both Comment and document section.
- Integration with various applications through smart middleware to update the data on specific actions to bring automation.

Module 7

Meetings

- Provision to create meetings related to labour cess for both department staff and external government departments and private agencies.
- Provision to update minutes of meeting in case of physical meetings attended.
- Defining the agendas of the meetings.
- Delegation of tasks
- Integrated with alerts and notification module.
- Tracking of tasks / task management

Module 8

Back-office Labour cess application.

- Labour cess category
- Labour cess master
- Government departments master.
- Private agencies master.
- Building categories.
- Projects categories

Module 9

GPS enabled Assessment module (web and mobile application).

- Back-office web application to create a list of buildings and other construction projects to be assessed.
- Web application for Self-creation of list (buildings and other construction projects to be assessed) by the district in charge officials and imposing from state level intervention.
- Mobile application for Labour inspectors to fetch/update estimation details.
- GPS enables image and video capture.
- Survey module and calculation of labour cess. (for entire new construction and partial violation as per sanctioned estimates)
- Provision to generate demand notice on the spot.
- Tasks, notifications territory wise dashboards for real time data

Module 10

Appeal module

- Through Labour cess portal: Cess payee can login to their respective interface created in Labour cess portal to appeal for any discrimination in demand assessment, refunds etc.
- Through Labour cess portal: Grievance module to raise any complaints related to labour cess related issues.
- Through Labour cess portal: Provision to view the status of their respective appeals and grievances to bring transference.
- Through back-office Appeal module: Integration with inward and e-office to process the request

Module 11

Smart middleware. (SI – System Integration)

- Intra integrations (Integration with KBOCWBB's Karmika Seva Kendra software application)
- Intra integrations (Integration with other 3rd party applications)
- ◆ Integration with Building plan approval system at state level and individual town planning department like NIRMANA etc.
- ◆ Integration with Karnataka's E-procurement applications.
- ◆ Integration with treasury OR any other financial applications.
- ◆ Integration with GST applications.
- ◆ Provision to Integrate with any other state level, central level and Individual department level applications to create an intelligence data set.

Data pool (Managing the creating a mirror image of the data through API integration) to extend to predictive analytical reports

Module 12

Accounts

- Demand, collection, Balance related reports.
- Generate notices/reminders.
- Reconciliation of cess collections and refunds.
- Labour department staff exclusive mobile application.
- 1. Territory wise / designation wise real time dashboard reports.
- 2. Comprehensive Assessment module.
- 3. Labour inspectors/concerned staff to fetch/update estimation details.
- 4. Demand / assessment notice generation on the spot. Provision to print and softcopy notice through mail.
- 5. Processing of Appeal/grievance application.
- 6. Meetings module.
- 7. Alerts and notifications.
- 8. GPS enabled information update option with time stamp.

Module 13

Back-office GIS based analytical plat form (Buildings and projects)

1. Provision to super-impose of different GIS layers.
2. Displaying of line segment and polygons.

Module 14

Auto alerts and notifications.

1. Defining the alerts messages and notification templates.
2. Settings for periodic auto alerts and notifications.
3. Settings of auto alerts and notifications on specific triggers and events.
4. Tracking responsive observations related to individual alerts and notifications.
5. Escalation matrix.

Module 15

Analytical reports with decision support system.

1. Artificial intelligence for generating analytical, predictive reports for better decision support system.
2. Provision to integrate with control and command center (future enhancements).
3. Push alerts and notifications to department staffs /users and external government departments and private agencies.

Module 16

Labour cess portal

1. Secured logins to Content management system for both government departments and private agencies.
2. Cash counter to collect Labour cess and generate QR code acknowledgement receipt. All type of collection modes like cash, debit and credit cards, dynamic QR code, net banking etc.
3. Incorporation of LCDRS (Labour cess deductions/collection and remittance at source)
4. Scheduled demand update interface.
5. Push respective intelligence data both MIS and GIS from back-office Integration details.
6. Provision to pay collected cess to labour department (Bank Accounts integrated) as per Demand details.
7. Self-real time DCB dashboards. Information related to discrepancies / leakage of labour cess.
8. Grievance registration and tracking.
9. Assessment demand notice details.
10. Alerts and notifications.

Module 17

CESS API/Connector Self Service Portal

1. A dedicated Self-Service Portal for CESS API and Connector management, providing pre-defined, ready-to-use connectors for all Collection Agencies listed in Annexure A and Annexure B.
2. Pre-configured API connectors for each CESS Collection Agency, enabling plug-and-play integration without the need for custom development effort per agency.
3. Standardized connector templates covering authentication mechanisms, data exchange formats, and error-handling protocols for each agency type.
4. Self-service onboarding for new Collection Agencies, allowing them to register, configure, and activate their connector through an intuitive web-based interface without requiring manual intervention from KBOCWWB technical staff.
5. Connector health monitoring dashboard to track the status, uptime, and real-time data flow of each active agency connector, with alerts for connectivity failures or data discrepancies.
6. Version management for API connectors, enabling agencies and administrators to manage connector versions, apply updates, and roll back to a previous version if required.
7. Support for both REST and SOAP-based APIs, accommodating the diverse technology landscape across all CESS Collection Agencies.
8. Automated testing sandbox for agencies to validate their connector configuration and data mapping before going live, reducing integration errors.
9. Detailed connector usage logs and audit trails for each agency's data submissions, enabling compliance verification and troubleshooting.
10. Role-based access control allowing KBOCWWB administrators to approve, revoke, or reconfigure any Collection Agency's connector access, ensuring governance and security of all integrations.

7. API for Integration

To link the new CESS application with the existing KBOCWBB platform, these APIs are necessary for real-time data exchange:

- **Builder/Contractor Profile Sync API:** Fetches Aadhaar-verified details and mobile numbers of registered builders or contractors to auto-populate cess registration forms.
- **Cess Payment Collection API:** A secure interface to handle online payments via Net Banking, UPI, or Cards, directly linked to the board's accounting system.
- **Officer Review Action API:** Allows Labour Department Officers to view project details, uploaded documents, and payment records in one unified interface.

Validations to Match with Existing Platform

- **Officer Mapping (RBAC):** The "Registering Officer" selected in the CESS module should be restricted to the same dropdown list of ALC/LO Officers used in the Builder/Contractor modules.

8. LIST OF CESS COLLECTION AGENCIES WITH WHOM THIS INTEGRATION SHOULD BE ACHIEVED:

Apart from KBOCWBB's KSK platform integration, the following are different state, central and PSU departments that involve in construction activities, the application should facilitate to have information from these departments.

Annexure A

1. Khajane 2.0
2. Karnataka Public Portal (eProc)

9. FUNTIONALITIES		
SL NO	FUNTIONALITIES	BRIEF DESCRIPTION
1	Secured logins to Content management system for both government departments and private agencies.	Creation of accounts for all government department and private agencies will happen in back-office labour cess application and login credentials will be provided through their respective mail id. Secured access by two factor authentication for login functionality needs to be provided.
2	Cash counter to collect Labour cess and generate QR code acknowledgement receipt. All type of collection modes like cash, debit and credit cards, dynamic QR code, net banking etc.	Exclusive cash counter interface to collect labour cess through many modes of collection feature should be provided. This feature helps to get to know the demand on real time basis and genuine acknowledgment receipt can be generated.
3	Incorporation of LCDRS (Labour cess deductions/collection and remittance at source)	Needs to bring the concept of remittance to labour cess bank account at the time of collection through above mentioned cash counter interface. This concept helps in bringing accountability, transference and tremendous effort in follow up for already collected remittance.
4	Scheduled demand update interface.	Interface will be provided to update the demand/collection details mandatorily on a periodic basis. This will bring real time information about cess collection and participation from all the different stake holders in joining hand to improve and strengthen construction workers welfare scheme.
5	Push respective intelligence data both MIS and GIS from back-office Integration details.	This particular feature helps to identify the leakage in labour cess demand and collection. Back office predictive analytical intelligence information helps respective stake holders (cess collecting government departments and private agencies) not only stop labour cess leakage, they will also get use full information for their activities. Ex, Unauthorized/violation in building construction information etc.
6	Provision to pay collected cess to labour department (Bank Accounts integrated) as per Demand details.	In case of collection through cash OR optional feature of other government departments and private agencies to collect labour cess on behalf of labour board department, then a separate interface to transfer collected cess either through their respective bank accounts to labour cess account OR through Treasury etc. Here along with labour cess remittance, information about

		the paying stake holder details with periodic demand also should be collected.
7	Real time DCB dashboards. Information related to discrepancies / leakage of labour cess.	This feature will facilitate the account holder to get the complete history related to labour cess demand, collection, remittance and other intelligent information.
8	Grievance registration and tracking.	In case of any clarification or grievance, account holder will get an interface to register their concerns / feedbacks and also can track the status.
9	Assessment demand notice details.	This feature is integrated with back-office web and exclusive mobile application related to assessment module. Any survey/assessment order issued by labour inspector or respective staff, that particular information will be shared to respective stake holders.
10	Alerts and notifications.	In case of delay in sharing the information related to labour cess demand, collection and actual remittance, auto alerts and notifications will help to expedite the process.

10. CENTRAL ARCHITECTURE OVERVIEW

Component	Description
Application Layer	Web and mobile-based interfaces for departments, engineers, and administrators
Integration Layer	REST APIs for data ingestion
Data Layer	Centralized database hosted on SDC for storing project, payment, inspection, and GIS records
Security Layer	Role-based access control, encryption, audit trails, API authentication
Analytics & Reporting	Dashboards, trend reports, alerts, and notifications

11. Detailed additional features of the Modules

The Labour CESS Tracking & Monitoring System is envisioned as a modular, extensible, and interoperable platform built to serve the full lifecycle of cess administration. Further to the modules as explained in 5 & 6 of this document, following are some additional features desired & each module will handle specific tasks in the cess collection, verification, compliance, monitoring, and reporting pipeline.

This section outlines the core functional modules, their purpose, features, and interdependencies.

Cess Tracking and Monitoring System – Modules:

- Integration with KBOCWBB's Karmika seva kendra software application.
- GIS/Imagery Data Management and Reviewing.
- Automated/Semi automated Integrations.

- Dashboard for Analysis and Insights.
- Centralized Data management.
- Workflow and process management.
- Templatization of information.
- Document Management.
- Notice generation work flow.
- Assessment order.
- Builders Module.
- Templatization of Information.
- Appeal Module.
- Financial Module.
- Payment Gateway Integration.

To enhance the monitoring and tracking system for Labour Cess collection in Karnataka primarily includes the following key components: automated or semi-automated information collection, formation of a data repository, development of an analytical dashboard, electronic document management, for quick/rough estimation. Each of these components is critical for ensuring comprehensive compliance and effective utilization of collected cess for the welfare of construction workers.

12.1 INFORMATION COLLECTION FROM VARIOUS DEPARTMENTS

To effectively monitor construction activities and ensure proper cess collection, it is crucial to establish automated integrations with various governmental and regulatory bodies. This involves:

Automated/Semi automated Integrations: Creating seamless data-sharing connections with departments such as Urban Development Authorities, Public Works Departments, municipal bodies, and utility service providers. These integrations will automatically pull data related to new building permits, construction approvals, utility connections, and other indicators of ongoing construction projects.

Periodic Updates: Ensuring that the data is updated periodically to reflect the most current status of construction activities, enabling timely intervention and compliance checks.

In case of unavailability of IT systems or direct integration feasibility, the application/system should have the required mechanism to capture the data by manual entry of required data by the respective departments.

KBOCWWB would facilitate the connection with departments respective applications. KBOCWWB would identify if there is other means of getting information (eg: state and central tender management system), the same would be facilitated to bidder. The application's technical integration would be done by bidder.

12.2 FORMATION OF DATA REPOSITORY

Once the data is collected from various sources, including the application developed by govt agency, it needs to be systematically organized and stored in a centralized data repository. This involves:

Centralized Database: Establishing a robust and secure central database to store all the information collected from different departments. This database should be scalable to accommodate the large volume of data and ensure data integrity and security.

Data Categorization: Structuring the database to categorize data by various parameters such as project size, type, location, cost, and compliance status. This categorization will facilitate easy retrieval and analysis of information.

Historical Data Management: Maintaining historical records of all construction activities and cess collections to enable trend analysis and long-term planning. Historical data can help in identifying patterns of non-compliance and areas that need more stringent monitoring.

12.3 DASHBOARD FOR MONITORING AND ANALYSIS

To effectively monitor cess collection and identify areas of leakage, it is essential to develop an analytical dashboard that provides a comprehensive overview of key performance indicators (KPIs). This involves:

Dashboard Development: Creating an interactive and user-friendly dashboard that displays real-time data and visualizations of construction activities, cess collected, reported projects, and potential leakages. The dashboard should offer various views and filters to drill down into specific details.

Key Performance Indicators (KPIs): Defining and tracking KPIs such as total cess collected, number of registered vs. unregistered projects, compliance rate, revenue leakage, and regional distribution of construction activities. These KPIs will help in measuring the effectiveness of the monitoring system and identifying areas for improvement.

Analytics and Reporting: Integrating advanced analytics to generate insights and predictive models. The dashboard should be capable of producing detailed reports and analytics that can aid in decision-making and strategic planning. Regular reports can be generated to monitor performance and compliance trends over time.

12.4 ADVANCED DOCUMENT MANAGEMENT:

Efficient management of construction documents, this involves:

Document Repository: Implementing a document management system (DMS) that allows for the secure storage and retrieval of all project-related documents, including blueprints, permits, contracts, and compliance reports.

Review and Approval Workflows: Establishing workflows within the DMS for reviewing and approving documents. This ensures that all necessary documentation is reviewed and approved by the appropriate authorities before project commencement or at key milestones.

12.5 CAPACITY BUILDING & TRAINING STRATEGY

- Train-the-Trainer Model: Master trainers at state and division levels will cascade training to district and taluk-level officers.
- Training Channels:
 - In-person sessions (ULB and department clusters).
 - Online video tutorials and manuals.
 - Sandbox training environments for hands-on practice.
- Target Participants:
 - Labour Inspectors.
 - Engineers and Nodal Officers in departments.
 - Board Staff, and other Analysts.

12.6 HOSTING, SECURITY & PERFORMANCE PLAN

Area	Strategy
Hosting	Karnataka State Data Centre (KSDC), with DR site
Performance	Load-balanced architecture, scalable DB
Security	Role-based access, SSL, encrypted storage, audit logs
Compliance	Conformance with IT Act

Monitoring	Admin dashboards, system health monitoring tools, alert thresholds
------------	--

12.7 RISK MITIGATION STRATEGIES

Risk	Mitigation
Departmental non-compliance	Mandate reporting via G.O.; provide custom forms & support
Delay in data processing	Procure verified imagery in advance; stagger rollouts
Low adoption by officers	Targeted training, mobile-first design, helpdesk handholding
System downtime or failure	DR setup at SDC, regular backups, automated monitoring
Data inconsistency	API validation, manual override workflows, pre-ingestion filters

13. Milestones for the delivery of the project:

Phase 1: SRS

Studying existing applications of KBOCWWB, preparation of requirements specification document (SRS) – 30 days

Phase 2: Design, Develop & Deployment

Milestone 1: Software module 1 to 6 delivery-30 days from receipt of Purchase Order

- Module 1: Super administrator
- Module 2: Territory (MIS and GIS based)
- Module 3: Organization structure
- Module 4: Inward/outward
- Module 5: Document management system (DMS)
- Module 6: E-office

Milestone 2: Software module 7 to 9 delivery-30 days from successful deployment of Milestone 1

- Module 7: Meetings
- Module 8: Back Office-Labour Cess Application
- Module 9: GPS based assessment

Milestone 3: Software module 10 to 16 delivery- 60 days from successful deployment of milestone 2

- Module 10: Appeal Module
- Module 11: Smart Middleware
- Module 12: Accounts
- Module 13: Back-office GIS based analytical platform
- Module 14: Auto alerts & notification
- Module 15: Analytical reports with decision support system
- Module 16: Labour CESS Portal GO live

Phase 3: Integration

- 1.) Integration with existing KBOCWWB's KSK platform as per clause 7; 90 days from successful deployment of milestone 3 of Phase 2
- 2.) Successful implementation of Module 17 with the list of connectors for agencies provided in Module 8: 30 days from successful deployment of milestone Phase 3.1 (Integration)

Phase 4: Training

Training and capacity building: 30 days after phase 3 implementation

Phase 5: AMC

- 1.) AMC year one: starts from the date of completion of Phase 3.1 & will be under AMC for 12 months.
- 2.) AMC year two: starts from 13th month from date of completion of first year AMC.

14. Data Governance

- **Ownership:** The entire software application & All cess data and project metadata will be owned by KBOCWVB. Entire Project application software (latest Version) source code should be handed over to the KBOCWVB by the application developing System integrating agency even for the ready to use modules
- All cess data and project metadata will be owned by KBOCWVB.
- **Access Control:** Role-based data visibility (e.g., Inspector sees only assigned projects).
- **Auditability:** All actions, entries, edits will be logged and timestamped.
- **Data Sharing:** Any data shared externally (e.g., for audits or treasury checks) will be approved and encrypted.

15. Terms of payment

SL No	Milestone	Percentage of Payment
1	Completion of software modules Milestone 1 as per Phase 2 of this Tender document.	10%
2	Completion of software modules Milestone 2 as per Phase 2 of this Tender document.	10%
3	Completion of software modules Milestone 3 as per Phase 2 of this Tender document.	10%
4	API integration with KBOCWVB's KSK software & Online Payment collection via KBOCWVB's API only as per Phase 3.1 of this Tender document.	10%
5	Delivery of CESS API/ Connector self-service portal as mentioned in Phase 3.2 of this Tender document.	45%
6	AMC Year one- as per Phase 5.1 of this Tender document.	7.50%
7	AMC Year Two- as per Phase 5.2 of this Tender document.	7.50%

I. FORM OF CONTRACT

This contract (herein after called the “Contract”) is made the of the month between, on the one hand *KB&OCWWB, Bengaluru* (hereinafter called the “client” and, on the other hand ... (hereinafter called the “Service Provider”)

WHEREAS

- a) the Client has requested the Service Provider to provide certain consulting services as defined in the General conditions of contract attached to this Contract (hereinafter called the “Services)
- b) the Service Provider, having represented to the Client that they have the required professional skills and personnel and technical resources, have agreed to provide the Services on the terms and conditions set forth in this Contract:

NOW THEREFORE the parties hereto hereby agree as follows: -

- I. The following documents attached hereto shall be deemed to form an integral part of this Contract:

- a) The General Conditions of Contract (hereinafter called “GC”);
- b) The Special Conditions of contract (hereinafter called “SC”);
- c) The following Appendices:
 - Appendix A: Description of the Services
 - Appendix B: Reporting Requirements
 - Appendix C: Key personnel and sub-Service Provider
 - Appendix F: Form of Guarantee for Advance payments

2. The mutual rights and obligations of the Client and Service Provider shall be as set forth in the Contract, in particular:

- a) The Service Provider shall carry out the Services in accordance with the provisions of the contract and
- b) The Client shall make payments to the Service Provider in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

FOR AND ON BEHALF OF

Karnataka Building and Other Construction Workers Welfare Board, Bengaluru.

FOR AND ON BEHALF OF

by

(Authorized Representative)

II. GENERAL CONDITIONS OF CONTRACT

1. GENERAL PROVISIONS

1.1 Definitions

Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

- a) **“Applicable Law”** means the laws and any other instruments having the force of law in INDIA, as they may be issued and in force from time to time;
- b) **“Contract”** means the Contract signed by the Parties to which these General Conditions of Contract (GC) are attached, together with all the documents listed in Clause I of such signed Contract;
- c) **“Effective Date”** means the date on which this Contract comes into force and effect pursuant to Clause GC 2.1.
- d) **“Contract Price”** means the price to be paid for the performance of the Services, in accordance with Clause 6;
- e) **“GC”** means these General Conditions of Contract;
- f) **“Government”** means the Government of Karnataka;
- g) **“Local currency”** means Indian Rupees;
- h) **“Member”**, in case the Service Provider consist of a joint venture of more than one entity, means any of these entities, and “Members” means all of these entities; “Member in Charge” means the entity specified in the SC to act on their behalf in exercising all the Service Provider right and obligations towards the Client under this Contract.
- i) **“Party”** means the Client or the Service Provider, as the case may be, and parties means both of them.
- j) **“Personnel”** means persons hired by the Service Provider or by any sub-Service Provider as employees and assigned to the performance of the Services or any part thereof; and ‘Key personnel’ means the personnel referred to in Clause GC 4.2 (a).
- k) **“SC”** means the Special Conditions of Contract by which these General Conditions of Contract may be amended or supplemented;
- l) **“Services”** means the work to be performed by the Service Provider pursuant to this Contract as described in Appendix A; and
- m) **“Sub-Service Provider”** means any entity to which the Service Provider subcontract any part of the Services in accordance with the provisions of Clauses 3.5 and 4.
- n) **“Third party”** means any person or entity other than the Government, the Client, the Service Provider, or a sub-Service Provider.

1.2 Law Governing the Contract

This Contract, its meaning and interpretation, and the relation between the parties shall be governed by the applicable law.

1.3 Language

This Contract has been executed in English language, which shall be the binding of controlling language for all matters relating to the meaning or interpretation of this contract.

1.4 Notices

Any notice, request or consent made pursuant to this Contract shall be in writing, and shall be deemed to have been made when delivered in person to an authorized Representative of the party to whom the communication is addressed, or when sent by registered mail, telex, telegram or facsimile to such party at the address specified in the SC.

1.5 Location

The Services shall be performed at such locations as are specified in Appendix A and, where the location of a particular task is not so specified, at such locations, whether in Karnataka or elsewhere, the services shall be performed as the Client approves.

1.6 Authorized Representatives

Any action required or permitted to be taken, and any document required or permitted to be executed, under this Contract by the Client or the Service Provider may be taken or executed by the officials specified in the SC.

1.7 Taxes and Duties

The Service Provider, Sub-Service Provider and their Personnel shall pay GST, duties, fees and other impositions as may be levied under the Applicable Law, the amount of which is deemed to have been included in the Contract Price.

2. Commencement, Completion, Modification and termination of Contract

2.1 Effectiveness of Contract

This Contract shall come into effect on the date the contract is signed by both parties or such other date as may be stated in the SC.

2.2 Commencement of Services

The Service Provider shall begin carrying out the Services within thirty (30) days after the date the Contract becomes effective, or at such other date as may be specified in the SC.

2.3 Expiry of Contract

Unless terminated earlier pursuant to Clause 2.7, this contract shall terminate at the end of such time period after the Effective Date as is specified in the SC.

2.4 Modification

Modification of the terms and conditions of this contract, including any modification of the scope of the Service or of the Contract Price, may only be made by written agreement between the parties.

2.5 Force Majeure

2.5.1. Definition

For the purpose of this contract, “Force Majeure” means an event which is beyond the reasonable control of a Party, and which makes a Party’s performance of its obligations under the Contract impossible or so impractical as to be considered impossible under the circumstance.

2.5.2. No Breach of Contract

The failure of a Party to fulfill any of its obligations under the contract **shall not be considered to be a breach of**, or default under this Contract insofar **as such inability arises from an event of Force Majeure**, provided that the Party affected by such an event (a) has taken all reasonable precautions, due care, reasonable alternative measures in order to carry out the terms and conditions of this Contract, and (b) has informed the other Party as soon as possible about the occurrence of such an event.

2.5.3. Extension of Time

Any period within which a Party shall, pursuant to this Contract, complete any action or task, **shall be extended for a period equal to the time** during which such Party was **unable to perform such action as a result of Force majeure**.

2.5.4. Payments

During the period of their inability to perform the Services as a result of an event of Force Majeure, the Service Provider shall be entitled to continue to be paid under the terms of this Contract, as well as to be reimbursed for additional costs reasonably and necessarily incurred by them during such period for the purposes of the Services and in reactivating the Services after the end of such period.

2.6 Suspension:

The Client may serve written notice of suspension to the Service Provider, suspend all payments to the Service Provider hereunder if the Service Provider fail to perform any of their obligations under this contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Service Provider to remedy such failure within a period not exceeding thirty (30) days after receipt by the Service Provider of such notice of suspension.

2.7 Termination

2.7.1. By the Client

The Client may **terminate this Contract, by not less than thirty (30) days written notice of termination to the Service Provider**, to be given after the occurrence of any of the event specified in paragraphs (a) through (d) of this Clause 2.7.1. and sixty (60) days in the case of event referred to in (e):

- a) If the Service Provider do not remedy a failure in the performance of their obligations under the Contract, within thirty (30) days of receipt after being notified or within such further period as the Client may have subsequently approved in writing.
- b) If the Service Provider (or any of their Member) become insolvent or bankrupt;
- c) If, as the result of Force majeure, the Service Provider are unable to perform a material portion of the Services for a period of not less than sixty (60) days; or
- d) If the Service Provider, in the judgment of the Client has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

For the Purpose of this clause;

“corrupt practice” means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the selection process or in contract execution.

“fraudulent practice” means a misrepresentation of fact in order to influence a selection process or the execution of a contract to the detriment of GOK, and includes collusive practice among Service Provider prior to or after submission of proposals designed to establish prices at artificial non-competitive levels and to deprive GOK of the benefits of free and open competition. (As per 1.8 of section -2) P-6

- e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract.

2.7.2. By the Service Provider

The Service Provider may terminate this Contract, by not less than thirty (30) days written notice to the Client, such notice to be given after the occurrence of any of the events specified in paragraphs(s) through © of this Clause 2.7.2:

- a) if the Client fails to pay any money due to the Service Provider pursuant to this Contract and not subject to dispute pursuant to Clause 7 hereof within forty-five (45) days after receiving written notice from the Service Provider that such payment is overdue;
- b) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days or such long period as the Service Provider may have subsequently approved in writing following the receipt by the Client of the Service Provider’ notice specifying such breach;
- c) If, as the result of Force majeure, the Service Provider are unable to perform a material portion of the Services for a period of not less than sixty (60) days.

2.7.3. Cessation of Right and Obligations

Upon termination of this Contract pursuant to Clause GC 2.7, or upon expiration of this Contract pursuant to Clause GC 2.3, all rights and obligations of the Parties hereunder shall cease, except;

- i) such rights and obligations as may have occurred on the date of termination or expiration;
- ii) the obligation of confidentiality set forth in Clause GC 3.3 hereof;

- iii) the Service Provider obligations to permit inspection, copying and auditing of their accounts and records set forth in Clause GC 3.5 (ii) hereof; and
- iv) any right which a Party may have under the Applicable Law.

2.7.4. Cessation of Services

Upon termination of this Contract by notice of either Party to the other, pursuant to Clauses GC 2.7.1. or GC 2.7.2. hereof, the Service Provider shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Service Provider and equipment and materials furnished by the Client, the Service Provider shall proceed as provided, respectively, by Clauses GC 3.8 and GC 3.90.

2.7.5. Payment upon Termination

Upon termination of this Contract pursuant to Clauses 2.7.1 or 2.7.2, the Client shall make the following payments to the Service Provider after offsetting against these payments any amount that may be due from the Service Provider to the Client.

- a) Remuneration pursuant to Clause 6 for Services satisfactorily performed prior to the effective date of termination.
- b) reimbursable expenditures pursuant to Clause GC 6 hereof for expenditures actually incurred prior to the effective date of termination; and
- c) Except in the case of termination pursuant to paragraphs (a) and (b) of Clause 2.7.1. Reimbursement of any reasonable cost incident to the prompt and orderly termination of the Contract.

3. Obligation of the Service Provider:

3.1 General

The Service Provider shall perform **the Services and carry out their obligations hereunder with all due diligence, efficiency and economy, in accordance with generally accepted professional techniques and practices, and shall observe sound management practices, and employ appropriate advanced technology and safe methods.** The Service Provider shall always act, in respect of any matter relating to this Contract or to the Services, as faithful advisers to the Client, and shall at all times support and safeguard to the Client's legitimate interests in any dealings with sub-Service Provider or third parties.

3.2 Conflict of Interests

3.2.1. Service Provider Not to Benefit from Commission, Discounts etc.,

The remuneration of the Service Provider pursuant to Clause 6 shall constitute the Service Provider sole remuneration in connection with this Contract of the Services, and the Service Provider shall not accept for their own benefit any trade commission, discount or similar payment in connection with the activities pursuant to this Contract or to the Services or in the discharge of their obligations under Contract, and the

Service Provider shall use their best efforts to ensure that the Personnel, any sub-Service Provider, and agents of either of them similarly shall not receive any such additional remuneration.

3.2.2. Procurement rules of Funding Agencies

If the Service Provider, as part of the Services, have the responsibility of advising the Client on the Karnataka Public Procurement Portal of goods, works or services, the Service Provider shall comply with any applicable Karnataka Public Procurement Portal guidelines of the funding agencies and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Service Provider in the exercise of such procurement responsibility shall be for the account of the Client.

3.2.3. Service Provider and Affiliates not to engage in certain Activities

The Service Provider agree that, during the term of this contract and after its termination, the Service Provider and their affiliates, as well as any sub-Service Provider and any of its affiliates, shall be disqualified from providing goods, works or services other than the Services and any continuation thereof for any project resulting from or closely related to the Services.

3.2.4. Prohibition of Conflicting Activities

The Service Provider shall not engage, and shall cause their Personnel as well as their Sub-Service Provider and their personnel not to engage, either directly or indirectly, in any of the following activities;

- a) during the term of this Contract, any business or professional activities in KBOCWWB which would conflict with the activities assigned to them under this Contract; and
- b) After the termination of this Contract, such other activities as may be specified in the SC.

3.3 Confidentiality

The Service Provider, their Sub-Service Provider, and the Personnel of either of them shall not, either during the term or within two (2) years after the expiration of this Contract disclose any propriety or confidential information relating to the Project, the Services, this Contract, or the Client's business or operations without the prior written consent of the Client.

3.4 Insurance to be taken out by the Service Provider

The Service Provider (a) shall take out and maintain, and shall cause any sub-Service Provider to take out and maintain, at their (or sub-Service Provider as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage, as shall be specified in the SC; and (b) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums have been paid.

3.5 Service Provider action requiring Client's prior Approval

The Service Provider shall obtain the client's prior approval in writing before taking any of the following actions;

- a) entering into a subcontract for the performance of any part of the Services, it being understood (i) that the selection of the sub-Service Provider and the terms and condition of the subcontract have been approved in writing by the Client prior to the execution of the subcontract, and (ii) that Service Provider shall remain fully liable for the performance of the Services by the sub-Service Provider and its Personnel pursuant to the Contract; and
- b) appointing such members or the Personnel not listed by name in **Appendix C**, ("Service Provider, Sub Service Provider Key Personnel), merely by title and not by name;
- c) any other action that may be specified in the SC.
- d) Accounting, Inspection and Auditing The Service Provider (i) shall keep accurate and systematic accounts and records in respect of the Services, hereunder, in accordance with internationally accepted principles and in such form and detail as will clearly identify all relevant time charges and cost, and the basis thereof (including such bases as may be specifically referred to in the SC); (ii) shall permit the Client or its designated Representative periodically, and up to one year from the expiration or termination of this Contract, to inspect the same and make copies thereof as well as to have them audited by auditors appointed by the Client.

3.6 Reporting Obligations

The Service Provider shall submit to the Client the Reports and documents specified in **Appendix B** in the from, in the numbers, and within the periods set forth in the Appendix.

3.7 Documents prepared by the Service Provider to be the Property of the Client

All plans, drawings, specifications, designs, Reports and other documents and software submitted by the Service Provider in accordance with Clause 3.6 become and remain the property of the Client, and the Service Provider shall, not later than upon termination or expiration of this contract, deliver all such documents and software to the client, together with a detailed inventory thereof. The Service Provider may retain a copy of such documents and software. Restrictions about the future use of these documents, if any, shall be specified in the SC.

3.8 Equipment and materials Furnished by the Client

Equipment and materials made available to the Service Provider by the Client or purchased by the Service Provider with funds provided by the Client shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this contract, the Service Provider shall make available to the Client an inventory of such equipment and materials and shall dispose of such equipment and materials in

accordance with the Clients instructions. While in possession of such equipment and materials, the Service Provider, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their Replacement value.

4. Service Provider Personnel

4.1 Description of Personnel

The titles, agreed job descriptions, minimum qualifications and estimated periods of engagement in the carrying out of the Services of the Service Provider' Key Personnel are described in Appendix C. The Key Personnel and Sub-Service Provider listed by title as well as by name in Appendix C are hereby approved by the Client.

4.2 Removal and/or Replacement of Personnel

- (a) Except as the Client may otherwise agree, no changes shall be made in the Key Personnel. If, for any reason beyond the reasonable control of the Service Provider, it becomes necessary to replace any of the Key Personnel, the Service Provider shall forthwith provide as a replacement a person of equivalent or better qualifications.
- (b) If the Client finds that any of the Personnel have (i) committed serious misconduct or has been charged with having committed a criminal action, or (ii) have reasonable cause to be dissatisfied with the performance of any of the Personnel, then the Service Provider shall, at the Client's written request specifying the grounds therefor, forthwith provide as a replacement a person with qualifications and experience acceptable to the Client.
- (c) The Service Provider shall have no claim for additional costs arising out of or incidental to any removal and/or replacement of Personnel.

5. Obligations of the Client

5.1 Assistance and Exemptions

Unless otherwise specified in the SC, the Client shall use its best efforts to ensure that the Government shall;

- a) issue to officials, agents and Representatives of the Government all such instructions as may be necessary or appropriate for the prompt and effective implementation of the Services;
- b) Assist the Service Provider and the Personnel and any sub-Service Provider employed by the Service Provider for the Services from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity according to Applicable Law.
- c) Provide to the Service Provider, sub-Service Provider and Personnel any such other assistance as may be specified in the SC.
- d) Access to land: The Client warrants that the Service Provider shall have, free of charge, unimpeded access to all land in the Government's country in respect of which access is required for the performance of the Services. The Client will be responsible for any damage to such land or any property thereon resulting from such access and will indemnify the Service Provider and each of the Personnel in respect of liability for any such damage, unless such damage is caused by the default or negligence of the Service Provider or any sub-Service Provider or the Personnel of either of them

6. Payment to the Service Provider:

6.1 Lump Sum Remuneration

The Service Provider's total remuneration shall not exceed the Contract Price and shall be a fixed lump sum including all staff costs, Sub-Service Provider' costs, printing, communications, travel, accommodation, and the like, and all other costs incurred by the Service Provider in carrying out the Services described in Appendix A. Except as provided in Clause 5.2, the Contract Price may only be increased above the amounts stated in clause 6.2 if the Parties have agreed to additional payments in accordance with Clause 2.4.

6.2 Contract Price

The Contract price is set forth in the SC.

6.3 Payment for Additional Services

For the purpose of determining the remuneration due for additional services as may be agreed under Clause 2.4, a breakdown of the lump sum price is provided in Appendices D and E.

6.4 Terms and Conditions of Payment

Payments will be made to the account of the Service Provider and according to the payment schedule stated in the SC. Unless otherwise stated in the SC, the first payment shall be made against the provision by the Service Provider of a bank guarantee for the same amount, and shall be valid for the period stated in the SC. Any other payment shall be made after the conditions listed in the SC for such payment have been met, and the Service Provider have submitted an invoice to the Client specifying the amount due.

6.5 Interest on Delayed Payments

If the Client has delayed payments beyond fifteen (15) days after the due date stated in the SC, interest shall be paid to the Service Provider for each day of delay at the rate stated in the SC.

7. Settlement of Disputes

7.1 Amicable Settlement

The Parties shall use their best efforts to settle amicably all disputes arising out of or in connection with this Contract or its interpretation thereof.

7.2 Dispute Settlement

Any dispute arising out of the Contract, which cannot be amicably settled between the parties, shall be referred to the The CEO & Secretary, Karnataka Building and Other Construction Workers Welfare Board, Bengaluru
