HO (Works)/ Contracts/ ERP/ CLMS/ 2025/1132

28.04.2026

CORRIGENDUM No. 1

[PRE-BID CLARIFICATIONS]

Name of the work: Design, Development, Hosting, Commissioning, Testing & Go-Live etc. of Contract Labour Management System (CLMS) at NMDC.

Ref: (1) Tender Enquiry No. HO (Works)/ Contracts/ ERP/ CLMS/ 2025/1132/ 322 dated 20.04.2026

(2) MSTC Ref. No.: NMDC/Head Office/Contract/59/25-26/ET/669 [Contract Labour Mgmnt System]

With reference to above, prospective bidders are requested to take note of the following pre-bid clarifications:

Sl No.	Prospective bidder's query	NMDC's Clarification
1.	We are a Department for Promotion of Industry and Internal Trade (DPIIT) recognized Startup and a registered Micro Enterprise . We request exemption from the "7 years in business" and "minimum turnover" requirements.	Shall be as per tender
2.	Our specific HRMS-focused deployments have been at a slightly smaller scale. Given our technical maturity as a CMMI Level 5 firm, we request that our broader experience in management software be considered.	Shall be as per tender
3.	The RFP mentions CLMS implementation but does not provide detailed module-wise scope. Kindly confirm the complete list of functional modules (e.g., Contractor Management, Work Order Management, Labour Registration, Attendance, Wage Processing, Compliance, Audit, Analytics).	REQUIRMENT (TECHNICAL / FUNCTIONAL SPECIFICATIONS) is given broadly in the NIT. During the Requirement Phase, bidder must perform the detailed assessment of the business requirements and project requirements. The successful bidder shall develop & finalize the System Requirement Specifications (SRS) in consultation with NMDC and its representatives.

4.	Is there any existing CLMS or legacy system currently in use? If yes, please share details of functionalities to be retained, enhanced, or replaced.	No, there is no existing CLMS system.
5.	Kindly clarify the expected workflow complexity, including approval hierarchies, role definitions, and multi-level approval mechanisms.	The user details are given broadly in the Scope of Work. During the Requirement Phase, bidder must perform the detailed assessment of the business requirements and project requirements. The successful bidder shall develop & finalize the System Requirement Specifications (SRS) in consultation with NMDC and its representatives.
6.	Will the system be deployed across multiple mines/sites? If yes, should the solution support centralized as well as site-wise configurations?	Centralized cloud-based system with location-wise (site/mine-level) configuration, workflows, and access controls.
7.	Is document verification (Aadhaar, PAN, bank details, etc.) required? If yes, should verification be manual or integrated via APIs?	Yes. Document verification is clearly required for both contractors and individual contract labour as part of onboarding, compliance, and lifecycle management under the Contract Labour Management System (CLMS). It is workflow based, integration point shall be finalized during Requirement Phase.
8.	Is the system expected to handle end-to-end wage calculation and payroll processing, or only tracking and reporting?	It mandatorily supports end-to-end wage calculation and payroll processing workflows. Actual wage disbursement remains the contractor's responsibility, with the system capturing proof and compliance.
9.	Should the system integrate with banking/payment systems for wage disbursement, or will payments be handled externally?	System shall not integrate with banking/payment system. Actual wage disbursement remains the contractor's responsibility, with the system capturing proof and compliance.
10.	Is integration required with government systems such as EPFO, ESIC, e-Shram, or Shram Suvidha Portal?	The CLMS is expected to support integration with statutory government systems, specifically for EPFO and ESIC

		compliance validation, reporting, and verification of payments. e-Shram and Shram Suvidha Portal integrations are not explicitly mandated, but the system must be extensible and compliant with central labour law systems, allowing future integration if required by NMDC.
11.	Does the CLMS need to integrate with existing NMDC systems such as ERP (SAP/Oracle), HRMS, Finance, or Gate Pass systems?	Yes, CLMS has be integrated with Existing System at NMDC.
12.	Will APIs for integration be provided by NMDC, or is the bidder expected to develop them?	The bidder is responsible for developing, configuring, and exposing all necessary APIs/interfaces to achieve seamless integration with NMDC systems, hardware, and statutory portals, as part of the end-to-end CLMS scope.
13.	The RFP includes hosting but does not specify deployment type. Kindly confirm whether hosting is required on NMDC Data Center, NIC Cloud, or Public Cloud (AWS/Azure).	Cloud hosting is required from any MeitY-compliant / India-hosted cloud (public or private) is acceptable.
14.	Please provide expected user concurrency and transaction volume for infrastructure sizing.	In the NIT, minimum user counts (220 users), minimum data volume (10,000 contract labour) is given.
15.	Is Disaster Recovery (DR) required? If yes, please specify expected RPO and RTO.	As per NIT, restoration to the last healthy configuration within 24 hours. DR topology are left to the bidder's design, subject to NMDC approval.
16.	Is there a requirement for custom report builder or integration with BI tools (e.g., Power BI, Tableau)?	System does require a robust, configurable internal reporting and MIS capability, including customizable fields, dashboards, and exportable reports (Excel/PDF/DOC). NIT, does not mandate integration with external BI tools such as Power BI or Tableau.
17.	Is there any existing data to be migrated? If yes, please share volume, format, and data quality details.	The existing Contractor's, Contract Labour data, Attendance data and all other related statutory (Excel files) shall

		be handed over to the successful bidder. The successful bidder shall develop & finalize the System Requirement Specifications (SRS) in consultation with NMDC and its representatives.
18.	Who will be responsible for data cleansing, validation, and mapping during migration?	The existing Contractor's, Contract Labour data, Attendance data and all other related statutory (Excel files) shall be handed over to the successful bidder. The successful bidder shall develop & finalize the System Requirement Specifications (SRS) in consultation with NMDC and its representatives.
19.	Is onsite support required at mining locations, or will support be provided remotely?	Onsite support engineers must be physically deployed at NMDC mining locations (Bachel, Kirandul, Donimalai, Panna) throughout Warranty and AMC. Also, 24×7 remote support via call centre and ticketing system is also mandatory.
20.	What is the expected timeline for manpower deployment from the date of issuance of the Letter of Award (LoA)?	Manpower mobilisation is required by the Effective Date of Contract. ("Effective Date" of Contract: 30 days from the date of issue of Letter of Award of Contract (LAC) or the date of signing of Contract Agreement, whichever is earlier.)
21.	SSO Integration : Confirm whether SSO integration with NMDC's existing identity provider (Microsoft Entra ID / Azure AD / on-prem AD) is Required / mandatory or optional	SSO is required for the NMDC Officials. The successful bidder shall develop & finalize the System Requirement Specifications (SRS) in consultation with NMDC and its representatives.
22.	On-site Support Deployment (4 Locations) : For the 4 Support Engineers to be deployed at Bachel, Kirandul, Donimalai, and Panna across 1-year Warranty + 1-year AMC, confirm: - Defined working hours at each site - Weekly off structure	For the 4 Support Engineers deployed at Bachel, Kirandul, Donimalai, and Panna: - Regular 8 working hours shall be considered. However, on-call/ offline support is required (in case of urgency). - Weekly off and paid holidays as per NMDC site calendars. - Support is mandatory on Sundays and holidays, wherever required. - On-call / extended-hour support is

	○ Paid Holidays structure ○ Requirement for on-call / extended support beyond standard hours	explicitly required during both Warranty and AMC.
23.	AMC Accommodation Charges : Since accommodation is stated as “chargeable,” provide the indicative monthly accommodation cost per location .	Base rate is approximately Rs.2,000/- per month (based on availability). Electricity charges based on usage.
24.	Effective Date Definition : The implementation timeline is 6 months from the “Effective Date.” Clearly define whether this refers to: ○ Contract signing date ○ CPBG submission date ○ Or any other milestone (please specify the governing trigger)	Shall be as per tender. If Contract is signed within 30 days from the date of issue of Letter of Award of Contract (LAC), then, the date the Contract is signed, will be the Effective Date. Else, 30 days from the date of issue of LAC shall be the Effective Date of Contract.
25.	UAT & FAC Mechanism : Confirm whether a single nodal authority per site will be assigned or if authorization will be issued centrally or site-wise for UAT sign-off, If site-wise, confirm whether the 80% payment milestone will be released proportionately per site	Yes, Owner/ Engineer-in-Charge will be assigned per site for UAT sign-off. No Payments shall be made proportionately. Payments shall be made as per NIT.
26.	MSTC Submission Protocol : Maximum file size allowed for Part-I uploads	5MB. If document size is more than 5 MB, then Bidder can split the document in multiple files and upload under same clause.
27.	Data Migration Scope : Confirm whether the migration of historical/legacy data (workforce master, contractor master, attendance, wages, statutory registers, documents) is in scope. If yes, we need other quantitative information as well i.How many months , how many workforce masters, how many contractor	The existing Contractor's, Contract Labour data, Attendance data and all other related statutory (Excel files) shall be handed over to the successful bidder. The successful bidder shall develop & finalize the System Requirement Specifications (SRS) in consultation with NMDC and its representatives.
