NOTICE INVITING TENDER

Reference No: TN-108

Jaipur Vidyut Vitran Nigam Ltd. [“JVVNL”/ “Jaipur Discom”] has invited bids from competent Agency for work of “Implementation of Feeder Data Monitoring System on System as a Service (SaaS) Basis”.

The contract period shall be initially for a period of **Six years** (1 year implementation period + 5 years O&M) from the date of work order. The contract period may further be extendable for Three years, as per mutual agreement.

Mode of Bid Submission	Online through e-Procurement/e-Tendering system at https://eproc.rajasthan.gov.in
Tendering Authority	Superintending Engineer (IT) Jaipur Vidyut Vitran Nigam Ltd. Old Powerhouse, Banipark, JAIPUR-302006.
Estimated cost of Project (Approx.)	Rs. 51.66 Cr (Inclusive GST @ 18%)
Contact Persons	SE (IT) –Sh. Rakesh Dusad, E-mail - seit@jvvn.org Office: 0141-2200972
Submission of Banker’s Cheque/ Demand Draft for Tender Document Fee (including GST@ 18%) with AO(IT& RE) in favour of AO(IT & RE), JVVNL, Jaipur (non-refundable), payable at Jaipur, Rajasthan.	Rs. 2950/- (2500 +18% GST) Rupees Two Thousand Nine Hundred Fifty Only OR Rs. 1475/- (Rupees One Thousand Four Hundred Seventy-Five Only) for MSME situated in Rajasthan classified under Section 7(1) of MSME Development Act 2006 Only)
Submission of Demand Draft for e-Tender Processing Fee (including GST@ 18%) with AO (IT & RE) in favour of M.D, RISL payable at Jaipur(non-refundable).	Rs. 2950/- (2500 + 18% GST)
Publishing Date & Time	23.04.2026 at 18:00 Hrs
Pre-bid Meeting Date & Last date for Submission of query through e-mail: seit@jvvn.org on RFP	01.05.2026 at Conference Hall Vidyut Bhawan, Jaipur 30.04.2026 @6:00 PM
Document Download /Sale Start date	24.04.2026 at 09:30 Hrs onwards https://eproc.rajasthan.gov.in , www.energy.rajasthan.gov.in/jvvn/
Document Download/Sale End Date/Time	20.05.2026 at 13:00 Hrs

Last Date & Time of receipt of clarification/queries	30.04.2026 at 18:00 Hrs
Submission Date for Banker's Cheque/ Demand Draft / BG for Tender Fee, EMD, and Processing Fee.	The deadline for submission of proof is Bid Submission Deadline. The Bidder can submit the proof before the deadline. The Bidder has to attach the scan of receipts with online bids.
The Bid Security amount/ EMD shall be @2% (two percent) of the estimated value of subject matter of procurement put to bid. In case of small-scale industries of Rajasthan, it shall be 0.5% of the quantity offered for supply and in case of sick industries, other than small scale industries, whose case are pending with Board of Industrial and Financial Reconstruction, it Shall be 1% of the value of bid. Concessional bid security may be taken from register bidders as specified by the State Government. Every bidder, if not exempted, participating in the procurement process shall be required to furnish the bid security as specified in the notice inviting bids. The Bid Security amount/ EMD is to be furnished in Banker's cheque/ D.D. in the name of Accounts officer (IT & RE), JVVNL (payable at Jaipur) or Bank Guarantee in the name of The Superintending Engineer (IT), JVVNL, Jaipur Original Bid security DD and original BG should be furnished in the office of tender inviting authority before scheduled time and date. The scan copy of receipt issued by the tender inviting authority on physical receiving of original Bid security DD and original BG as well as scan copy of BG shall be uploaded in technical bid.	Rs. @2% (Rs.) 1.033 Cr Rs. @ 1% (Rs.) 51.16 Lakh Rs. @ 0.5% (Rs.) 25.83 Lakh "In lieu of bid security, a Bid Security/Bid Securing Declaration shall be taken from Departments' of the State Government and Undertakings, Corporations, Autonomous bodies, Registered Societies, Cooperative Societies which are owned or controlled or managed by the State Government and Government Undertakings of the Central Government."
Bid submission Start Date/ Time	15.05.2026 at 13:00 Hrs onwards at https://eproc.rajasthan.gov.in

Bid submission Last Date/ Time	20.05.2026 at 13:00 Hrs
Last date & Time for Submission of Bankers Cheque/demand Draft/BG for Tender fee, EMD and processing Fee	21.05.2026 at 15:00 Hrs in the office of Accounts Officer(M&P-IT), Old Power House Banipark, Jaipur
Date & Time of Opening of Technical Bids	22.05.2026 at 15:00 Hrs on https://eproc.rajasthan.gov.in
Date & Time of Opening of Financial Bids	To be intimated later
Websites for downloading Tender Document, Corrigendum's, Addendums etc.	https://eproc.rajasthan.gov.in . https://energy.rajasthan.gov.in/jvvn https://sppp.rajasthan.gov.in/sppp/
Bid Validity	Bid Validity: 180 Days from the date of Bid submission deadline. EMD Validity: 270 days from date of Bid Submission deadline. If required, the same shall be requested to be extended.
Contract Period	The contract period shall be initially for a period of Six years (1 year implementation period + 5 years O&M) from the date of award of contract. The contract period shall be extendable for further 3 years.
Address for Correspondence	OFFICE OF THE SUPERINTENDING ENGINEER (IT), JAIPUR VIDYUT VITRAN NIGAM LTD., 3rd Floor, Data Centre Building, Old Power house, Jaipur- 302006 Phone No: 0141-2200972, Mobile No: 9413390182 E-mail :- seit@jvvn.org
Payment of cost of document/ Tender Fee: 1. Tender Fee shall be paid Through Demand Draft/Banker's cheque/Online in the favour of Accounts Officer (IT&RE), Jaipur Discom, Jaipur payable at Jaipur. The Demand Draft/Banker's Cheque date should be later than the tender publishing date. 2. Tender E Processing Fee shall be paid through Demand Draft in the favour of MD, RISL payable at Jaipur. 3. Tender Document Fee, E Tender Processing Fee and Bid Security must be submitted in physical form in a sealed envelope at address given above, after the Bid Submission Deadline. The sealed envelope shall be clearly marked on the top as "Implementation of Feeder Data Monitoring System on System as a Service basis (SaaS)" against tender no. TN-108 4. Bidder must furnish GSTIN number on letter head. 5. Any Bid not accompanied by a Tender Fee as above shall be rejected by JVVNL as non responsive. 6. Tender Fee and e-bid processing fee is non-refundable	

Note: - The bidders can also deposit the amount of cost of bid document and bid security through online mode as per detailed below and the same have to be intimated through email: -

(Scan copy of the same is mandatory to upload along with technical bid)

DETAILS OF BANK FOR RTGS/NEFT (ONLINE)

1	ACCOUNT NO	51093320466
2	ACCOUNT HOLDER NAME	Accounts Officer (IT&RE), Jaipur Discom, Jaipur
3	BANK NAME & BRANCH DETAILS	STATE BANK OF INDIA COLLECTORATE BRANCH, JAIPUR (RAJASTHAN)
4	IFSC CODE	SBIN0031026
5	PHONE NO. OF AO(IT&RE), JVVNL, JAIPUR	Mob. - 9414029447
6	EMAIL ID OF AO(IT&RE), JVVNL, JAIPUR	aoitre@jvvn.org
7	GSTIN OF JAIPUR DISCOM	08AABCJ6373K1Z7

The prospective bidder should have the necessary competence, adequate financial standing, sufficient experience, expertise as per Qualification Requirement detailed in this document.

Before bidding under this bid, bidder should ensure that: -

1. They are qualified as per QR mentioned in this document.
2. The offered solution/services shall meet the technical and scope of work requirement laid down in this document.

The work involves Request for Proposal (RFP) for “Implementation of Feeder Data Monitoring System on System as a Service (SaaS) basis ” against tender no. TN-108 as per details in this document.

NOTE:

1. The bid shall only be submitted through online tendering system of www.eproc.rajasthan.gov.in
2. Bidders who wish to participate in this tender will have to register on <https://www.eproc.rajasthan.gov.in> To participate in online tenders, Bidders will have to procure Digital Signature Certificate (Type – II or Type – III) as per Information Technology Act 2000 using which they can sign their electronic bids. Bidders can procure the same from any CCA approved certifying agency i.e., TCS, Safe crypt, Ncode etc. or they may contact eProcurement Cell, Department of IT & C, Government of Rajasthan for future assistance.
Bidders who already have a valid Digital Certificate need not to procure a new Digital Certificate.
Contact No. 0141 – 4022688 (Help desk of RISL - 10.00 AM to 6.00 PM on all working days)
E-mail: eproc@rajasthan.gov.in
Address: e-Procurement Cell, RISL, Yojana Bhawan, Tilak Marg, C-Scheme, Jaipur.
3. Bidders should go through the website <https://www.eproc.rajasthan.gov.in> should refer to the website and go through the link “Help for Contractors”, “Information About DSC”, “FAQ” and

“Bidders Manual Kit” and Section-I to know the process for submitting the electronic bids at the website.

4. The ‘Instructions to bidders’ and other terms and conditions of this tender pertaining to the bidding process generally follow the guidelines of e-tendering system of the government of Rajasthan, available at URL <https://www.eproc.rajasthan.gov.in> However, wherever there is any anomaly between the conditions referred to in this tender document and the GoR tendering system, the later shall be final.
5. The complete tender document has been published on the websites, <https://energy.rajasthan.gov.in/jvvn1> and <https://www.eproc.rajasthan.gov.in> for the purpose of downloading.
6. The downloaded tender document shall be considered valid for participation in the bid process subject to submission of required Tender fees, e-Tender Processing Fee & EMD as mentioned in the NIT Section table. A copy of receipt of the tender fees, e-Tender Processing Fees & EMD must be enclosed along with the technical bid/ proposal failing which the bid will be summarily rejected. The last date of submission of these original instruments is mentioned in the NIT Table. The Bidder must take due care in submitting the instruments and collecting receipts from Jaipur Discom so that the Originals are submitted in hard copy and receipt scans are uploaded with the Technical Bid, before the Bid Submission Deadline.
7. All the communication/ correspondence including the bid document (Technical and Financial Bid) should be signed digitally by the Bidder. The Technical and Financial Bid which is uploaded on e-proc portal must be digitally signed on each relevant page by the designated Authorized Representative of the bidder. The name, designation and authority of the designated Authorized Representative of the Bidder shall be stated in the Bid.
8. No contractual obligation whatsoever shall arise from the tender document/bidding process unless and until a formal contract is signed and executed between the Discom and the successful bidder(s).
9. JVVNL disclaims any factual/ or any other errors in this tender document (the onus is purely on the individual bidders to verify such information) and the information provided herein are intended only to help the bidders to prepare a logical bid.
10. Bids will be considered only in the prescribed manner. Bids not submitted in the prescribed format will be summarily rejected without further evaluation.
11. Copies of various documents to be enclosed along with the bids must be legible and be self-attested by the authorized signatory with official seal. Claims made by bidder related to the project experience and other requirements shall be considered only when appropriate supporting documents are provided.
12. All the communication/correspondence including the Bid (Technical and Financial Bid) must be digitally signed on each page by the designated Authorized Representative of the bidder failing which the bid will be summarily rejected.
13. The Bids can be submitted up to date and time given as specified in the NIT Table.
14. The complete bidding process is defined in the tender document.

15. In case, a bidder imposes conditions which are in addition or at variance or in conflict with the terms and conditions as specified in this tender document, all such bids will be summarily rejected.
16. Tendering Authority reserves the complete right to accept or reject in part or full any or all the bids without assigning any reasons whatsoever. No further discussion/ interaction will be held with the bidders whose bids have been disqualified/ rejected by the tendering authority.
17. In case, a dispute arises with regard to interpretation/ omission/ error in this tender document, bid submitted, other documents; the decision of Superintending Engineer(IT), JVVNL, JAIPUR will be final and binding upon the bidders.
18. Interested bidders may obtain further information from the office of Superintending Engineer(IT), JVVNL, Jaipur on any working day between 10:00 AM to 6:00 PM.
19. Govt. organizations/PSU Companies situated in Rajasthan etc. are exempted from furnishing EMD.

Superintending Engineer (IT)
Jaipur Vidyut Vitran Nigam Ltd.

SECTION 1: INTRODUCTION AND OBJECTIVE

1.1. INTRODUCTION

Jaipur Vidyut Vitran Nigam Limited (JVVNL) is engaged in the distribution and supply of electricity across 15 districts of Rajasthan, namely: Jaipur, Dausa, Alwar, Bharatpur, Deeg, Bhiwadi, Kotputli-Behror, Dholpur, Kota, Bundi, Baran, Jhalawar, Sawai Madhopur, Tonk, and Karauli.

A large number of 33/11 kV substations are spread across the DISCOM network. Each substation typically has 5 to 8 outgoing 11 kV feeders supplying electricity to various areas. These feeders are equipped with HT Tri-Vector (HTTVM) meters of multiple makes, having different communication capabilities such as Optical ports, RS-485, RS-232 / RJ-11 ports. Majority of meters support DLMS protocol, while a some operate on proprietary protocols. In case of proprietary protocol or Non-DLMS meter, DISCOM will replace the meter, vendor shall intimate the same to respective M&P office.

Currently:

- Uni-directional feeder meters are installed on most 33 kV and 11 kV feeders
- Bi-directional meters are installed on selected 11 kV outgoing feeders

To capture and analysis the data of meter installed at 11 KV outgoing feeders, JVVNL has installed AMR system at approx. 7500 Nos. of 11 KV feeder meters by M/s Linkwell Telesystems Ltd. through Modem and DCU are installed at 33/11 KV Sub-station for approx. 4000 nos. 11 KV outgoing feeders by M/s Fox Solutions Pvt Ltd.

However, no automated system exists for capturing data from 33 kV feeder meters and boundary meters. Data from 33 kV feeders is currently collected manually using CMRI or other methods, and further processed manually for Energy accounting, Loss analysis, MIS reporting, RVPN bus losses (33 kV side of 220/132 kV GSS), Sub-transmission (33 kV line) losses, 33/11 kV sub-station losses, 11 kV bus losses.

1.2. Need for the Project

Now JVVNL intends to implement unified platform for both the existing AMR systems at 11 KV outgoing feeder level i.e. Linkwell System and M/s Fox System as well new system to capture the data of meter installed at at 33 kV feeders, 36 KV VCBs at 33 kV substations & boundary points on near real time basis. The system should have capability to refresh the instantaneous parameter & alarms & events data on near to real time basis (preferably on every 5 minutes) & shall capture other parameters on hourly basis i.e. Block Load Profile & other parameters. The system shall have the capability to provide the data for power supply monitoring, alerts, meter data analysis, information dissemination, energy accounting report and various other MIS reports for Sub-transmission 33KV line losses, 33/11 KV substation losses at daily, weekly, monthly, yearly or user select-able period.

1.3. General details on geographical spread of JVVNL:-

S.No.	Description	Nos.
1.	Number of Zones :- Jaipur, Bharatpur and Kota	3
2.	Number of Circles	18

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

	Jaipur City Circle-North, Jaipur City Circle-South, Jaipur District Circle-North, Jaipur District Circle-South, Dausa, Alwar, Bhiwadi, Kotputli, Deeg, Bharatpur, Dholpur, Kota, Bundi, Baran, Jhalawar, Sawaimadhopur, Tonk and Karauli.	
--	---	--

1.4. OBJECTIVES:-

- To develop a Self-sustained independent unified web based system for automated Feeder Monitoring System through Data Logging of various essential parameters of meter installed on 33 KV feeders, 36 KV VCBs at 33 kV substations, 11 kV incomer VCBs, outgoing 11KV feeders and boundary meters installed in the field and make the information available online for various stake holders including public portal, on near real time basis at 5/15/30 minutes interval for power supply monitoring, alerts, meter data analysis, information dissemination, energy accounting up to 11 KV feeders level at daily, weekly, monthly, yearly.
- The System would help JVVNL to asses losses at various voltage level i.e. Sub-transmission 33KV line losses, 33/11 KV sub-station losses.
- The System would help JVVNL for monitoring power supply, proper planning, decision support and taking corrective actions on the business activities in addition to transparently disseminating the power supply status.
- The System would further facilitate consolidation of various parameters downloaded from the meters installed on the feeders into a common database thus enabling generation of various holistic MIS reports for analysis and actions.
- Project shall be implemented in the Project Area comprising contiguous electrical locations (which will be ring fenced with boundary meters) where all feeders is installed with HTTVM meters of different makes.

Profile of Project area along with reference diagram & metering points which are include in scope as mentioned below:

- M3 & M4 - Meters at 33kV outgoing Feeders emanating from 132 & 220 KV GSS - 1419 Nos. (Approx.)
- M5 & M6 – Meters at 36 kV VCBs – 3006 Nos. (Approx)
- M10 to M14 - Meters at 11 kV Dedicated Feeder Metering– 11668 Nos. (Approx).
- Meters at 11 kV Feeder Boundary Metering Points -722 Nos. (Approx.)

Circle wise count (approx.) of Metering points are as below:-

S. No	O&M CIRCLE	No. of 33 KV Feeders in Circle	36kv vcb	Total 11 KV Feeder	Boundary Meter (Nos.)
1	ALWAR	98	212	960	80
2	Bhiwadi	104	119	595	33
3	Dausa	73	164	754	33
5	JCC-N	123	397	655	76
6	JCC-S	105	536	702	173
7	JPDC-N	101	179	897	106

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

BTP Zone		217	451	2235	40
Total Discom		1419	3006	11668	722

1.5. Broad Scope of work

- Supply, installation, operation, and maintenance of the required system at substations for automated feeder monitoring, including logging of meter data for 33 kV feeders, 36 kV VCBs at 33/11 kV substations, outgoing 11 kV feeders, and boundary meters.
- The system shall capture power supply status online and transmit the same to the central servers on a near real-time basis (at intervals of 5/15/30 minutes, as per JVVNL requirements). The system shall also make this information available online for various stakeholders, including a public portal, at similar near real-time intervals (5/15/30 minutes) for power supply monitoring, alerts, meter data analysis, information dissemination, and energy accounting up to the 11 kV feeder level on a daily, weekly, monthly, and yearly basis.
- The successful bidder shall take over the existing infrastructure deployed in the field by M/s Fox Solutions Pvt. Ltd. and M/s Linkwell Systems, including DCUs, modems, associated accessories, software licenses, and other related components.

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

- iv. Further, the bidder shall carry out all necessary modifications, integration, and upgrades required to align the existing infrastructure with the proposed unified web-based system. The bidder may utilize the existing infrastructure to the maximum extent, subject to its technical compatibility with the proposed system.
- v. In cases where any part of the existing infrastructure is found to be technically incompatible or unsupported with the proposed unified IT system, the bidder shall replace or upgrade such components at its own cost, without any financial implication to the DISCOM, while ensuring seamless functionality and achievement of the desired output.
- vi. The vendor shall also undertake migration of feeder data from the existing Feeder Monitoring Systems implemented by M/s Linkwell and M/s Fox Solutions Pvt. Ltd. The migrated data shall be frozen, and all reports generated from the taken-over data shall be maintained in a non-editable format.
- vii. At present, uni-directional Feeder Meters are installed at 33KV feeders and 11 KV feeders, in few location bi-directional feeder meters are installed on 11KV outgoing feeders. To accommodate the recording of Energy received from Solar plants, JVVNL may install bidirectional feeder meter at such sub-stations, for this vendor shall also have to capture the feeder meter data including Import/Export meter data.
- viii. The system shall use an electronic media between substation meter and Data Centre having store and transmission facility of data. The capacity of storage shall be minimum 30 days data with suitable battery backup. Any alternate arrangement as per bidder design meeting the requirement is also acceptable.
- ix. JVVNL have installed VCBs at all feeder points. These VCBs also have communicable relays with DI/DO points. The vendor shall take fault event (earth fault/over current) recorded in relay of these VCBs to identify planned/unplanned outage.
- x. Currently, JVVNL manages outage information through its Utility billing System (UBS). The proposed system shall have the capability to integrate with the Utility billing System (UBS) to automatically capture outage details, including planned outages and shutdowns. Such data shall be incorporated into system-generated reliability indices and reports, such as SAIDI and SAIFI, ensuring accurate, consistent, and comprehensive reliability analysis.
- xi. Entire IT infrastructure shall be hosted at the Bhamashah State Data Center. The Govt. of Rajasthan has established a Tier-IV certified 600 Rack data Centre known as Bhamashah State Data Centre (BSDC). As per State Government's mandate all State Govt. Departments/PSU's are required to host their Portals/Applications in BSDC only. In view of this and to have a better control over the data with regard to sharing with other State Government's applications, the required IT Infrastructure shall be brought and maintained by vendor at their own cost and the same shall be hosted in BSDC. BSDC shall provide the colocation facility at bidder's cost. The list services provided by BSDC shall be obtained from their website. The bidder shall be responsible for appropriately sizing and provisioning the IT infrastructure to meet the prescribed Service Level Agreements (SLAs) and ensure optimal system performance and reliability.
- xii. Design, develop, install and implement the required unified web-based software solution for data acquisition, data aggregation, data storage in common format, data dissemination, data display on responsive website, data analysis and depiction in form of dashboards, graphs and MIS reports etc., provision for automated SMS alerts and email. To develop an online system having dashboard to display the various information to be customized as per Discom requirement as below:-

- a. To develop a graphical dashboard on Rajasthan Map on the basis of Geo references of each Sub stations / MLA constituency. While clicking on any Substation, the information pertaining to the substation shall be available on the MAP.
 - b. This system shall be useful to make the information available online for various stake holders including public representatives including public portal, on near real time basis for power supply monitoring, alerts, meter data analysis, information dissemination and energy audit/accounting.
 - c. The web-based software solution shall be built on service-oriented architecture for data exchange between various other existing and future IT systems of the DISCOM.
 - d. Energy accounting reports/reliability indices reports (SAIDI/SAIFI) for 33KV and 11kV Feeder level on daily, weekly, monthly & user select-able period.
 - e. To develop a system for display of the information on Central Server /Mobile App on near real time basis 5/15/30 mins interval as per Discom requirement and Industry Standard.
- xiii. The required hardware and software for a secure, reliable and highly available system shall be designed and deployed. The system shall be accessible over internet irrespective of type of connectivity.
- xiv. To develop a Web Portal for display of information with ease to use Dashboard. The system shall be capable to customize the Dashboard and able to add new output reports feasible on the basis of input from Substation during currency of contract without any additional cost.
- xv. To capture following information Online from feeders:-
- a. Active Energy Cumulative FWD
 - b. Active Energy FWD
 - c. Active Energy Cumulative REV
 - d. Active Energy REV
 - e. Reactive Energy Cum FWD
 - f. Reactive Energy Cum REV
 - g. Apparent Energy Cum FWD
 - h. Apparent Energy Cum REV
 - i. Average Power Factor FWD
 - j. Average Power Factor REV
 - k. Frequency
 - l. feeder wise outage / downtime with total power availability on HOURS
 - m. Energy balancing at sub stations
 - n. Daily peak loads feeder.
 - o. Peak Load of the Substation.
 - p. Daily Log sheets
 - q. Any other information recorded in meter
- xvi. To categorize the above information in Sub-Station wise, Sub-division wise, Division wise, Circle wise and MLA constituency wise.

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

- xvii. Integration of the proposed System is to be done with existing and upcoming JVVNL IT/OT system i.e. Utility billing system, Customer Care system, SCADA, Smart Metering system, Solar Plants under KUSUM scheme, RDSS local substation automation system, DT Monitoring System and other than JVVNL system i.e. RVPN feeder meters, Load Forecasting Systems, DUET System (Digitization of utilities for energy transition), National Feeder Monitoring System and other Govt Platforms as required by JVVNL. The first payment shall be released only after operational Go-Live certificate.
- xviii. Apart from the above-mentioned integration, Utility may require to integrate the system with the Utility IT/ OT systems which may include but not be limited to:
 - a. Utility Existing App
 - b. GIS
 - c. Peak Load Management, Distributed Response Management System
 - d. Outage Management System (OMS)
 - e. Asset Management System
 - f. Electrical Vehicle Supply Equipment (EVSE)
- xix. Network Management System: A suitable NMS shall be built to monitor the performance of the communication network round the clock. The NMS shall provide viewing of all the networking elements deployed at site and enable configuration & parameterization of the networking devices and the nodes. In case of public network such as cellular, the web-based portal (for example Open Network platform) should be provided to have the network view at location of installed devices. The portal shall have connectivity & subscription management.
- xx. Provide, install, operate and maintain the required connectivity network at the sub-station level and at the central server level for data acquisition on near real time basis at 5/15/30 minutes interval and information dissemination.
- xxi. Provide, install, operate, and maintain a reliable and secure communication network using contemporary technologies—such as GPRS/GSM/4G/5G LTE, NB-IoT, LTE-M, or other suitable IoT communication solutions—at the slave location, along with robust and scalable connectivity infrastructure at the central server level.
- xxii. Provide the sufficient manpower for operation, maintenance and Updating of the system implemented.
- xxiii. Impart the required training to DISCOM officers for operation and usage of the system.
- xxiv. Transfer the infrastructure (as detailed in specification) supplied and installed along with the required licenses to JVVNL or nominated vendor by JVVNL at the end of the contract period. The infrastructure deployed at Bhamashah State Data Center(BSDC) shall also be transferred.
- xxv. The bidder must strictly adhere to the Information Security and Cyber Security Policies of Jaipur Discom as updated from time to time.
- xxvi. The system shall be scalable to accommodate the information of 2x nos. of feeders.

SECTION –3 INSTRUCTION TO BIDDER

1. GENERAL INSTRUCTIONS

- 1.1. Tendering authority will receive bids in respect of services as set forth in the accompanying Tender document.
- 1.2. All bids shall be prepared and submitted in accordance with these terms and conditions of this Tender Document.
- 1.3. The Bidder, in his own interest is requested to read very carefully these instructions and the terms and conditions as incorporated in General Conditions of Contract and Technical specification before filling and submitting the Bids.
- 1.4. If the bidder has any doubt as to the meaning of any provisions or any portion thereof, they shall check before submitting of the Bid, shall refer the same to the Tendering Authority in writing, well in time before the specified date of opening of Bids so that such doubts may be clarified.
- 1.5. Submission of the Bid shall be deemed to be the conclusive proof of the fact that the Bidder has acquainted himself and agrees with all the instructions, terms and conditions governing this Tender document unless otherwise specifically indicated/ commented by him in his Bid.
- 1.6. Bids submitted after the time and date fixed for receipt of bids as set out in the invitation to Bid shall be rejected.
- 1.7. The works referred herein shall cover the entire scope of the proposal which include commissioning and erection of equipment including the successful completion of performance and guarantee tests which the Discom desires to get executed.

2. FIELD CONDITIONS

- 2.1. The geographical conditions across the circle are not same and have different terrain.
- 2.2. The bidder may in its own interest, before submitting the bid, inspect and examine the area involved and satisfy it regarding the existing system.
- 2.3. For ascertaining the existing system, condition's etc., the agency may contact the Tendering Authority.
- 2.4. No claim from Bidder or Agency for change in the bid or terms & conditions of the contract shall be entertained on the ground that the conditions are different than what were contemplated by them at the time of submitting the bids.

3. SUCCESSFUL IMPLEMENTATION AND GOOD PERFORMANCE

Any work if specifically, not mentioned but reasonably implied for the successful implementation and good performance of the proposed work is deemed to be included and is to be executed within the ordered price.

4. PREPARATION OF BIDDING DOCUMENT

4.1. EARNEST MONEY DEPOSIT (EMD):

- a. The Bidder shall furnish EMD as per the provisions mentioned in the table of NIT section. Bank Guarantee shall be payable as per prescribed format.
- b. The Bidder shall deposit the EMD in above said format to the Accounts Officer (IT&RE), JVVNL, Jaipur within the stipulated date & time, and obtain a receipt.
- c. Any Bid not accompanied by a copy of the receipt for depositing EMD shall be rejected and the Bid will not be opened.
- d. In case of unsuccessful Bidders, the EMD will be refunded on production of the original receipt within 15 working days after signing of Contract by Jaipur Discom.
- e. Adjustments/proposals for acceptance of EMD, if any, already lying with the Discom in connection with some other bids/orders shall not be entertained. Also, the Discom will not adjust the EMD under this tender with the previous dues of bidder if any.
- f. No interest shall be payable on EMD.
- g. Jaipur Discom reserves the right to forfeit EMD or a part thereof in circumstance, if the bidder is not earnest in accepting/executing any order placed under this Tender document.

4.2. TENDER DOCUMENT FEE & TENDER PROCESSING FEE

The bidders are permitted to download the bid document from websites <https://www.eproc.rajasthan.gov.in>, <https://energy.rajasthan.gov.in/jvvn1> but must pay the cost of Tender document fee and e-Tender processing fee as mentioned in NIT table within the stipulated date & time in the office of Accounts Officer (IT&RE), Jaipur and obtain acknowledgement thereof such processing fee shall be sent to RISL by AO (IT&RE).

5. CLARIFICATIONS AND AMENDMENTS & DEVIATION FROM TENDER DOCUMENT

5.1. CLARIFICATIONS TO THE TENDER DOCUMENT

If the prospective bidder has any doubts as to the meaning of any portion of the Tender document, she/he can raise the same to the tendering authority i.e., Superintending Engineer(IT)JVVNL, Jaipur on any working day from 9.30 AM to 6.00 PM within seven days of publishing date of RFP.

Verbal clarifications and information given by the Discom or his employee(s) or his representative(s) shall not in any way be binding on the Discom.

The bidder is required to carefully examine the Terms & Conditions including specifications of this Tender document and fully inform himself as to all the terms and conditions which may in any way affect the work or the cost involved thereof.

Below format should be used for any clarification on tender.

S. No	RFP Section No. & Clause No.	Page No.	Clause Description	Clarification required by the bidder	Suggestions/ Queries

Name: _____

In the Capacity of: _____

Signed: _____

Duly authorized to sign the bid for and on behalf of: _____

Date: _____

5.2. CLARIFICATIONS TO THE BID

To assist in the examination, evaluation, comparison and post qualification of the bids, the Tendering Authority may, at its discretion, ask any bidder for a clarification of his bid. The Tendering Authority's request for clarification and the response shall be in writing or email of the Authorized Signatory of the Bidder.

Any clarification submitted by a bidder with regard to his bid that is not in response to a request by the Tendering Authority shall not be considered.

No change in the prices or substance of the bid shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the tendering authority in the evaluation of the Bids.

5.3. AMENDMENT OF TENDER DOCUMENT

At any time prior to the deadline for submission of the Bids, if the Tendering Authority deemed it necessary to amend the Tender document, it shall do so by issuing appropriate Corrigendum/Addendum.

Any Corrigendum/Addendum issued shall be a part of the Tender document and shall be published on the website of Jaipur Discom & e-proc portal.

To give prospective Bidders reasonable time to take a Corrigendum/Addendum into account in preparing their Bids, the tendering authority may, at its discretion, extend the deadline for the submission of the Bids.

Any change in date of submission and opening of bids would be published through News Papers, Jaipur Discom's website and e-proc portal.

5.4. DEVIATION FROM BID DOCUMENTS

The bid must include a separate statement indicating all deviations from the Tender document as per format enclosed at Annexure 12. All such deviations shall be clearly mentioned in Format related to Deviation. Jaipur Discom reserves the right to accept the deviation with financial implication or reject the same out rightly. Unless the deviations from the Tender document are specifically mentioned, it will be understood and agreed that the proposal is based on strict conformity to the Terms & Conditions of this Tender document in all respect and it will be assumed that all such Terms & Conditions are acceptable to the Bidder. In case there is 'No Deviation', the Bidder must submit Annexure-6.

6. SUBMISSION AND OPENING OF BIDS

6.1 COST OF BIDDING

The Bidder shall bear all the risks and costs associated with the preparation and submission of its Bid, and the Tendering Authority shall not be responsible or liable for those risks and costs, regardless of the conduct or outcome of the bidding process.

6.2 LANGUAGE OF BIDS

The Bid, as well as all correspondence and documents relating to the Bid exchanged by the Bidder and the Tendering Authority, shall be written only in English Language. Supporting documents and printed literature that are part of the Bid may be in another language provided they are accompanied by an accurate translation of the relevant passages in English, in which case, for purposes of interpretation of the Bid, such translation shall govern.

6.3 BIDS ARE TO BE SUBMITTED IN TWO PARTS

6.3.1 The Bid shall be submitted within the specified time on <https://www.eproc.rajasthan.gov.in> in electronic format in the following manner:

6.3.2 Part- A (Technical Bid): will contain.

a) Cover 1: Fees (to be uploaded in pdf format)

- i. Copy of receipt of submission of Tender document fees
- ii. Copy of receipt of submission of Tender processing fee.
- iii. Copy of receipt of submission of EMD

b) Cover 2: Techno-Commercial Bid (to be uploaded in pdf format):

- i. Complete Technical Bid comprising information in specified formats and schedules (Except the price schedule) including details & design of the proposed system(s) to meet out the work requirement together with its capabilities.
- ii. Supporting documents to ascertain the eligibility / qualification as per the QR requirements of this tender.

The Tendering Authority may require any bidder to furnish the documents in original or copy duly attested by Notary as the case may be for verification, in physical form on short notice of three working days.

- 6.3.3 Part- B (Financial Bid): The Financial Bid is submitted in excel file of BOQ as per Annexure-10. The Financial Bid will be opened only for the Bidders shortlisted on the basis of Technical Bid. The date of opening of such Financial Bids will be intimated on the e-proc website.

6.4 SUBMISSION OF PROPOSALS

- 6.4.1 Bidder shall submit their bid in electronic format, which shall be digitally signed and further signed & stamped on each page by the designated authorized representative of the Bidder. Bidder shall procure Digital Signature Certificate (DSC) as per the provisions mentioned in Note 2 of the NIT table.
- 6.4.2 Physical submission of bids is not allowed. If asked by Tendering Authority the bidder is required to submit original technical bid in hard-copy which shall be the exact replica of online bid submitted. In case of any discrepancy between online and hard-copy Bid, the Bid submitted online shall prevail.

6.5 FILLING OF BIDS

- 6.5.1 Bids shall be submitted on e-portal with the formats and schedules given in the Tender document duly filled in. The completed formats and schedules shall be considered as part of the contract documents in case the same Bidder becomes Successful Bidder. The Bids which are not in conformity to the schedules and formats of the Tender document may not be considered.
- 6.5.2 No alteration should be made to the format and schedules of the tender document. The Bidder must comply entirely with the Tender document.
- 6.5.3 Tender should be filled in only with ink or typed and must be submitted online after signing digitally.

- 6.5.4 All additions, alterations and over-writing in the bid must be clearly signed by the authorized representative of the bidder otherwise bid shall be summarily rejected.
- 6.5.5 The bidder must quote the prices strictly in the manner as indicated herein, failing which bid is liable for rejection. The rate/prices shall be entered in words as well as in figures. These must not contain any additions, alterations, over-writing, cuttings or corrections and any other marking which leave any doubt and further may result in rejection of such Bid.
- 6.5.6 The Tendering Authority will not be responsible to accept any cost involved in the preparation or submission of bids.
- 6.5.7 All bids and accompanying documents shall be addressed to Jaipur Discom.

6.6 ALTERNATIVE BIDS

Alternative bids shall not be considered at all.

6.7 BID PRICES

- 6.7.1 All the prices should be quoted only in Indian Rupees (INR) Currency.
- 6.7.2 The prices quoted in BOQ.xls should be inclusive of all service tax / GST and other government levies as applicable but have to explicitly specify applicable rate of taxes in financial offer declaration. These rates of applicable taxes and Govt. Levies shall be revised as and when updated.
- 6.7.3 The bidder will furnish the break-up of the quoted price in Financial Bid according to the price BOQ attached in Excel format, indicating rate and type of each tax clearly, as per the rates prevailing within 7 days before the bid date. Any statutory variation and imposing of new tax by government subsequent to bid submission/currency of Contract shall be on Discom account.

6.8 TAXES AND DUTIES

- 6.8.1 The prices should be exclusive of all duties/taxes/levies etc., prevailed at the time of submission of bid. As responsibility for exclusion all applicable taxes/ duties/ levies in the proposal lie with the bidder and as such Jaipur Discom shall not be responsible for any error/omission on your part.
- 6.8.2 For goods supplied from outside the Purchaser's country, you shall be entirely responsible for all taxes, duties, stamp duties, license fees, and other such levies imposed outside the Purchaser's country.
- 6.8.3 For goods supplied from within the Purchaser's country, Supplier shall be entirely responsible for all taxes, duties, entry tax, license fees, other levies, etc., incurred until delivery of the Goods and Related service to the Purchaser. The Purchaser will provide GST declaration form, whenever required.
- 6.8.4 The cost of Entry Tax as applicable will be the liability of the Supplier i.e., the price quoted will be exclusive of Entry Tax. The amount of Entry Tax will be deducted from the Supplier's invoice and remittance to tax dept. will be made by the Purchaser under the

TIN number of Purchaser. If any liability is raised by the commercial tax department, Govt. of Rajasthan on account of Entry Tax at a later date, the same shall be on the Supplier's account and accordingly recovery shall be made from the supplier's pending bills/security deposit as available with the Purchaser.

6.8.5 Prices shall not be subject to any upward/downward revision on any account whatsoever throughout the period of contract. Provided that any revision in taxes, statutory levies, duties which is not occasioned due to any change in place, method and time of supply or non-performance / non-fulfillment of any condition of any exemption considered by the vendor at the time of proposal, shall be considered for price adjustments.

6.8.6 The duties / Taxes / levies etc. may be indicated individually in the bill while claiming the payment.

7. PERIOD OF VALIDITY OF BIDS

7.1 The submission of any Bid connected with this Tender document shall constitute an agreement that the Bidder shall have no cause of action or claim, against the Jaipur Discom for rejection of his bid. Jaipur Discom shall always be at liberty to reject or accept any Bid or Bids at its sole discretion and any such action will not be called into question and the Bidder shall have no claim in that regard against any Discom.

7.2 The bid validity period is provided in the table mentioned in the NIT section. Bids mentioning a shorter validity period than specified are likely to be summarily rejected.

7.3 Tendering Authority may ask for extension in validity period. The Bidder will be at liberty to accept it or not. In case Bidder agrees to extend the validity period without changing his original offer, he will be required to extend validity period of the Bank Guarantee submitted against the EMD suitably.

8. SIGNATURE OF BIDDER

8.1 The bid must contain the name, address, and place of business of the Bidder and must be signed and sealed by the designated Authorized Representative of the Bidder. The name of such person should also be typed or printed below the signature.

8.2 Bid by a partnership firm must be furnished with full names of all partners.

8.3 Bids by corporation/ company must be signed by the Authorized representative of the Bidder with the legal name of the corporation/ company.

8.4 Satisfactory evidence of authority (Power of Attorney) of the person signing on behalf of the Bidder shall be furnished with the bid.

8.5 The Bidder's name stated on the proposal shall be exact legal name of the firm.

8.6 Bids not conforming to the above requirements of signing shall be disqualified.

9. DELAY IN BID SUBMISSION

The tendering authority shall not consider any bid that arrives after the deadline for submission of bids as indicated in the NIT. Any bid received by the tendering authority after the deadline for submission of bids shall not be accepted.

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

10. RECEIPT OF BIDS

Bids shall only be received through <https://www.eproc.rajasthan.gov.in> website.

11. WITHDRAWAL, SUBSTITUTION AND MODIFICATION OF BIDS

A Bidder may substitute or modify its bid after it has been submitted before the deadline prescribed for submission of bids as per the e-tendering process, but bidder cannot withdraw his bid after submitting it once.

12. BID OPENING

- (i) Jaipur Discom shall perform the Bid opening at the specified place, date and time in the presence of bidders or their authorized representatives who may choose to be present.
- (ii) Only the bids of those bidders who qualify post the Technical Bid evaluation shall be eligible for Financial Bid opening. The date and time of Financial Bid opening to the technically qualified Bidders would be intimated later. The bidder who has quoted lowest shall be termed as the successful bidder.

13. EVALUATION AND COMPARISON OF BIDS

The evaluation of bids will be made in the following manner:

A. Evaluation of Qualification and Technical Requirements

1. Each bid shall be evaluated to ascertain the qualification of bidder with respect to the requirements laid down in this RFP.
2. Consequent upon identifying the bidders who are found eligible in QUALIFICATION REQUIREMENT evaluation shall be carried out in following manner.
3. Availability for No-Deviation Certificate. If any deviation is found, the bid shall be declared as non-responsive.
4. Technical details and proposals submitted by the bidders shall be critically examined in line with objectives & scope of work mainly but not limited to the following criteria:
 - i. A detailed write up which shall include that how the compliance shall be made to the flow diagram given in this RFP
 - ii. Schematic diagram showing all the modules & components of the systems covered in the specification and integration with existing systems.
 - iii. Description of the technical solution for achieving the integration as shown in the above schematic diagram.
 - iv. Compliance to the Functionalities of Solution offered.
 - v. Compliance to the proposed Software's as per the RFP along with the OEM & Versions.
 - vi. Compliance to the proposed Hardware as per the RFP along with the OEM, Make & Model.
 - vii. Experience of the key professionals along with CV to be deployed.
 - viii. Integration methodology with details of software/hardware's as per Industry Standards.

- ix. Adherence with the time period as per schedule of deliveries defined in the RFP along with the work break down schedule.
- x. To ascertain the technical capabilities of the solution, JVVNL may interact with the prospective bidders, during such interaction the bidders shall demonstrate the technical capabilities of the system being offered. If required JVVNL shall call the bidder for such interaction by giving minimum 24 hours' notice.

Note: JVVNL shall prepare the list of qualified bidders on the basis of above criterion and accordingly will be notified through e-portal for opening of financial bid.

B. Financial Bid Evaluation

1. The Financial Bids which are opened shall be evaluated.
2. The Purchaser will correct arithmetical errors during evaluation of Financial Bids on the following basis:
 - i. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Purchaser there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected.
 - ii. If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail, and the total shall be corrected; and
 - iii. If there is a discrepancy between words and figures, the amount in words shall prevail. However, where the amount expressed in words is related to an arithmetic error, the amount in figures shall prevail subject to (i) and (ii) above.
 - iv. If there is a discrepancy between percentage and figures related to various taxes or levies, the percentage shall prevail over figure mentioned. However, where the amount expressed in percentage is related to an arithmetic error, the amount in figures shall prevail subject to (i) and (ii) above. It should also be noted that at time of payment against, the prevailing tax/levy rates will be used as on the date of approval of payment.
 - v. Except as provided in sub-clauses (i) to (iv) herein above, Tendering Authority shall reject the Price Proposal if the same contains any other computational or arithmetic discrepancy or error.

Note-

- i. If the Bidder does not accept the correction of errors, its Bid shall be disqualified, and its BID SECURITY/EMD shall be forfeited
- ii. The bids will be evaluated and awarded as per the evaluation criteria that "The Bidders having lowest financial quote during Financial Bid Evaluation shall be considered as the L1 Bidders".

14. GUIDING PRINCIPLE FOR EVALUATION OF BIDS

- 14.1.1 The tendering authority shall determine to its satisfaction whether the bidder has submitted the substantially responsive bid and is qualified to perform the Contract satisfactorily.

- 14.1.2 The determination shall be based upon an examination of the documentary evidence of the bidder's qualifications submitted by the bidder.
- 14.1.3 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the Bid, in which event the tendering authority shall proceed to the next best Bid.
- 14.1.4 The Tendering Authority, in observance of best practices, shall:
 - i. Maintain the bid evaluation process strictly confidential as per the details mentioned in Clause 13.3 below.
 - ii. Reject any attempts or pressures to distort the outcome of the evaluation, including fraud and corruption.
 - iii. Strictly apply only and all of the evaluation and qualification criteria specified in this Tender document.

14.2 CONFIDENTIALITY

- 14.2.1 Information relating to the examination, evaluation, comparison, and post qualification of Bids, and recommendation of contract award, shall not be disclosed to Bidders or any other persons not officially concerned with such process until publication of the Contract award.
- 14.2.2 Any attempt by a bidder to influence the tendering authority or other officials of Discom in the examination, evaluation, comparison, and post qualification of the Bids or Contract award decisions shall result in the rejection of his bid.
- 14.2.3 From the time of Bid opening to the time of Contract award, if any Bidder wishes to contact the Tendering Authority on any matter related to the Bidding process, he is allowed to do so in writing.

14.3 DETERMINATION OF RESPONSIVENESS

- 14.3.1 The determination of the responsiveness of a bid would be based on the contents of the information furnished by the Bidders in the Bid.
- 14.3.2 A responsive bid would be the one that meets the requirements of the Tender document without material deviation, reservation, or omission where: -
 - a) "Deviation" is a departure from the requirements specified in the Tender document.
 - b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the Tender document.
 - c) "Omission" is the failure to submit part, or all of the information or documentation required in the Tender document.
- 14.3.3 A material deviation, reservation, or omission is one that,
 - i. If accepted, would: -
 - a) Affect in any substantial way the scope, quality, or performance of the Goods and Related Services specified in the Tender document; or
 - b) Limits in any substantial way, inconsistent with the Tender document, the Tendering Authority's rights, or the bidder's obligations under the proposed Contract; or

ii.If rectified, would unfairly affect the competitive position of other bidders presenting responsive bids.

iii.Dilute the Qualification requirements mentioned in this Tender document.

14.3.4 The Tendering Authority shall examine the technical aspects of the Bid in particular, to confirm that all requirements of Tender document have been met without any material deviation or reservation.

14.3.5 The tendering authority shall compare all responsive bids to determine the best bid, in accordance with the provisions of this Tender document.

14.4 NON-MATERIAL NON-CONFORMITY

14.4.1 Provided that a bid is substantially responsive, the Tendering Authority may waive any nonconformity in the bid that does not constitute a material deviation, reservation, or omission.

14.4.2 Provided that a bid is substantially responsive, the Tendering Authority may request that the bidder submit the necessary information or documentation, within a reasonable period of time, to rectify non-material non-conformity or omissions in the bid related to documentation requirements. Requesting information or documentation on such non-conformity shall not be related to any aspect of the Financial Bid. Failure of the bidder to comply with the request may result in the rejection of its Bid.

15. DISQUALIFICATION

15.1.1 Tendering authority may at its sole discretion and at any time during the processing of bid, disqualify any bidder/ bid from the bid process if the bidder: -

- a) Any action on the part of the bidder to revise the rates/prices and modification in technical or commercial substance of Bid, at their own.
- b) Submission of any supplementary information unless & otherwise asked for at his own instance after the opening of the Bid may result in rejection of the Bid and also debar him from submission of Bid to the Discom at least for one year.
- c) The Bidder has been disqualified from any other Discom for any violation of code of conduct.
- d) In case of bidder not furnishing the desired information in the desired format the bid/offer may be rejected/non-responsive.
- e) In case of bidder not able to produce the original certificate(s) as asked by Tendering Authority, the bid/offer may be rejected/non-responsive.
- f) In case of bidder not adhering to the format of financial offer given with this document the bid / offer may be rejected / non-responsive.
- g) In case of any foot note or explanatory statement in the financial offer the bid/offer may be rejected/non-responsive.

- h) In case of any cover letter with financial offer comprising any supplementary statement or discount or any condition the bid / offer may be rejected / non-responsive.
- i) In case of any misapprehension at bidder level which may lead to wrong price bidding, Discom reserve the right to reject the bid or take necessary loading / unloading to arrive the correct price as per aspersion of Discom / tender specification. Accordingly, the bidders are advised to ask to clarify about any misapprehension before bidding. No excuse shall be considered in this regard.
- j) Does not meet the Qualification Requirement (QR) as mentioned in the bidding document.
- k) During validity of the bid or its extended period, if any, increases his quoted prices.
- l) Has imposed conditions in his bid.
- m) Has made misleading or false representations in the forms, statements and attachments submitted in proof of the eligibility requirements.
- n) Has been terminated or suspended from work under any contract within Indicator outside India and their performance guarantee/ security forfeited due to violation of terms. If bidder hides any facts in this regard an appropriate action shall be taken and EMD shall be forfeited. xv. Has submitted bid which is not accompanied by required documentation and EMD/Tender document fees/Processing fees xvi. Has failed to provide clarifications related there to, when sought. xvii. Has submitted more than one bid. This will cause disqualification of all bids submitted by such bidders including forfeiture of the EMD.

15.1.2 Tendering Authority has Right to accept/ Reject any or all of the Bids. The Tendering Authority reserves the right to accept or reject any bid, and to annul (cancel) the bidding process and reject all Bids at any time prior to Contract award, without thereby incurring any liability to the bidders or any obligation to inform the affected bidder or bidders of the grounds for such action.

Note: Bidders may specifically note that while processing the bid documents, if it is found, expressly or implied, that some bidders may have compounded in any manner whatsoever or otherwise joined to form a cartel resulting in delay/ holding up the processing of bids then the bidders so involved are liable to be disqualified for the contract as well as for a further period of two years from participation in any of the bids floated by any department, Govt. of Rajasthan.

16. AWARD OF CONTRACT

16.1 ACCEPTANCE OF THE TENDER/BID AND NOTIFICATION OF AWARD

16.1.1 However, the Discom reserves the right to award the Contract to any Technically Qualified Bidder on L1 price and declare such Bidder as successful Bidder.

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

- 16.1.2 If such Successful Bidder is unable to submit the required documents and to sign the Contract with the Jaipur Discom, it shall be rejected with forfeiture of its EMD, and offer may be extended to the L2 Bidder and so on.
- 16.1.3 After the selection of the Successful Bidder by the Tendering Authority within the validity period of Bid, the Tendering Authority shall inform such Bidder in writing by issuing Letter of Intent (LOI).
- 16.1.4 The Successful Bidder shall send an acknowledgement the LOI to the Discom, post which Discom shall prepare and send a detailed work order to the Successful Bidder. In case, the Successful Bidder refuses at the issue of LOI, the intent to perform the scope of work, it shall be rejected with forfeiture of its EMD, and offer may be extended to the L2 Bidder and so on.
- 16.1.5 Jaipur Discom shall issue Work Order to the Successful Bidder requiring doing the following things within specified timeline. If the Bidder fails to do the following things within specified timeline, EMD of such Bidder shall be forfeited and Tendering Authority and Discom may consider the next ranked bidder.
- Written Letter of Acceptance of Work Order along with duly signed and sealed copy of such Work Order as token of such acknowledgement within 7 working days.
 - Submission of Performance Guarantee as required to be submitted under the Contract within 15 working days.
 - Signing of the Contract (based on the terms & conditions of this Tender Document) with the Jaipur Discom within 15 working days after issue of Contract format by Jaipur Discom to the Successful Bidder. In case any of the party (Discom and the Successful Bidder) is unable to sign the Contract within 15 working days, it shall inform the other party in advance regarding the same along with the reason and suitable time for signing of the Contract.
- 16.1.6 Decision on bids shall be taken within original validity period of offers which shall be kept up to 90 days from the date of opening of financial bids. If the decision on acceptance or rejection of a bid cannot be taken within the original bid validity period due to unavoidable circumstances, all the bidders shall be requested to extend validity period of their bids up to a specified date.
- 16.1.7 The EMD of the other bidders shall be refunded after the execution of the contract by the Jaipur Discom with the successful bidder and his Contract Performance Security is received by the Jaipur Discom.
- 16.1.8 Until a formal Contract is prepared and signed, the Work Order/ LOI shall constitute a binding Contract.

17. SIGNING OF CONTRACT

The successful bidder will, on receipt of Work Order from Jaipur Discom enter into a contract with Jaipur Discom by jointly signing the Contract.

17.1.1 The draft of the Contract based on the terms & conditions, detailed in Section-II and Section-III will be forwarded to the successful bidder for execution by the Jaipur Discom.

17.1.2 The Contract will be signed within fifteen days thereafter. The person to sign the Contract must be duly authorized by the Bidding entities.

18. RESERVATION OF RIGHTS

18.1.1 To take care of unexpected circumstances, Tendering Authority shall reserve the rights for the following:

- i. Extend the last date & time for submission of the bids.
- ii. Amend the Tender Document at any time prior to the last date & time of submission of Bids.
- iii. To reject any bid without assigning any reasons.
- iv. Terminate or abandon the bidding procedure or the entire project whether before or after the receipt of bids.
- v. Seek the advice of external consultants to assist Jaipur Discom in the evaluation or review of bids.
- vi. Make enquiries of any person, company or organization to ascertain information regarding the bidder and its bids.
- vii. Reproduce for the purposes of the procedure the whole or any portion of the bids despite any copyright or other intellectual property right that may subsist in the bids.

Note: Direct or indirect canvassing on the part of the Bidder or his representative would be a ground for disqualification of such Bidder from this process.

19. LACK OF COMPETITION

19.1.1 A situation may arise where, if after evaluation of Bids, the bid evaluation committee may end-up with one responsive Bid only. In such situation, the bid evaluation committee would check as to whether while floating the NIT all necessary requirements to encourage competition like standard bid conditions, industry friendly specifications, wide publicity, sufficient time for formulation of Bids, etc. were fulfilled. If not, the NIT would be re-floated after rectifying deficiencies. The bid process shall be considered valid even if there is one responsive Bid, provided that: -

- i. The Bid is technically qualified.
- ii. The price quoted by the bidder is assessed to be reasonable.
- iii. The Bid is unconditional and complete in all respects.
- iv. There are no obvious indicators of cartelization amongst bidders; and
- v. The bidder is qualified as per the provisions of pre-qualification/ eligibility criteria in the bidding document.

20. General

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

- 20.1.1 Only one bid will be accepted against cost of Tender Document paid. This Tender Document is not transferable. The Tender Document Fees will not be refunded under any circumstances.
- 20.1.2 The bidder shall treat the details of this Tender Document as private and confidential and shall not reproduce without the written authorization of the Jaipur Discom.
- 20.1.3 Jaipur Discom does not bind itself to accept the lowest or any bid or any part of the bid and shall not assign any reason(s) for the rejection of any bid or a part thereof.
- 20.1.4 The fact of submission of bid to the Jaipur Discom shall be deemed to constitute an agreement between the Bidder and Jaipur Discom whereby such bid shall remain open for acceptance by the Jaipur Discom and Bidder shall not have option to withdraw his offer, impair or derogate the same. If the Bidder is notified during the period of validity of bid that his bid is accepted by the Jaipur Discom, he shall be bound by the terms of agreement constituted by his bid and such acceptance thereof by the Jaipur Discom, until formal contract of the same bid has been signed between him and Jaipur Discom in replacement of such agreement.
- 20.1.5 The successful bidder will have to sign the contract agreement for the proper fulfillment of the contract. In case of ambiguous or contradictory terms and conditions mentioned in the Tender Document/ Bid, interpretations as may be advantageous to Discom may be taken, if satisfactory clarification is not furnished within the prescribed period.
- 20.1.6 Jaipur Discom will not be responsible for any cost or expenses incurred by the bidder in connection with preparation or submission of bids.
- 20.1.7 Telex, Telegraphic or Fax bids shall not be acceptable.
- 20.1.8 Jaipur Discom reserves the right to:
 - i. Amend the scope of the proposed contract.
 - ii. Reject or accept any bid.
 - iii. Cancel the bid process and reject all applications.
 - iv. Vary the area.
 - v. Jaipur Discom shall neither be liable for any action nor be under any obligation to inform the bidders of the grounds for any of the above actions.

21. Nonconformity, errors, and omissions

If the Financial Bids of Technical Qualified bidders are opened, the Jaipur Discom will correct arithmetical errors during evaluation of Financial Bids on the following basis:

- 21.1.1 If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Jaipur Discom there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected.
- 21.1.2 If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail, and the total shall be corrected; and

21.1.3 If there is a discrepancy between words and figures, the amount in words shall prevail. However, where the amount expressed in words is related to an arithmetic error, the amount in figures shall prevail subject to (1) and (2) above.

If there is a discrepancy between percentage and figures related to various taxes or levies, the percentage shall prevail over figure mentioned. However, where the amount expressed in percentage is related to an arithmetic error, the amount in figures shall prevail subject to (1) and (2) above. It should also be noted that at time of payment against, the prevailing tax/levy rates will be used as on the date of approval of payment.

- i. Except as provided in sub-clauses (1) to (3) herein above, Tendering Authority shall reject the Price Proposal if the same contains any other computational or arithmetic discrepancy or error.
- ii. If the bidder does not accept the correction of errors, its Bid shall be disqualified and its EMD shall be forfeited.

22. Special Conditions of Tender

- i. The Service provider shall maintain the confidentiality of database. A separate NDA (Non-Disclosure agreement) shall be signed by the service provider.
- ii. Non-Disclosure Agreement (NDA)/ Information Confidentiality Agreement must be signed with all the concerned parties and the Discom before sharing any data on the contractual terms related to cyber security in the contract and tampering of data accumulated during the entire contract period. The value of the stamp paper shall be borne by Vendor and the value for the same shall be as per the prevailing rates of Govt. of Rajasthan.
- iii. All the required license, license updates / Licenses renewal / AMC of Licenses, Hardware AMC,ATS, software updates, change request, updation is the responsibility of vendor within the quoted price till currency of contract.
- iv. Time is essence in this Project. The successful Bidder is expected to implement the systems for the project area as per the schedules indicated in the RFP.
- v. Any safety related items/instruments i.e., mask, sanitizer, isolation shield etc. during pandemic will be provided by vendor to its staff and call center facility without any cost to deployed manpower during tenure of the contract. Staff should be 100% vaccinated

Note: The above Special Conditions of Contract and work details are given in this document. Further illustrative work and requirements during the tenure of the contract for meeting business requirement of the systems shall be provided to the bidder.

SECTION– 4 TERMS & CONDITIONS

The Terms and Conditions of the contract shall prevail and shall be binding on the Agency and any change or variation expressed or impressed howsoever made shall be in operative unless expressly sanction by the Jaipur Discom.  - T. Words importing the singular only shall also include the plural and vice version where the context requires.
 - U. Terms and expressions not herein defined shall have the same meaning as one assigned to them in the Indian Contract Act (Act IX of 1872) and falling that in the General Clause Act, 1897).
2. CONTRACT: After the selection of successful bidder Jaipur Discom will issue Letter of Intent and subsequently a detailed Work Order to such bidder. A contract shall be entered into between Jaipur Discom and the successful bidder.
3. CONTRACT VALUE: Contract Value shall be termed as total order value as quoted by the Successful Bidder in the Financial Bid.
4. CONTRACT PERIOD: The contract period shall be initially for a period of Six (6) years (1 year Implementation Period + 5 years O&M) from the date of award of contract. The contract period shall be extendable for further Three (3) years as per mutual agreement.

5. IMPLEMENTATION PERIOD: The implementation schedule shall be as per “Detailed Implementation Schedule” clause of this section.
6. TERMINATION OF CONTRACT: The termination of contract is based upon the performance of the work. If the average meter read provided by the contractor is less than 60% in three consecutive months than JVVNL the contract may be terminated (Except the Stabilization period and force major condition).
7. FALL BACK ARRANGEMENT: In the event of failure of the Agency to fulfil its obligations, duties and responsibilities as per the terms & conditions of the Contract, Discom shall inter-alia have the right, at any time to resort to fall back arrangement. Under such arrangement, Discom shall take charge of all facilities and systems whether in operation or under execution after giving suitable notice as provided in the Contract and can recover from the BGs & other holding of agency with Discom, the losses suffered due to such failure. If the BGs & other holding of agency is insufficient, the Agency shall pay the difference to Discom failing which Discom shall have right to recover the sum through legal or other means.

The Discom shall have the right in such circumstances to manage the system itself after taking charge of the facilities as above or through any other agency as it may deem fit and no claim of Agency for compensation in this respect shall be entered.

The Discom shall have the right in such circumstances to blacklist/bar/disqualify the Agency from submission of Bid to the any Discom(s) at least for one year.

8. HANDING OVER ON TERMINATION/ PROJECT COMPLETION:
As the system is on BOOT basis , the contractor shall hand over the infrastructure, systems, software licence, records, database and documents, latest source code with documentations, manuals etc. in good working order to JVVNL after termination/ completion of contract period
In order to smoothen the handing over process the vendor shall provide the list of infrastructure , system etc. deployed for the functional operation of the Feeder Monitoring system, in the bid
Following is to be handed over at the time of termination/ project completion:-
 - a. All infrastructure deployed at Bhamashah State Data Center with the licenses of operating system and database if any, has to be handed over to the Discom. The transferred Infrastructure should be in working condition.
 - b. Application software with source code and required licenses.
 - c. All equipment's deployed by the vendor. The transferred substation equipment's should be in working condition as per the average quantity for which payment made preceding of 6 months of completion date.

9. PERFORMANCE BANK GUARANTEE:
You shall furnish the Performance & Security Deposit / or Bank Guarantee against security deposit addressed to the SE(IT).

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

- A. A Performance Bank Guarantee equivalent to 5% (Five Percent) of Contract value shall be provided by the Successful Bidder within 15 days of receipt of Work Order from Discom, in crossed Bank Draft or by way of Bank Guarantee. The Performance Bank Guarantee shall be valid for six months (6) in addition to the entire contract period.
- B. In case if the successful bidder provides a Performance Bank Guarantee for shorter duration (not less than 12 months) then it would be the sole responsibility of the Successful Bidder to get the Performance Bank Guarantee extended well in advance to maintain the validity time. Discom may invoke the Performance Bank Guarantee without giving any information if validity of such Performance Security expires.
- C. The Bank guarantee in the prescribed format must be from the branch of any Nationalized/ Scheduled Bank. The Agency may furnish Bank Guarantee on stamp paper of Rajasthan state and shall furnish a certificate of Banker that the stamp duty has been paid as per prevailing rules of that Rajasthan State.
- D. Performance security shall be solicited from all successful bidders except the-
 - i. Departments/Boards of the State Government or Central Government.
 - ii. Government Companies as defined in clause (45) of section 2 of the Companies Act, 2013.
 - iii. Company owned or controlled, directly or indirectly, by the Central Government, or by State Government or Governments, or partly by the Central Government and partly by one or more State Governments which is subject to audit by the Auditor appointed by the Comptroller and Auditor General of India under sub-section (5) or (7) of section 139 of the Companies Act, 2013; or
 - iv. Autonomous bodies, Registered Societies, Cooperative Societies which are owned or controlled or managed by the State Government or Central Government. However, a performance security declaration shall be taken from them.
- E. In case of Small-Scale Industries of Rajasthan, it shall be one percent (1%) of the amount of Awarded order (one year) and in case of sick industries, other than Small Scale Industries, whose cases are pending before the Board of Industrial and Financial Reconstruction (BIFR), it shall be two percent (2%) of the amount of supply order (one year).
- F. Other terms & condition regarding performance security shall prevail as per RTTP Act 2012 & Rules-2013 made there under.
- G. If required by the NIGAM (i.e., Jaipur Discom), the validity of the Bank guarantee shall have to be further extended for such period as desired.
- H. The Jaipur Discom shall at its sole discretion to invoke the Performance Security and forfeit the amount secured there under, in the event that if you commit any delay or default in Services rendered or commit any breach of the terms and conditions of the Contract or non-fulfilment of the contract.
- I. If you fail to provide the Security within the period specified, such failure shall constitute a breach of the Contract, and the NIGAM shall be entitled to make other arrangements at your risk and expenses and the Bid Security deposited by the Contractor shall stand forfeited by the NIGAM.

10. AGENCY TO INFORM HIMSELF FULLY

The Contract shall be considered to have come into force from the date of its signing. The contractor shall be deemed to have carefully examined the Tender document including General Conditions, specifications, and schedules. Also, it shall deem to have satisfied himself with the nature and character of the work to be executed and where necessary, of the site conditions and other relevant matters and details. Any information thus had or otherwise obtained from the Discom or the Engineer shall not in any way relieve the contractor from his responsibility for the supplying of the hardware, software and other equipment and executing the work in terms of the contract including all details and incidental works and supply all accessories or apparatus which may not have been specifically mentioned in the contract but necessary for ensuring complete erection and safe and efficient working of the equipment.

11. CONTRACT DOCUMENTS

The order placed under this Tender document shall be governed by the terms and conditions as incorporated in this Tender document and as given in the detailed work order. The terms and conditions as specified in this Tender document if differ from the terms indicated in the detailed work order the later shall prevail. The contract shall for all purposes be construed according to the Laws of India and subject to jurisdiction of Rajasthan Courts at Jaipur only. For the due fulfilment of the contract, the Agency shall execute the Contract in the prescribed form, in prescribed number of copies on Rajasthan State Non-judicial stamp paper of Rajasthan State bearing stamp duty as applicable. The expenses of completing and stamping the Contract shall be borne by the Contractor. Such Contract shall be executed and signed by the authorized signatory of the Agency on each page thereof. Such complete agreement forms along with the contract documents together with a “Power of Attorney” in favour of the Executants shall be required to be submitted to the Discom within a period of 15 days from the receipt of order duly signed on each page. One copy of the executed agreement duly signed by the Discom shall be sent to the supplier for his reference.

The contract documents shall mean and include the following:

- i. Contract agreement.
- ii. Notice Inviting Tender
- iii. Complete Tender document including its amendments if any.
- iv. Bid submitted by bidder.
- v. EMD.
- vi. Letter of Intent and its acknowledgement.
- vii. Security Deposit/ Performance Guarantees.
- viii. Detailed Work order & its annexure.
- ix. Addenda that may hereafter be issued by the Discom to the Agency in the form of letter and covering letters and schedule of prices as agreed between the Agency and the Discom.
- x. The agreements to be entered as per Tender Document.
- xi. Requisite Power of Attorney in favour of the authorized signatory of the Bidder.

12. CHANGE OF QUANTITY: The Discom reserves the right to increase or decrease the quantities of items as specified in the Tender document as may be necessary, at the time of award of contract or during the execution of the contract. Any item can be deleted in total, if not required during execution.

12.1 RIGHT TO VARY QUANTITY:

1. If the procuring entity does not procure any subject matter of procurement or procures less than the quantity specified in the bidding documents due to change in circumstances, the bidder shall not be entitled for any claim or compensation except otherwise provided in the bidding documents.
2. Repeat orders for extra items or additional quantities may be placed, if it is provided in the bidding documents, on the rates and conditions given in the contract if the original order was given after inviting open competitive bids. Delivery or completion period may also be proportionately increased. The limits of repeat order shall be as under-
 - (a) 50% of the quantity of the individual items and 50% of the value of original contract in case of works; and
 - (b) 50% of the value of goods or services of the original contract.If needed Rajasthan Discoms may increase /reduce quantum of work/services/quantity not more than 50% of contract value with no limitation on quantity, with the consent of firm after successful execution of desired work by firm.
3. The quantity of Feeders may increase or decrease as per the requirement of Discom for which payment as per unit price (on actual output basis) shall be made as per the unit price mentioned in the work order.
4. Since this is a service contract, in case of addition of substation/Feeder in area shall not be considered as additional order.
5. During the currency of contract if any new substation/feeder is intimated, the vendor has to install the entire system and the payment shall be made as per unit price (on actual output basis)
6. Some towns may go in different business model like distribution franchisee/MBC etc. the bidder need to reduce Feeders from the affected area and payment will be made on unit basis as per actual deployment.
7. Above quantity is tentative and it may change in accordance with the requirement of the field.

13. GRAFTS AND COMMISSIONS ETC.

Any gift, commission, or advantage given, promised or offered by or on behalf of the contractor or his partner, agent, officers, director, employee or servant or any one on his or their behalf in relation to the obtaining or to the execution of this or any other contract with the Discom, shall be, in addition to any criminal liability which it may incur, subject of any loss or damage to the Discom resulting from any cancellation. The Discom shall then be entitled to deduct the amount so payable from any moneys otherwise due to the Agency under the contract.

14. COMPLIANCE OF LABOUR LEGISLATION:

The Agency shall discharge its liability of employer in respect of personnel to be engaged for delivering service under this Contract, as laid out in EPF and MP Act, 1952 ESI Act, 1948 (in ESI implemented area), workmen's compensation act, 1923 (in non ESI implemented area) contract labour (R&A) Act, 1970, Payment of Wages Act, 1936, Minimum Wages Act, 1948 or any other Act, Rules, Regulations as may be applicable. The Agency is required to get separate code under the provision of EPF and ESI Acts, if not already taken and deposit the employer's contribution along with employee subscription, as per rule and submit copy of challans at the time of claiming payment, as per Tender document, failing which an amount equivalent to employer's contribution and employees subscription shall be deducted from each bill and deposited with the concerned authorities. The Agency shall be solely responsible for any consequences arising out of breach of any applicable legislation.

The Agency shall deploy Semi Skilled / Skilled manpower with necessary qualifications and experience as mentioned in the Tender Document. Agency shall pay salaries / wages to the manpower deployed through cheque/online transfer and submit Circle wise, Division wise Sub Division wise and Employee wise salary statement with all details such as Basic, DA, Conveyance, Bonus, EPF, ESI, PT, TDS, Net Salary etc. to Discom. Payment of wages / salaries paid in cash is strictly not allowed.

Accounts Officer of respective circle shall ensure compliance of labour legislation by the Agency with respect to labour law, minimum wages, Accidental Insurance, Workman compensation, EPF and ESI etc. Accounts Officer shall verify and certify the monthly Circle wise, Division wise Sub- Division wise and Employee wise salary statement and all type mathematical calculations for release of payments to Contractor.

Accounts Officer shall ensure compliance by the Agency with respect to labour law, minimum wages, Accidental Insurance, Workman compensation, EPF and ESI etc.

15. SAFETY OF SYSTEM: The Agency shall be fully responsible for upkeep, operation, maintenance, security and safety of hardware, software, documents, data and other documents and records transferred to it and developed later. These documents and records shall be maintained in updated condition and handed over back to Discom in good working order on completion of the contract or time to time basis as per scope of works as and when required by the Discom. Agency shall compensate to Discom any loss suffered by Discom due to default of the agency in this respect.

16. INSURANCE: The agency at his cost shall arrange, secure and maintain all insurance (equipment's installed at substation by them & the manpower) as pertinent to the works and obligatory in terms of law to protect its interest and interest of JVVNL against all perils. Further all material shall be procured in the name of Jaipur Discom with the liability of vendor for replacement, insurance till currency of contract.

17. REMEDY ON AGENCY'S FAILURE TO INSURANCE: If the Agency fails to effect and keep in force insurance referred to in this document hereof or any other insurance which he may be required to effect under the terms of contract then the JVVNL may effect and keep in force any such insurance and pay such premium(s) as may be necessary for that purpose and from time to time deduct the amount so paid by

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

the JVVNL as aforesaid from any money due or which may become due to the Agency or recover the same as debt from the Agency.

18. **TRANSPORTATION:** The supplier/ selected bidder shall be responsible for transport by sea, rail and road or air and delivery of the material in the good condition to the consignee at destination. In the event of any loss, damage, breakage or leakage or any shortage the bidder shall be liable to make good such loss and shortage found at the checking/ inspection of the material by the consignee. No extra cost on such account shall be admissible.
19. **LIABILITY FOR ACCIDENTS AND DAMAGES:**
- 19.1 The Agency shall be liable for and shall indemnify the Discom in respect of all injury to person or damage to property resulting from the negligence of the Agency or his workman or from defective work but not from any other cause.
- 19.2 Provided that the Agency shall not be liable for any loss or profit or loss of Contract or any other claim made against the Discom not already provided for in the contract, not for any injury or damage caused by or arising from the acts of the DISCOM or of any other person or due to circumstances over which the agency has no control, not shall his total liability for loss, damage or injury under this clause exceed the total value of the Contract.
- 19.3 The Agency will indemnify and save harmless the Discom against all actions, suits, claims, demands, costs, or expenses arising in connection with injuries (other than such as may be attributable to the Discom or his employees) suffered prior to the date when the work shall have been taken over hereof by persons employed by the agency on the work, whether at common law or under the workman's compensation Act-1923 or any other statute in force at the date of contract relating to the question of the liability of employees for injuries suffered by employees and will if called upon to do so take out the necessary policy or policies of insurances to over such indemnity.
- 19.4 The Agency shall insure against such liabilities with an insurer approved by the Discom and shall continue such insurance, during the whole of the time that any person(s) is employed by him on the works and shall when required produce to the Discom such policy of insurance and the receipt for payment of the current premium.
20. **MAINTENANCE OF FACILITIES AND PERSONNEL:** The Agency shall maintain all requisite facilities of its own as required to carry out the work as per the specification.
- 20.1 The Agency shall provide and maintain a controlling office with requisite infrastructure at Jaipur with proper staff, & facilities shall remain open at all reasonable hours to receive communications.
- 20.2 The agency shall also maintain communication equipment's like telephone with fax, mobile phone, Internet etc. for interaction with JVVNL and others.
- 20.3 **PERSONNEL:** The Agency shall maintain supervisory and other personnel for efficient management of the work under contract. However this contract is on BOOT Basis, agency shall be responsible for smooth & timely execution of work by appointing sufficient number of manpower.

- 20.3.1. One Manager and One System Engineer or an alternate shall be available at Jaipur HQ for communication during all business hours.
 - 20.3.2. Agency shall not change the Manager/System Engineer/nodal officer, frequently.
 - 20.3.3. Agency shall immediately inform JVVNL about any change of personnel/contact numbers through Email/ post.
 - 20.3.4. Agency shall issue identification cards to all its personnel engaged in the work under the contract. The identification card duly signed by Sr. Manager of the agency shall be consisting of Resume and photograph of the concerned personnel along with name and logo of the agency.
21. NODAL OFFICER FOR EXECUTION OF PROJECT: After award of contract, to interact between the field offices and Agency, the respective SE(M&P), JVVNL shall act a Nodal Officer. Similarly, the Agency shall communicate the name of the authorized person(s) that would act as a Nodal Officer(s) from his side.
22. AGENCY'S RIGHTS: The Agency will be given rights to operate in the area during the Contract period for carrying out the work, which shall cease to exist on completion of the said period or on termination of the Contract.
23. ACCEPTANCE OF LOA: The Agency will submit written unconditional acceptance of this LOA within 7(seven) days from date of issuance of the award. In case of non-compliance, Jaipur Discom reserves the right to cancel the LOA placed on Agency.
24. CONTRACT AGREEMENT:
- 24.1 Contract Agreement shall be signed on unconditional acceptance of Letter of Award by turnkey contractor, within 15 days from date of issue of Letter of Award and submission and acceptance of contract performance guarantees Signing the Contract Agreement
 - a. At the same time as the Employer notifies the successful Bidder that its bid has been accepted through Letter of Award, the Employer in consultation with the Bidder will prepare the Contract Agreement provided in the Bidding Documents, incorporating all agreements between the parties.
 - b. On unconditional acceptance of Letter of Award, contract agreement shall be signed on submission and acceptance of contract performance security within 15 days from date of issue of Letter of Award.
 - c. The contract agreement shall be executed on Rajasthan Non- Judicial Stamp Paper as per applicable rate in Rajasthan Stamp Duty Act.
 - 24.2 The Contract shall set out specific events of default by one party that will entitle the other party to terminate the Contract. The party committing an event of default, which is capable of being remedied, will be given a reasonable opportunity to remedy the default.
 - 24.3 The Contract can however be otherwise terminated by either party by giving six-month notice and on terms to be mutually agreed which may include payment of suitable compensation for losses suffered by the other party due to such termination.

24.4 Agency shall indemnify Discom against any claims, demands, costs and expenses whatsoever which may be made against it, because of failure of the Agency or its representatives in the performance of their duties and negligence, any accident or injury to any person. In-case of failure of agency/representative, liability capping shall be limited to contract value of the project.

25. PAYMENT TERMS & PENALTIES

- 25.1 **Invoicing:-** The agency has to submit a Zone wise monthly invoice to the designated officer i.e. Superintending Engineer(M&P), Jaipur/Bharatpur/Kota in triplicate for the entire area of the scope on rates indicated in the Work Award. The invoice has to be raised for the quantity of feeder meters monitored, read & meter data acquired as per scope of work during the calendar month.
- a. The invoice shall be accompanied by the following:
 - i. Employee wise monthly wages statement.
 - ii. EPF statements and challan.
 - iii. ESI statements and challan.
 - iv. System generated SLA report (circle wise)
 - b. 100% payment of monthly invoice shall be paid in following schedule.
 - i. The invoice shall be submitted within 7th of every month.
 - ii. The Nodal Officer shall verify the invoice by 15th of every month and send the same to the Sr. AO(CPC).
 - iii. The Sr.AO (CPC) shall release the 100% Payment within 30 days, after receipt of invoices. Complete in all respect as above.

Note : All the payments by the designated payment authority shall be made through electronic mode i.e. RTGS or NEFT. The charges being levied by the bank for providing this service shall be to your account on actual.

25.2 Certification and verification: The designated officer of the Nigam shall verify and certify the invoice through system generated reports, the vendor shall provide an interface for verification of the invoice in the software to facilitate the verification authority to compute the actual work carried out and amount of applicable penalty. The authenticity of verification interface shall be made by JVVNL before commencement of payment and it shall be password protected and un-editable.

25.3 Payment :100% invoice payment after deducting penalties if any shall be made within 30 days from the date of verification of the Invoice. Payment shall be made by Sr. Accounts Officer(CPC) Jaipur Discom. The name of verification officer shall be notified in the work order.

25.4 Penalties :

25.4.1. For any delay in Operational Go-Live mentioned mentioned in **Implementation And Rollout Schedule** of clause 26 beyond stipulated schedule, a penalty @1/2% (half percent) per week

or part thereof shall be levied/recovered subject to a maximum of 10% (ten percent) of the contract value. Thereafter Nigam reserve the right to cancel the contract.

25.4.2. Penalty applicable during O&M period shall be calculated on the circle basis and as under:

Sr.No.	Particular	Extent of penalty / No Payment
A	Extent of feeder Meter information received on system**(monthly)	
1	Upto 98% of Total Feeders meters of Circle	No penalty
2	Below 98% and Upto 95% of Total Feeders meters of Circle	No payment towards non reporting feeders + 10% penalty on unit rate on total number of non reporting feeders*
3	Below 95% and Upto 90% of Total Feeders meters of Circle	No payment towards non reporting feeders + 20% penalty on unit rate on total number of non reporting feeders
4	Below 90% of Total Feeders meters of Circle	No payment shall be made
	**The penalty shall be calculated strictly as per above slabs and no benefit should be given for the preceding slabs. Issues pertains to JVVNL[decided by concern SE(M&P)] will not be counted for calculation of SLA.	

25.4.3. The number of circles in the DISCOM may change from time to time as per administrative orders issued by the DISCOM. Accordingly, the firm shall deploy its system and make necessary modifications to accommodate such changes. These changes shall not be considered as a change request or treated as an additional order.

Note :- The first payment shall be released only after Operational Go-Live.

25.5 MOBILIZATION ADVANCE :- On the request of firm, an advance of 10 % of the contract value for one year may be made by the O/o SE(IT) against Bank Guarantee (10 % of contract value of one year). The Bank Guarantee will remain valid initially up to 15 Months. The mobilization advance shall be recovered in 12 equitable monthly installments from the first running bill till the advance amount is fully adjusted.

25.6 The commencement of payment shall be effective only after completion of all contractual formalities and acceptance of BGs.

26. IMPLEMENTATION AND ROLLOUT SCHEDULE

26.1 Implementation and Roll-out Schedule shall be as under:-

S.No	Particular Of Activity	Time Schedule Desired
------	------------------------	-----------------------

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

1	Furnishing Detailed Road Map	Within 30 Days From The Date Of Awarding Contract
2	Submission Of Detailed Data Sheet Of Software	Within 45 Days From The Date Of Work Order
3	Proof Of Concept	Within 60 Days From The Date Of Work Order.
4	Implementation of System In One Circle With Installation of Substation Equipment For Phase 1 and Hosting of System on BSDC	Within 120 Days Of The Work Order
5	Completion of Installation of Substation Equipment for Phase 1 for all circles	Within 180 Days Of The Work Order
6	Completion of Installation of Substation Equipment for Phase 2 & Phase 3	Within 270 Days Of The Work Order
7	Stablization Period	3 Months From Completion Of Activity Mention At Sr.No. 6
8	Operational Go-Live	Within 12 Months From The Date Of Work Award
9	Operation & Maintenance Period	5 Years From Date Of Go-Live

26.2 **System Stabilization Period:-** The Stabilization Period shall mean the period of three (3) months commencing from the completion of installation and commissioning activities as specified at S. No. 6 of Clause 26.1, during which the entire system shall be operated under real working conditions to ensure its performance, reliability, and compliance with contractual requirements.

- During this period, the bidder shall be responsible for:
 - a. Continuous monitoring and smooth operation of the system across all circles
 - b. Identification and rectification of defects, bugs, and performance issues
 - c. Fine-tuning and optimization of hardware, software, and communication networks
 - d. Ensuring system availability, data accuracy, and performance as per SLA requirements
 - e. Providing hand-holding support and assistance to JVVNL personnel
 - f. Ensuring seamless data flow, integration, and reporting functionalities
 - g. Addressing any gaps observed during field operations
- The Stabilization Period shall be deemed successfully completed only after:-
 - a. Completion of training obligations pre-Operational Go-Live;
 - b. Independent third-party Cyber security audit

- c. Availability of monthly Feeder Meter data Upto 98% of Total Feeders meters of each Circle for all three months
- d. Migration of feeder data from the existing Feeder Monitoring Systems implemented by M/s Linkwell and M/s Fox Solutions Pvt. Ltd. The migrated data shall be frozen, and all reports generated from the taken-over data shall be in a non-editable format.
- e. Completion of Integration with existing IT/OT System of JVVNL and National Feeder Monitoring System.

➤ Only after successful completion of the Stabilization Period shall the project be considered eligible for Operational Go-Live declaration.

26.3 **Operational Go-Live:-**After successful completion of Stabilization Period, Bidder shall submit the a Stabilization Completion Report to JVVNL. Based on these documents the utility shall check for the completeness and accuracy of the documents and issue Operational Go Live certificate to the vendor.

26.4 **Exception Cases for Operational Go-Live (Non-Delay Conditions):-** Notwithstanding the conditions specified for Operational Go-Live, the declaration of Go-Live shall not be delayed due to the following exceptions, provided that the bidder has made all reasonable efforts and submitted documented evidence:-

26.4.1. Non-availability / delay in readiness of site infrastructure (such as space, power supply, earthing, panel readiness, etc.) at substations not attributable to the bidder.

26.4.2. Delay in integration or readiness of third-party / existing IT-OT systems, excluding National Feeder Monitoring System, where such delay is beyond the bidder's scope.

26.4.3. Pending approvals, permissions, or dependencies from JVVNL or other authorities, impacting project completion.

26.4.4. Non-availability or restricted access to substations/feeders due to administrative, operational, or safety constraints beyond the bidder's control.

26.4.5. Force Majeure conditions, including natural calamities, pandemics, law & order issues, or any events defined under Force Majeure in the contract.

26.4.6. Delays in data availability or data quality issues from existing feeder monitoring systems (e.g., Linkwell, Fox Solutions) affecting migration completeness.

26.4.7. Shortfall in feeder coverage (e.g., 100% meter installation) due to reasons attributable to the utility, provided that the bidder has completed installation in all feasible and handed-over locations.

26.5 **The above exceptions shall be considered only if:**

26.5.1. The bidder has formally notified JVVNL in writing with proper justification

26.5.2. Adequate documentary evidence is submitted

26.5.3. The bidder has completed all activities within its defined scope

26.5.4. The impact is validated and approved by JVVNL

26.6 **Provisional Go-Live:** In such cases, JVVNL may, at its discretion, declare a "Provisional Operational Go-Live", subject to:

26.6.1. Achievement of at least 95–98% system readiness

26.6.2. Submission of a time-bound closure plan for pending items

26.6.3. No impact on critical system functionality and reporting

27. GOVERNING LAWS AND JURISDICTION: the Indian Law shall govern the agreement. Only appropriate courts in Jaipur shall have exclusive Court Jurisdiction to deal with any matter arising out of or relating to the agreement or otherwise.
28. JURISDICTION FOR LEGAL PROCEEDINGS: The contract shall be governed by the laws of India for the time being in force and be subject to the court of competent jurisdiction at Jaipur City (Rajasthan) India. All disputes, differences questions whatsoever arising between the Discom. and the agency upon or in relation to or in connection with the Contracts shall be deemed to have arisen in Jaipur City only and no court other than court at Jaipur, Rajasthan shall have jurisdiction to entertain or try the same.
29. SETTLEMENT OF DISPUTES: In any time, any question, dispute or difference whatsoever which may arise between Jaipur Discom and the Agency, the same shall be decided by CMD/MD of Jaipur Discom, or by the settlement committee constituted by him and shall be final and binding on both the parties. The Discom have constituted settlement committee to settle the disputed cases. For the disputed amount up to Rs. 2.50 Lac the case may be referred to the CE level settlement committee and if the disputed amount is more than Rs. 2.50 Lac the case shall be referred to the corporate level settlement committee. The non-refundable fees for referring the case to the settlement committee are as given below or prescribed time to time:
- A. Reference fee for CE level settlement committee - Rs. 1000/-
 - B. Reference fee for corporate level settlement committee-Rs. 3000/-
 - C. Fee for review of cases by corporate level settlement committee by BoD- Rs. 5000/-
- The settlement committee fees as shown above or prevailing at that time shall be deposited in cash with the concerned AO (IT&RE).
30. CONDUCT OF AGENCY'S STAFF: If any of the Agency's employees shall, in the opinion of Discom, is guilty of any misconduct or incompetence or negligence, then if so, directed by Discom, the Agency shall at once remove such employee and replace him by an equally qualified and competent substitute.
31. LIEN: In case of any lien or claim pertaining to the work and responsibility of the Agency for which Discom might become liable, it shall have right to recover such claim amount from the Agency.
32. TENDER FORMS AND ACCEPTANCE OF TENDER: Each tenderer must prepare and submit his tender strictly according to the procedure laid down in the instructions to tenderer annexed herewith.
33. SUSPENSIONS OF WORKS: Jaipur Discom shall not be liable to pay the Agency any compensation whatsoever arising from suspension of specified work or for idle labour.

34. DEATH BANKRUPTCY ETC.:

- 34.1 If the Agency shall die or dissolve or commit any act or bankruptcy or being a corporation commence to be wound up except for reconstruction purpose or carry on hits, business under a receiver, the executors successors, or other representatives in law of the state of the Agency or any such receiver, Liquidator, or any persons to whom to the contract may become vested shall forth-with given notice thereof in writing to the Discom and shall for one (1) month during which he shall take all reasonable steps to prevent stoppage of the work have the option of carrying out the Discom subject to his or their providing such guarantee as may be required by the Discom but not exceeding the value of the work for the time being remaining relieve unexecuted provided however that nothing above said shall be deemed to relieve the Agency or his successors of his or other their obligations under the contract under any circumstances. In the event of stoppage of the work the period of the option under this clause shall be seven (7) days only. Provided that, should the above option be not exercised, the contract may be terminated by the Discom by notice in writing to the Agency and the same power and provisions reserved to the Discom as mentioned in the Tender in the event of taking the work out of the Agency's hand's shall immediately become operative.
- 34.2 Change of name of the Agency at any stage after Bidding Process, the Discom shall deal the same as per prevailing rules of the Discom.

35. GUARANTEE: GUARANTEE and REPLACEMENT OF DEFECTIVE/DAMAGED MATERIALS:

- 35.1 **GUARANTEE:** This contract is on SaaS Basis hence the entire Feeder Data Monitoring System should be guaranteed for satisfactory operation and good workmanship at least for an initial period of Five years after date of award of contract. If contract is extended beyond this period, the guarantees shall be extended automatically. During the period of contract all the supply, operate, repair, replacement, maintenance cost of entire system shall be borne by contractor.

35.2 **REPLACEMENT OF DEFECTIVE/DAMAGED MATERIALS**

Notwithstanding anything contained in the above liquidated damages clause when the whole or part of the materials are found to be defective/damaged or are not in conformity with the specification or sample, such defects or damages in the materials supplied shall be rectified within 3 working day from the time of intimation of defect/damage either at the point of destination or at the supplier's works, at the cost of supplier, against proper security and acknowledgement.

In the alternative, the defective or damaged materials shall be replaced free of cost within 3 working days from the date of receipt of the intimation from the purchaser of such defects or damages. If the defects or damages are not rectified or replaced within this period, the supplier shall pay a sum towards liquidated damages as per liquidated damages clause given above, for the delay in rectification/replacement of the defects or damages

36. RULES & REGULATIONS: The job shall be carried out as per the Discom's rules & regulations which may be modified by Discom from time to time and would be intimated to the Agency for incorporating the same.
The Agency will also follow the labour regulations and the directions of Government and other authorities enforcing the regulations and comply with any other relevant legislation in force from time to time.
37. FAILURE TO EXECUTE THE CONTRACT: Agency failing to execute the order placed on them to the satisfaction of Discom under terms and conditions set forth therein, will be liable to make good the loss sustained by the Discom, consequent to the placing of fresh orders elsewhere at higher rate, i.e. the difference between the price accepted in the contract already entered into and the price at which fresh orders have been placed. This is without prejudice to the imposition of Penalty/ Liquidated Damages and forfeiture of Performance Security.
38. NON-ASSIGNMENT: - The Agency shall not assign or transfer the contract or any part thereof to any other agency/ personnel during the contract period.
39. EFFECTING RECOVERIES: Any loss, arising due to non-fulfilment of this contract or any other contract, will be recovered from the Performance Security held and or any other amount due to the Agency from the Discom from this Contract as well as from other contracts.
40. FORCE MAJEURE CONDITIONS: If at any time during the currency of the contract the performance in whole or in part be prevented or delayed by reason of any war hostility acts of public enemy, civil commotion, sabotage, fire floods, explosion, epidemics, quarantine restrictions, strikes, lockouts or acts of god (hereinafter referred to as Events) then provided Notice and adequate proof of the production/dispatch having suffered on account of these events is given within 21 days from the date of occurrence thereof the provision of penalty Clause of this specification shall not be invoked by the purchaser provided further that the deliveries under the contract shall be resumed, as soon as practicable after such event (s) has ceased to exist and the decision of the purchaser as to whether the deliveries have been so resumed or not shall be final and conclusive provided further that in case the strike/lockout prolongs beyond a period of seven days, the supplier shall immediately inform about to the purchaser in which case the purchaser reserves the right to procure the material equipment on order or part thereof from any other source at the risk and cost of the supplier.
Delay in providing requisite metering protocols or delay in providing requisite CT PT Sets and Meter (at 11 KV feeders) by Nigam shall be considered in force majeure conditions
41. TERMINATION OF CONTRACT: If the services of the vendor are not as per the awarded work for three consecutive months after commencement of work or non-response after 14 days' notice then Discom will have liberty to terminate the project.
Upon Termination of the Contract, the Supplier shall Prepare and present a detailed exit plan within five calendar days of termination notice receipt to the Nodal officer of JVVNL ("Exit Plan").

The order may be cancelled by JVVNL for Non-acceptance of LOA.

42. **COMPLETENESS OF CONTRACT:** The contract shall be considered completed on termination of the contract period after full handing over of data, documents or material and clearing all dues towards the agency as specified in this document and certification by SE (IT).
43. **INSPECTIONS AND TESTING:** The following clauses shall be applicable as per the requirement of this tender :-
- 43.1 Before commencement of operation, JVVNL shall verify the infrastructure and equipment's as per the contract terms and specification subsequent to intimation by the agency. Also the requisite tests of the softwares shall be carried out.
- 43.2 The agency has to arrange demonstration of software or the entire solutions provided by it before deployment and incorporate requirements of JVVNL pertaining to work.
- 43.3 The agency shall demonstrate proof of concept for at least 10 Sub Stations. Clearance of the same by the designated committee is essentially required to full fill the requirement of Pre Commencement inspection.
- 43.4 The vendor shall ensure compatibility of System / infrastructure deployed with feeder meters prior to installation.
44. **GST:** The Bidder shall furnish details of applicable GST as on date of bidding which shall be paid.
45. **APPEAL:** If any Bidder or prospective bidder is aggrieved that any decision, action or omission of the procuring entity is in contravention to the provisions of this Act or the rules or guidelines issued there under, he may file 1st & 2nd appeal under section 38 of RTPP Act-2012 to the following appeal authorities: -

Sr.	Type of Appeal	Name & Designation of appellate authority
1	First appeal	Chairman & Managing Director, Rajasthan Vidyut Utpadan Nigam Ltd, Vidyut Bhawan, Jaipur.
2	Second appeal	Energy Department, Government of Rajasthan

The form of appeal shall be as per Rule 83 of RTPP Rules, 2013 and subsequent amendments, memorandum of appeal shall be filled as per form-1 as prescribed under RTPP Rules, 2013.

Fee for appeal: - Subject to rule 84 of the RTPP Rule 2013 the fee shall be as under: -

A. For First Appeal: - Rs. 2,500/- (Rupees Two Thousand Five Hundred Only)

B. For Second Appeal: - Rs. 10,000/- (Rupees Ten Thousand Only)

Note: - In case anything contained in the Tender Document differs from the RTPP ACT/ RULES then interpretation & provision contained in the RTPP ACT/RULES shall be final and the bidder shall be abiding there upon.

46. NON-DISCLOSURE AGREEMENT

The Firm shall not, either during the term or afterwards, disclose any proprietary or confidential information relating to the Project, the Services, this Contract or the Client's business or operations without the prior written consent of the Client. The Agency shall enter into Non-Disclosure Agreement with JVVNL on Non - Judicial stamp paper worth Rs. 500/- (Rupees Five Hundred only) of Rajasthan State.

47. CORRESPONDENCE

47.1 The correspondence related to bid and purchase/work order shall be made with the Superintending Engineer (IT), JVVNL, Old Power House, Banipark, Jaipur.

47.2 The correspondences related to execution of ordered works including survey quantity approval, shall be made with concerned circle Superintending Engineer (O&M)/ Superintending Engineer (M&P), JVVNL.

47.3 The correspondence regarding bills & payment etc. shall be made with the concerned Superintending Engineer (M&P), JVVNL under intimation to this office.

SECTION –5: SCOPE OF WORK

Jaipur Vidyut Vitran Nigam Limited (JVVNL) is engaged in the distribution and supply of electricity across 15 districts of Rajasthan, namely: Jaipur, Dausa, Alwar, Bharatpur, Deeg, Bhiwadi, Kotputli-Behror, Dholpur, Kota, Bundi, Baran, Jhalawar, Sawai Madhopur, Tonk, and Karauli.

A large number of 33/11 kV substations are spread across the DISCOM network. Each substation typically has 5 to 8 outgoing 11 kV feeders supplying electricity to various areas. These feeders are equipped with HT Tri-Vector (HTTVM) meters of multiple makes, having different communication capabilities such as Optical ports, RS-485, RS-232 / RJ-11 ports. Majority of meters support DLMS protocol, while a some operate on proprietary protocols. In case of proprietary protocol or Non-DLMS meter, DISCOM will replace the meter, vendor shall intimate the same to respective M&P office.

Currently:

- Uni-directional feeder meters are installed on most 33 kV and 11 kV feeders
- Bi-directional meters are installed on selected 11 kV outgoing feeders

To capture and analysis the data of meter installed at 11 KV outgoing feeders, JVVNL has installed AMR system at approx. 7500 Nos. of 11 KV feeder meters by M/s Linkwell Telesystems Ltd. Through Modem and DCU are installed at 33/11 KV Sub-station for approx. 4000 nos. 11 KV outgoing feeders by M/s Fox Solutions Pvt Ltd.

However, no automated system exists for capturing data from 33 kV feeder meters and boundary meters. Data from 33 kV feeders is currently collected manually using CMRI or other methods, and further processed manually for Energy accounting, Loss analysis, MIS reporting, RVPN bus losses (33 kV side of 220/132 kV GSS), Sub-transmission (33 kV line) losses, 33/11 kV Substation losses.

Now JVVNL intends to implement unified platform for both the existing AMR systems at 11 KV outgoing feeder level i.e. Linkwell System and M/s Fox System as well new system to capture the data of meter installed at 33 kV feeders, 36 KV VCBs at 33 kV substations & boundary points on near real time basis. The system should have capability to refresh the instantaneous parameter & alarms & events data on near to real time basis (preferably on every 5 minutes) & shall capture other parameters on hourly basis i.e. Block Load Profile & other parameters. The system shall have the capability to provide the data for power supply monitoring, alerts, meter data analysis, information dissemination, energy accounting report and various other MIS reports for Sub-transmission 33KV line losses, 33/11 KV substation losses at daily, weekly, monthly, yearly or user select-able period.

Entire IT infrastructure shall be hosted at the Bhamashah State Data Center. The bidder shall be responsible for appropriately sizing and provisioning the IT infrastructure to meet the prescribed Service Level Agreements (SLAs) and ensure optimal system performance and reliability.

The bidder needs to ensure the compliance of guidelines issued in Order No. F/No.6/18/2019-PPD by Ministry of Finance, Department of Expenditure, Public Procurement Division dated 23 July 2020, Order No.9/16/2016-Trans-Part (2) dated 18 November 2020, latest Government of India Guidelines for Make in India, Domestically manufactured products, Atmanirbhar Bharat and circulars DIPP Office Memorandum No. P-45021/2/2017-PP (BE-II) date: 16th Sept. 2020, MeitY Circular No.1(10)/2017-CLES dated 06.12.2019 and Order No. 11/05/2018-

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

Coord. by the Ministry of Power dated 17 September 2020 including any amendments or modifications to the same from time to time.

The successful bidder shall take over the existing infrastructure deployed in the field by M/s Fox Solutions Pvt. Ltd. and M/s Linkwell Systems, including DCUs, modems, associated accessories, software licenses, and other related components.

Further, the bidder shall carry out all necessary modifications, integration, and upgrades required to align the existing infrastructure with the proposed unified web-based system. The bidder may utilize the existing infrastructure to the maximum extent, subject to its technical compatibility with the proposed system.

In cases where any part of the existing infrastructure is found to be technically incompatible or unsupported with the proposed unified IT system, the bidder shall replace or upgrade such components at its own cost, without any financial implication to the DISCOM, while ensuring seamless functionality and achievement of the desired output.

The vendor shall also undertake migration of feeder data from the existing Feeder Monitoring Systems implemented by M/s Linkwell and M/s Fox Solutions Pvt. Ltd. The migrated data shall be frozen, and all reports generated from the taken-over data shall be maintained in a non-editable format.

The supplies of the meters at 33KV feeder and 11KV feeders are not covered in the scope of this contract.

The required system shall be deployed in phased manner and details of Meter installed at 33V feeders, boundary points, 36KV VCBs and 11 KV outgoing feeders are as under:-

Particular		Proposed Count (nos.) (Approx.)
Phase-1	Meter installed at 11 KV feeders (Total 11 KV outgoing feeder 11668 Nos. approx, modem installed on 7500 Nos. Feeder and data of approx. 4000 feeder captured through DCU via MU)	18000
	Meter installed at 36 kV VCBs at 33/11 KV sub-station	4000
Phase-2	Meter installed at 33kV outgoing Feeders emanating from 132 & 220 KV GSS	1600
Phase-3	Boundary points	1000
	Total	24600

1. The Broad Scope of work shall be as under :

S.No.	Particulars	Scope of work
A.	Feeder Monitoring system	Vendor can deploy any of the latest technologies available in the market to achieve the desired output. The major scope includes Supply & install the required infrastructure at 220 kV & 132 KV GSS, 33/11KV sub-station, boundary points which includes: I. The Vendor shall design, develop, deploy, and maintain a unified, secure, and web-based IT solution shall be hosted at the Bhamashah State Data Centre (BSDC), ensuring compliance with applicable Cyber security, data protection, and performance requirements. II. Existing System Integration and Upgradation a) The Vendor shall assess and integrate the existing IT and field infrastructure, wherever technically feasible. b) In case any existing component is found to be obsolete, incompatible, or non-functional, the Vendor shall, at its own cost, upgrade or replace such components to ensure seamless integration with the proposed system. c) No additional financial implication shall be borne by the Utility on account of such upgradation/replacement. III. The Vendor shall provide complete end-to-end infrastructure for data acquisition, communication, storage, and transmission, ensuring reliability, redundancy, and performance as per defined SLAs. IV. The Vendor shall supply, lay, terminate, and commission all required cabling, connectors, and associated accessories necessary for the complete and functional deployment of the system. V. The Vendor shall provide suitable enclosures/boxes for all field equipment, ensuring adequate protection against environmental conditions, tampering, and unauthorized access, in compliance with relevant standards. VI. Connectivity a) The Vendor shall arrange, own, and maintain all communication connectivity (including but not limited

		to RF/Cellular/PLC/MPLS/Internet) required for system operation throughout the Contract Period. b) All connectivity shall be in the name of the Vendor, and the Vendor shall be solely responsible for uptime, bandwidth, latency, and performance as per SLA requirements. VII. System Integration: The Vendor shall ensure seamless integration of the proposed system with existing and future JVVNL IT/OT systems, including but not limited to: • Utility Billing System • SCADA / Local SCADA under RDSS • Customer Care System • Smart Metering System under IPDS, NSGM, RDSS etc. • DT Metering System • KUSUM Solar Plants • RVPN systems • Government portals such as National Feeder Monitoring System, DUET (Edge Electra), and any other systems as required All integration shall be carried out using open standards, interoperable protocols, and industry best practices without affecting existing operations. VIII. Data Migration and Preservation: a) The Vendor shall migrate feeder and related historical data from existing Feeder Monitoring Systems implemented by M/s Linkwell and M/s Fox Solutions Pvt. Ltd. b) The migrated data shall be validated, archived, and maintained in a secure, tamper-proof, and non-editable format. c) The Vendor shall ensure no data loss, corruption, or unauthorized modification during and after migration. IX. The Vendor shall ensure that all components deployed and services rendered under this scope meet the performance standards and Service Level Agreements (SLAs) defined in the RFP. Any failure shall attract penalties as per applicable provisions. X. Network Management System: -A suitable NMS shall be built to monitor the performance of the communication
--	--	---

		network round the clock. The NMS shall provide viewing of all the networking elements deployed at site and enable configuration & parameterization of the networking devices and the nodes. In case of public network such as cellular, the web-based portal (for example Open Network platform) should be provided to have the network view at location of installed devices. The portal shall have connectivity & subscription management.
B.	Proof of concept and Establishment of Data Center at BSDC with backup server at DR center located at Jodhpur. (a) Sizing of Data Center on the basis of 2x Nos. Feeders. (b) Connectivity from Data Center to Data Recovery Center	

2. System Hosting:

- 2.1. The vendor shall host the feeder monitoring system on a cloud environment established at Bhamashah State Data Centre (BSDC) and shall be responsible to provide the services of CSP/ IT Infrastructure.
- 2.2. The Govt. of Rajasthan has established a Tier-IV certified 600 Rack data Centre known as Bhamashah State Data Centre (BSDC). As per State Government's mandate all State Govt. Departments/PSU's are required to host their Portals/Applications in BSDC only. In view of this and to have a better control over the data with regard to sharing with other State Government's applications, the required IT Infrastructure shall be brought and maintained by the vendor at their own cost and the same shall be hosted in BSDC. BSDC shall provide the colocation facility at bidder's cost. Vendor shall be responsible for providing the services of CSP from BSDC.
- 2.3. Selection of DC-DR site architecture shall be in accordance with applicable laws including but not limited to the "Disaster Recovery Best Practices" guidelines issued by the Ministry of Electronics & Information Technology (MeitY) and as amended from time to time".
- 2.4. The IT infrastructure and system shall be highly secure, reliable, scalable, elastic and highly available throughout the entire contract duration.
- 2.5. The cloud environment (established in BSDC) shall have inbuilt real-time backup facility at backup system. The setup should have auto failover configured and shall have availability of over 99%. The application shall be accessed over internet with required encryption and all the administration credential shall be shared with the Discom along with the required audit trails.

- 2.6. The system shall run in the cloud (established in BSDC) where all portions shall be managed. No extra charges shall be paid and new users can be added.
- 2.7. In order to achieve goals System shall be able to access from a variety of devices like PC Tablets and Android & Windows Mobiles, in the office or on the go, which allows easier collaboration among the team.
- 2.8. The vendor shall manage servers, networking and storage, application, database and operating system and storage etc. on cloud (established in BSDC).
- 2.9. Extra data space for processing power based on the growth on DISCOM needs. This means that the extra data processing space is available whenever need it, upto 2x nos. of feeder meters data.
- 2.10. Using this architecture, and applications, data, operating system, middleware and runtime shall also be manageable by Discom.
- 2.11. Integrating the proposed Feeder Data Monitoring System with necessary software being implemented under existing and future IT/OT systems and other Govt platforms.
- 2.12. Business Continuity Plan & Backup Services : As part of a business continuity plan, the Utility has made a business impact analysis in the event of loss of applications running in the cloud (established in BSDC) and consequent loss of data to come up with a management plan for the associated risk to business operations. Central to this risk management strategy, the Utility has defined the following target objectives: -
 - a) Recovery Time Objective (RTO): Duration of time and a service level within which a business process must be restored after a disruption in order to avoid unacceptable consequences associated with a break in continuity of service. The RTO of [4 hours] shall be met by infrastructure redundancy and failover.
 - b) Recovery Point Objective (RPO): Interval of time that may pass during a disruption before the quantity of lost data during that period exceeds the business continuity plan's maximum allowable threshold. The RPO of [2 hours] shall be met by a suitable backup and replication strategy of operational data / application. The RPO shall define how fast the replicated data / application can be made available to the target system after a disruption strikes.

3. GENERAL FEATURES

- 3.1. The substation meters shall be connected to the Data Collection and transmission infrastructure / device having store and forward facility through adequate cabling (vendor scope) through suitable last mile connectivity. The substation Data Collection and transmission infrastructure / device will acquire data from feeder meters, and will transmit the same to central data center server(s).
- 3.2. The proposed Feeder Monitoring System is expected to provide continuous on line monitoring and logging of essentially, though not limited to, the following parameters in respect of Sub stations **as per Industry Standards. The system shall transfer complete data daily at 00 hours.**
 - i. Active Energy Cumulative FWD
 - ii. Active Energy FWD

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

- iii. Active Energy Cumulative REV
- iv. Active Energy REV
- v. Reactive Energy Cum FWD
- vi. Reactive Energy Cum REV
- vii. Apparent Energy Cum FWD
- viii. Apparent Energy Cum REV
- ix. Average Power Factor FWD
- x. Average Power Factor REV
- xi. Frequency
- xii. System outage / downtime feeder wise with total power on HOURS
- xiii. Energy balancing at sub stations
- xiv. Daily peak loads feeder.
- xv. Peak Load of the Substation.
- xvi. Daily Log sheets
- xvii. Any other information recorded by meter

3.3. The system should have capability to refresh the instantaneous parameter & alarms & events data on near to real time basis (preferably on every 5 minutes) & shall capture other parameters on hourly basis i.e. Block Load Profile & other parameters.

3.4. The System shall transfer the complete load profile of the meter data. In case of communication not available, it shall be ensured that the data should be transferred at least once in 24 hrs at 00 hours with complete load profile data on monthly basis etc., to the central server. The meter data shall be stored and made available for various analysis, generation of exception reports, export to third party systems and energy audit.

3.5. At present, uni-directional feeder meters are installed on 33 kV and 11 kV feeders. In certain locations, bi-directional feeder meters have already been installed on 11 kV outgoing feeders. To enable accurate measurement and accounting of energy flow, including energy injected from solar power plants, JVVNL may install bi-directional feeder meters at identified substations during the Contract Period. Accordingly, the Vendor shall ensure the following:

- (a) The system shall support integration, communication, and data acquisition from both uni-directional and bi-directional feeder meters.
- (b) The Vendor shall capture, process, and transmit complete feeder meter data, including but not limited to import (energy drawal) and export (energy injection) parameters, in accordance with the defined system architecture and data standards.
- (c) The proposed solution shall be scalable and configurable to seamlessly accommodate future installation of bi-directional meters without requiring any major modification or additional cost to the Utility.
- (d) The Vendor shall ensure compatibility with solar generation systems and accurately capture net energy flow at feeder level for monitoring, reporting, and analytics purposes.

(e) All data acquisition shall comply with applicable standards, protocols, and integration requirements specified in this RFP and shall meet the prescribed SLAs.

3.6. JVVNL has installed Vacuum Circuit Breakers (VCBs) at all feeder points, equipped with communicable numerical relays having Digital Input (DI) capabilities. These numerical relays are installed across all 33 kV and 11 kV indoor and outdoor VCB panels. The Vendor shall ensure the following:-

- (a) Integration of the communicable numerical relays with the proposed system for real-time data acquisition through available DI/DO points and communication interfaces.
- (b) Capture and processing of fault events recorded in the relays, including but not limited to earth fault and overcurrent conditions.
- (c) Utilization of relay event data, along with breaker status (open/close) and other relevant signals, to accurately identify and classify feeder outages as planned or unplanned.
- (d) The system shall be capable of time-synchronized event logging, enabling precise correlation between fault occurrence and feeder interruption/restoration.
- (e) The Vendor shall ensure compatibility of the proposed solution with existing relay makes and communication protocols, without requiring replacement of relays unless otherwise approved by the Utility.
- (f) The solution shall support analytics and reporting for outage classification, fault analysis, and reliability assessment in accordance with the requirements of the Utility

3.7. The System shall be accessible on internet and the information dissemination would be primarily through a web site designed on responsive technologies for facilitating access through mobile device, tablets, laptops, desktops etc.

3.8. The web application with user and role based access facility would be available over internet for access by various officers of the DISCOM.

3.9. Currently, JVVNL manages outage information through its Utility billing System (UBS). The proposed system shall have the capability to integrate with the Utility billing System (UBS) to automatically capture outage details, including planned outages and shutdowns. Such data shall be incorporated into system-generated reliability indices and reports, such as SAIDI and SAIFI, ensuring accurate, consistent, and comprehensive reliability analysis.

4. BROAD FUNCTIONALITIES OF SOFTWARE

Sr.No.	Feature	Functionality
1.	Modular Design	Applications, systems and infrastructure are to be characterized as service-oriented, component-based & reusable. The system will be modular in design, operations and implementation.

2.	System Architecture	The supplier is to balance the adoption of standards used by market leading vendors and products, and adherence to industry standards and open architectures. Systems are to be acquired, developed, or enhanced in such a way that business processes; application and infrastructure services and data can be shared and integrated across the Utility and with potential business partners.
3.	Application architecture	Application architectures must be highly granular and loosely coupled. This is focused on loosely coupling systems compliant to Service Oriented Architecture to facilitate application recovery. This is to ensure that the failure of one component does not cascade to others. A tier can also be scaled to run separate applications to optimize performance.
4.	Web based design	All the application designed for this purpose shall be web based and the Purchaser at workstation shall be able to access through the latest available version of the web browser such as Internet Explorer, Fire Fox etc., Any add-on required must be integrated with latest version released by the developer at the time of Bid opening
5.	Business Process Requirement	Application requirements will be based on Utility's business processes and the functional requirements that derive from them. The application system should empower the Business Users in defining the business processes by process modelling.
6.	Data base server	The applications must be capable of running in a clustered environment as high availability configuration of database server that will run multiple workloads.
7.	Basic system architecture and Unified Access framework	The applications system should be built upon WS* specifications using open industry standards of Web services using XML, SOAP, WSDL and UDDI and should have the unified access framework compliant to W3C portal specifications for people, process and information by integrating the backend applications with single sign-on feature, role based, request based and hybrid user type access,
8.	Directory service	Common enterprise wide directory services shall be leveraged by all access systems and services used by all the enterprise users and adhere to commonly accepted standards such as LDAP.
9.	Message based interface	As per the requirement, Interfaces between separate systems (both internal and external systems) will be messaged based compliant to W3C XML standard/OPC/DDE/ODBC interface.
10.	Application Integration	Integration technologies must be industry proven standards. They must be scalable in capacity and provide for extensive functionality. WS* based Web Services Integration specifications shall be used for integrating disparate systems, such as: Web Services Messaging Specifications including SOAP Web Services Reliable Messaging Web Services metadata Specifications including WSDL Web Services XML Specifications

		Web Services Business Process Specifications including BPEL4WS Web Services Management Specifications EDIFACT and ANSI
11.	Data Storage	Data is considered to be an utility wide asset and is to be shared across the utility. Data stores for transaction processing shall be kept separate from data stores for decision support.
12.	Data access	The applications will access data through business rules i.e. the applications must not access data directly without going through APIs managed by business rules/ validation/workflow. Data should be collected once and used many times.
13.	Central data storage	Data shall be stored at central data centre.
14.	Network environment	The application should be capable in running in a hybrid network connectivity environment i.e. Dialup, PSTN, Wireless, Leased Line, WAN environment etc. including MPLS/VPN based secured tunnel.
15.	Mobile application	For display of critical information on Android / IOS base mobile, necessary software shall also be developed by vendor.

5. Dashboards and Reports

The application software shall have drill-down dashboards for depicting the real time status of the feeders along with the details of the energy flow statistics. The details and formats of the dashboards and reports than need to be generated online shall be finalized with the vendor during the implementation. Further the vendor should provide for changes, updating, modifications, new dash boards and reports during the entire project implementation as per the requirement of the DISCOM as and when required at No cost. The reports shall be generated and published periodically on the web server and shall be readily available for download and consumption. Further all the reports generated shall have option of exporting into xls, pdf etc.

To develop a graphical dashboard on Rajasthan Map on the basis of Geo references of each Sub stations / MLA constituency. While clicking on any Substation, the information pertaining to the substation should be available on the MAP.

The reports shall be generated area wise i.e. Sub division / Division / Circle and MLA constituency wise. Some of the reports that need to be generating at desired periodicity areas under:

1. Periodic information retrieval of all Substations.
2. DATE WISE REPORT (WITH 3 PHASE & 1 PHASE SEPARATELY) with monthly average.
3. STATUS OF NON COMMUNICATING METERING EQUIPMENTS

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

4. Transaction made during the reporting month i.e. change of CT-PT sets /Meter/Data communication device /any other equipment
5. INSTANTANEOUS PARAMETERS i.e. Voltage, Current, PF, Frequency, KWH
6. DAY WISE BREAK UP OF 3-PH AND 1-PHASE SUPPLY HRS WITH monthly average along with GRAPHICAL PRESENTATION (Only for Feeder Meters):
 - a. GRAPHICAL PRESENTATION
 - b. GRAPHICAL PRESENTATION OF CONSOLIDATE SUPPLY HOURS
7. Tripping report based on numerical relay data
8. Low PF cases
9. **Any other report which can be generated from the available data at NO Cost.**
10. **Existing Reports needs to be provided & new reports shall be finalized before commencement of the work.**

6. One time activity

Sr.No.	At Central level	At substation level
1.	Design, develop and deploy the unified web based application software for data acquisition, data aggregation, data storage in common format, data dissemination, data display on DISCOM website, data analysis and depiction in form of dashboards, graphs and MIS reports etc. System for automated SMS alerts and email. The gateway and SMS charges are in the scope of vendor. Mobile application shall also be developed. However it is expected that 500-600 SMS per month may be generated.	Supply and install the required infrastructure at sub-station level which includes : (i) Data Collection and transmission infrastructure / device (ii) Dual communication mode, One should be GPRS and other can be GPRS/RF/any other suitable communication technology. (iii) Cabling and accessories (iv) Boxes for housing the Data Collection and transmission infrastructure / device and accessories
2.	Testing of Application software (Proof of concept, functionalities of software, availability of Service oriented architecture (SOA))- Details of tests at different stage shall be furnished by the bidder.	

3.	Providing catalogue of services, documentation including data structure.	
4.	Hosting of system at BSDC	
5.	Network equipment for Internet Bandwidth connectivity at Central location as per load condition	
6.	Integration with existing and upcoming IT/OT system of JVVNL and other Govt portal as required by JVVNL on Industry Standard practice	

Note : All other activities required for successful commissioning of the project are in scope of vendor.

7. Recurring activity

- Provide appropriate mode of connectivity at all level for pushing the data on the desired frequency on near real time basis on daily / weekly basis. It would be preferred that Data Collection and transmission infrastructure / device should have provision of SOFT SIM (as per bidders design).
- Provide the required internet connectivity for web applications at Hosting level and field level.
- Provide the required supervisory and support personnel for operation and maintenance of the system.
- Publish the required reports and MIS information online and publish the same for consumption by various users of the system.

8. Infrastructure to be supplied, installed and configured at different level

8.1.Data Collection and transmission device (AT SUBSTATION LEVEL)

- Data Collection and transmission device as per bidder design with data storage and forwarding facility.
- The bidder can deploy any of the technologies available in the market to achieve the desired output. As such the bidder shall furnish the technical specifications of the data sheet of the system / technology to be deployed in the bid.**
- The communication system shall be equipped with dual communication modes, wherein one mode shall be cellular (GPRS/4G/5G or equivalent) and the second mode may be GPRS/RF/any other suitable communication technology.
- In case both communication modes are based on cellular (GPRS/4G/5G), each connection shall be provisioned from different telecom service providers. The system shall support automatic network selection and seamless switching between the two communication modes based on signal availability, to ensure reliable and uninterrupted data communication at all locations.
- General Technical specifications for substation device:

S.NO.	FUNCTIONALITY	DESCRIPTION
1	Memory	Suitable for storage of 30 days meter data of each Substation.

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

2	Network Communication	Network Communication: a)Local Area Network - 10/100 Mbps Ethernet LAN Port , b) Wide Area Network, c) device management/configuration - RS232 /USB2.0/ 10/100Mbps Ethernet LAN port viz a viz otherwise
3	Communication Protocol	Must support the MODBUS/DLMS protocol to communicate with Modbus enable peripheral devices.
4	Power Requirements	a. Power supply voltage range 110-120V DC/110-220V AC $\pm$ 30% b. Low Power Consumption c. Adequate Battery back-up with minimum 2 hours backup to report power failure d. Inbuilt 6 KV surge protected SMPS based power supply
5	Environment	0 to +55 °C temperature range
6	Alarming & Scheduling	The alarms and schedules can be pre-set or customized as per the requirements of the utility. There should not be limitations on the number of alarms and schedules as per setting requirements
7	Inbuilt Clock on Real Time Controller	a. The real-time controller should have a very stable inbuilt clock with a battery backup b. Maintain time sync with meters and central location.
8	Date & Time Determination	The date and time of the controller should be possible to set remotely. At the same time it should be possible to configure to acquire the local date and time from the internet / GPRS network
9	Cellular Communication (GSM/GPRS/4G/5G	a) Support for Quad-band GSM (900/1800 MHz) b) Support for SMS, CSD, GPRS, and packet data services c) Cellular data class: Class 10 or higher d) Support Dual communication mode. One should be GPRS and other can be GPRS/RF/any other suitable communication technology. e) Support for 4G/5G connectivity with automatic fallback to 3G/2G networks f) SIM interface: Tray Push Type and/or eSIM (soft SIM) support g) SIM security features including SIM lock
10	On-board Stack	Suitable to address the needs of the envisaged system with adequate expansion facility.
11	Earthing	The earthing of the infrastructure shall be in the scope of the contractor
12	Local Monitoring	System shall have a provision for local monitoring of substation data

13	Digital Input	The device should have the provision of sensing digital inputs via DI (Digital Input) port provided at the terminal block. The device should register the digital input(s) sensed, upon reaching respective threshold (configurable) and the event shall be communicated to central server hosted at BSDC. The configuration of Numerical relay required for this shall be provided during detailed engineering. a) The requisite power supply requirement (AC to DC auxiliary supply/ charger) for the DI should be made internal to the device itself. No. of DIs are as follows: Minimum 04 Nos. DI for 4V(DC), 10 mA or as per requirement.
----	---------------	--

8.2. Cables and accessories for connecting the meters and breakers to Data Collection and transmission infrastructure / device

All the accessories like the meter interface unit, cables etc., have to be supplied and installed for ensuring 100% communication between the Feeder Meter and Data Collection and transmission infrastructure / device. The interface cable/Unit shall meet applicable IS/IEC, if any.

8.3. Boxes for housing the Data Collection and transmission infrastructure / device and accessories.

The Data Collection and transmission infrastructure / device and accessories shall be housed in a box (IP-65 compliant) to withstand the field conditions.

Appropriate connectivity with sufficient bandwidth for seamless real-time transfer of data push from the Data Collection and transmission infrastructure / device to the central server shall be provided

8.4. Backup Infrastructure to be deployed at the Bhamashah State Data Center (DR - Jodhpur)

The bidder shall deploy the requisite hardware like servers, routers, firewalls and related accessories at a location to be considered as backup location (DR) other than hosting place.

The required hardware for a secure, reliable and high-available system shall be designed and deployed. The hardware sizing has to be done keeping in consideration the data volumes, data archival and also the addition of new substations during the contract period.

The required redundant band width to be provisioned for high availability and quick data transfers.

8.5. Design, develop and deploy the web based software solution (SHALL BE HOSTED at BSDC)

General scope is to Design, develop, install and implement the required web based software solution for data acquisition, data aggregation, data storage in common format, data dissemination, data display on responsive website, data analysis and depiction in form of dashboards, graphs and MIS reports etc., provision for automated SMS alerts and email.

The minimum specification or functionalities that need to be achieved by the web based Solution:

- The system shall be designed and developed as per the latest standards and technologies on Service Oriented Architecture.

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

- ii. The system shall publish the required service catalogs for information exchange with third party systems.
 - iii. The system shall have a web portal for public dissemination of the information and shall have a full fledged web application for consumption of DISCOM personnel. The web portal to be designed on responsive technologies for accessing over mobiles, tablets, laptops etc.
 - iv. The System shall be secure and shall have user, role based configurable configuration with required event logging.
 - v. The system shall expose the required web services to the data concentrators or data loggers for pushing the meter data and events.
 - vi. The meter data and event information acquired shall be stored in the data based with time stamp.
 - vii. The data obtained from various meters to be processed and stored into a common data base format.
 - viii. The meter data obtained shall be processed on real-time basis and information disseminated on the web site, messages, emails etc.
 - ix. The system shall analyze the meter data and generate various exception reports as defined and designed by the DISCOM.
 - x. The system shall have capability to exchange the meter data acquired with third party systems through web services in regular interval.
 - xi. The system shall have inbuilt facility for device management i.e. to register, authorize and manage Data Collection and transmission infrastructure / device.
 - xii. The System shall have facility to upgrade the firm ware or software of the Data Collection and transmission infrastructure / device if desired over the air.
 - xiii. The entire transaction and events of communication, failure etc., with the Data Collection and transmission infrastructure / device shall be logged along with time stamping.
 - xiv. The system shall have in built user management and administration model for access control and logging for audit and audit trail.
 - xv. The system shall have inbuilt comprehensive MIS reports as per the requirements of the DISCOM with provision to add and modify the same as and when required.
 - xvi. The system shall have dashboards to depict the near real time information emanating from the Data Collection and transmission infrastructure / device on various critical and essential parameters as desired by the DISCOM.
 - xvii. The system shall have built in ticketing system to recording issues, escalation and resolution.
 - xviii. The system shall have inbuilt comprehensive help and manuals.
 - xix. The system shall be secure, high available and responsive.
 - xx. The required email and SMS gateways shall be procured by the bidder within the quoted per month charges.
 - xxi. The bidder shall provide and maintain a centralized, web-based Issue Tracking System (ITS) to log, track, and resolve all issues during implementation, stabilization, and O&M phases. The ITS shall allow uploading of site photographs along with geo-coordinates as evidence. Each issue shall be assigned a unique ticket ID, categorized based on severity, and tracked from logging to closure with features such as real-time status updates, escalation, audit trail, and MIS reports.
 - xxii. All issues shall be clearly classified as either JVVNL issues (related to site readiness, power supply, access, or other dependencies of JVVNL/third parties) or bidder/firm issues (related to hardware, software,
- RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

communication, or integration within bidder's scope). SLA timelines shall be applicable only to bidder/firm issues.

- xxiii. JVVNL issues shall be resolved by the concerned M&P officer, who shall upload site photographs with geo-coordinates as proof of resolution of issue. After resolution of a JVVNL issue, the bidder shall ensure that the site becomes fully operational/communicable within 24 hours, failing which the issue shall be treated as pending on the bidder's part.
- xxiv. All issues shall be closed in the ITS only after proper documentation and after feeder meter data establish communication with Central Server.

Integrating the proposed Feeder Data Monitoring System with necessary software being implemented under existing and future IT/OT systems.

The above requirements are high level and suggestive, the successful bidder shall gather the requirements and prepare the system requirement specification and design, develop/configure the software as per the requirements of Discom. The bidder shall further update and provide for additional features and functionalities as and when required by JVVNL during the contract period.

9. Further Details/Requirements.

- 9.1. Before proceeding with the execution of the aforesaid work, the Contractor shall fully familiarize himself with the site conditions. It shall be the responsibility of the Contractor to arrange all inputs required for detailed engineering and execution. The Bidders are advised to visit the sites, collect all necessary inputs and acquaint themselves with the topography, infrastructure etc. The Contractor shall be fully responsible for providing all equipment, materials, system and services specified or otherwise which are required for complete implementation of Feeder Monitoring System.

Test Instruments, Spares and Training as per tender specifications.

The Contractor shall also be responsible for the overall co-ordination with external agencies, project management, loading, unloading, handling, transporting to final destination for successful implementation of Feeder Monitoring System for Discom as per the scope of work detailed in the tender Documents.

- 9.2. In addition to above, following shall also be covered under the scope in the manner mentioned hereunder.

The number of Sub-stations may increase during the execution period of project as well during running & maintenance of five years. All the equipment and associated items required for such works may increase accordingly shall be supplied & erected/commissioned. During the currency of contract i.e. upto expiry of O&M period, in case of installation of entity from existing numbers, the vendor shall arrange to include the same in the system. In case of increase of such number at different level shall attribute to the monthly payment accordingly.

- 9.3. The System shall be scalable upto 40000 Nos. of feeder meters and shall be capable to successfully interface with other systems of purchaser.

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

- 9.4. The contractor will also be responsible for obtaining the required Internet connectivity for the DC/DR, GPRS/GSM/4G/5G LTE, NB-IoT, LTE-M, or other suitable IoT communication solutions for field devices from service providers. The recurring charges shall be borne by the vendor. The Purchaser will however provide the necessary support if required in getting the clearances.

Although all precautions have been taken to prepare this specification, the detailed specifications may have contradictory provisions or redundant provisions at different clauses. In such cases the specifications clause, which is beneficial to Discom, shall be considered for the interpretation.

10. Communication from Substation to Central Data Centre: The communication from the field to Central Data Centre shall be through the GPRS/GSM/4G/5G LTE, NB-IoT, LTE-M, or other suitable IoT communication solutions connectivity using TCP/IP protocol. The data from the Substation shall travel the following route to reach the Data Centre:

- i) Request from Controller card of Data Collection and transmission infrastructure / device to feeder Meters (Auto request at user defined interval which may vary from 5 minutes to 1 hour)
- ii) Data sent by the Feeder Meter to Data Collection and transmission infrastructure / device
- iii) Data Collection and transmission infrastructure / device shall have sufficient memory to store data.
- iv) The Data Collection and transmission infrastructure / device shall be programmed to send data through GPRS/GSM/4G/5G LTE, NB-IoT, LTE-M, or other suitable IoT communication solutions/ SIM at user defined interval.

The Central Data Center and Backup system (DR AT JODHPUR) shall be synchronized at least once in 24 hour.

11. Scalability: The entire system including hardware and software shall be designed and deployed for the capacity 2x Nos. of Feeders meters.

12. Training of JAIPUR DISCOM Engineers: The contractor is required to provide **Training at Circle level (at Discom premises) to all Engineers from Junior Engineer (J.E.) to Superintending Engineers (S.E.) shall be provided as one time activity** in depth training to Owners engineers at no cost to JVVNL on all aspects of the system being supplied. Training module shall be mutually discussed and finalized to cover Owner's personnel to operate, append, modify, trouble shoot, and interface the system with other billing and revenue management through hardware and software linkages. The contractor shall provide all the documentation and write up material for trainees.

The training courses shall be structured and supported by "Illustrations, Video, and Charts. Certified trainers from the vendor's office shall impart the developer and system administration training preferably. The vendor shall provide extensive lecture notes, handouts and other training documents.

13. Maintenance:

The contractor shall be responsible for all the maintenance of the system till the operational period under contract. The consumables and spares wherever required for maintaining the system shall be provided by the contractor till operational acceptance of the system at no cost to JVVNL.

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

14.SURVEY

The bidders are presumed to have acquainted themselves with the scope of work of this specification by doing a walk over survey of the area/feeder before submitting their bid. After award of contract, a detailed survey shall however, required to be done by the contractor along with authorized Engineer of Nigam to assess actual quantum of work. The contractor shall have to execute the works in accordance with the quantities so assessed and approved by the Nigam.

15.WORK PLAN

After completing the work of survey, the contractor shall finalize the programme to commence and execute the work. The contractor shall also take care of the under mentioned points during installation of various equipment.

16.Security & Safety: The system shall provide an integrated security system which allows administrators to create users and grant those users permission to see/use the required data. The system shall disable a username-password combination after a number of failed login attempts and report it to the Administrator. The number of login attempts shall be settable by administrators as a system setting.

A. The system provides the following security features:

- i) Access to the system must be authorized by and authenticated by individual Login ID & Password.
- ii) The system will capture logs of user activities and user logins.
- iii) The system will protect the integrity and confidentiality of the data by allowing authorized staff access only.
- iv) The system has the ability to log all access to the system.
- v) All passwords shall be encrypted

B. Security is crucial for the Control System. Consequently, the system shall be designed with a high degree of security which entails for each unit the following minimum requirements:

- (i) Each component shall be designed so that its failure doesn't initiate inadvertent indications or operations.,
- (ii) Failure of one component or module shall be localized and cause no further component or system failures,
- (iii) Incorrect instructions and data, inadvertent operations and unauthorized commands shall be refused.
- (iv) System security must be given special attention, in particular neither incorrect output nor shall inadvertent operations be possible under the following conditions:
 - a. Single component or all component failure,
 - b. When switching over to redundant equipment,
 - c. During preventive or corrective maintenance of equipment, or while testing, notably with reference to the removal or replacement of a plug-in module,
 - d. With software development, debugging, integration or testing,

RFP for "Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis" against TN-108

- e. When modifying, expanding, adding or testing hardware,

The above list is not exhaustive. All security features for the proposed system shall be described in detail by the Tenderer.

17. Maintainability: The supplied system shall possess, with reference to maintenance, the following minimum features:

- a) It will be of modular design,
- b) Diagnostic and troubleshooting procedures shall be provided to enable field replacements down to module level, when applicable.
- c) Maintenance shall be performed, as far as possible, with standard general purpose instruments and tools.

18. Availability and Performance Standards:

Equipment	Up time
Central Data Center (Servers and Networking)	99.995%
All Data Collection and transmission infrastructure / device and other Field devices	98%

19. Project Management Schedule and Documentation:

- i. **Project Management:** The Contractor shall assign a project manager with the authority to make commitments and decisions that are binding on the Contractor. Purchaser will designate a project manager to co-ordinate all purchaser project activities. All communications between purchaser and the Contractor shall be coordinated through the project managers. The project managers shall also be responsible for all communications between other members of the project staffs.
- ii. **Project Schedule:** The project implementation schedule is from date of detailed order. Based upon this schedule the bidder shall submit a preliminary implementation plan along with the bid. The detail project implementation schedule shall be submitted by the contractor after award for purchaser's approval, which shall include at least the following activities:
 - i) Site Survey
 - ii) Documents submission and approval schedule.
 - iii) Factory & Site Testing Schedule.
 - iv) Database development schedule.
 - v) Hardware purchase & Manufacturing, Software development & integration schedule.
 - vi) Installation schedule.

vii) Training schedule.

The project schedule shall include the estimated period for completion of and its linkage with other activities.

20. Documentation:

- (i) To ensure that the proposed systems conform to the specific provisions and general intent of the Specification, the Contractor shall submit documentation describing the systems to purchaser for review and approval. Further the Contractor shall also submit the drawings/ documents for all the hardware & software required for site installation, testing and commissioning and thereafter operation of the system. The contractor shall obtain approval of purchaser for the relevant document of each stage before proceeding for manufacturing, system development, factory testing, site testing, training etc. The schedule for submission / approval of each document shall be finalized during the discussions before placement of the contract; this schedule shall be in line to overall project schedule.
- (ii) The contractor shall prepare and submit 3 sets of all the standard and customized Data Collection and transmission infrastructure / device documents for review and approval which includes the following.
 - (a) Function design document.
 - (b) Hardware description document.
 - (c) Test equipment user document.
 - (d) Operation and maintenance document.
 - (e) Training documentation.
 - (f) Data base documentation.
 - (g) test procedures.
 - (h) Data requirement sheets of all items.
 - (i) Infrastructure installation, layout, GA, BOQ, schematics and internal wiring drawings for each Data Collection and transmission infrastructure / device site.
 - (j) Cabling details for each site.

21. INCEPTION/FDS REPORT: In order to ensure the better execution of the proposed work in a scientific and managerial way, the vendor shall furnish an inception report within 30 days of awarding the contract. The inception / FDS report shall contain the following:

- i) Detailed methodology/ project report/ modus operandi to be adopted to execute the contract.
- ii) Resources with list of man power to be deployed to execute the contract
- iii) Detailed list of inputs to be required from the Discom.
- iv) Clearly spell-out the obligation to be completed for execution of the work.

- v) Detailed Functional design & specification of the equipments to be installed at every location with GTP (Guaranteed Technical Particulars).
- vi) Testing procedure as per the relevant clause of the specification.
- vii) Detailed methodology of Training system.
- viii) Break up of total time schedule allowed for completion of supply in GANTT chart. The GANTT chart shall include milestone of approval of types and makes.
- ix) Type of communication system proposed at each S/S

The Discom on receipt of the inception/ FDS report will furnish its recommendation for any modification, if required, within 15 days of receipt the same. If no communication is received from the Discom within the stipulated period it shall be presumed that the inception report is in order and you may go ahead to start the work accordingly.

22.SCHEDULE OF REQUIREMENT (Approximate) :-

The required system shall be deployed in phased mannerto capture the data of Meter installed at 33V feeders, boundary points, 36KV VCBs and 11 KV outgoing feeders are as under:-

Particular		Proposed Count (nos.) (Approx.)
Phase-1	Meter installed at 11 KV feeders (Total 11 KV outgoing feeder 11668 Nos. approx, modem installed on 7500 Nos. Feeder and data of approx. 4000 feeder captured through DCU via MU)	18000
	Meter installed at 36 kV VCBs at 33/11 KV sub-station	4000
Phase-2	Meter installed at 33kV outgoing Feeders emanating from 132 & 220 KV GSS	1600
Phase-3	Boundary points	1000
	Total	24600

The Protocol of the Meters shall be provided to the vendor by the Designated Officer Likely by MM wing of JVVNL.

SECTION –6: TECHNICAL PROPOSAL SUBMISSION SHEET

To be submitted complete with all enclosures.

The Superintending Engineer (IT)
Old Power House Premises
Near Ram Mandir, Banipark
Jaipur-302 006

SUB: We submit our technical offer for the work of “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN- 108.

Dear Sir,

We have submitted our technical offer for work of **“Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN- 108.**

We are submitting our proposals for with complete set of enclosures.

We agree for execution of tendered work

We also agree that:

- 1) The prices as mentioned in BOQ.
- 2) The prices quoted are valid for a period of 180 days from the date of opening of “Techno-Commercial bids” or 90 days from the date of opening of “Price Bids” whichever is later

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

Partner to these presents before proceeding against or dealing with the other Party(s), the Employer can proceed against any of the parties who shall be jointly and severally liable for the performance and all other liabilities/obligations under the Contract to the Employer. 4. The financial liability of the Parties of this Deed of Undertaking to the Employer, with respect to any of the claims arising out of the performance or non-performance of the obligations set forth in this Deed of Undertaking, read in conjunction with the relevant conditions of the Contract shall, however not be limited in any way so as to restrict or limit the liabilities or obligations of any of the Parties of this Deed of Undertaking. 5. It is expressly understood and agreed between the Parties to this Undertaking that the responsibilities and obligations of each of the Parties shall be as delineated in Appendix – I (to be suitably appended by the Parties along with this Undertaking in its bid) to this Deed of Undertaking. It is further undertaken by the parties that the above sharing of responsibilities and obligations shall not in any way be a limitation of joint and several responsibilities of the Parties under the Contract. 6. It is also understood that this Undertaking is provided for the purposes of undertaking joint and several liabilities of the partners to the Consortium for submission of the bid and performance of the Contract and that this Undertaking shall not be deemed to give rise to any additional liabilities or obligations, in any manner or any law, on any of the Parties to this Undertaking or on the Consortium, other than the express provisions of the Contract. 7. This Undertaking shall be construed and interpreted in accordance with the provisions of the Contract. 8. In case of an award of a Contract, we the parties to this Deed of Undertaking do hereby agree that we shall be jointly and severally responsible for furnishing a Contract performance security from a bank in favour of the Employer in the currency/currencies of the Contract. 9. It is further agreed that this Deed of Undertaking shall be irrevocable and shall form an integral part of the bid and shall continue to be enforceable till the Employer discharges the same or upon the completion of the Contract in accordance with its provisions, whichever is earlier. It shall be effective from the date first mentioned above for all purposes and intents. IN WITNESS WHEREOF, the Parties to this Deed of Undertaking have through their authorized representatives executed these presents and affixed Seals of their companies, on the day, month and year first mentioned above. **ANNEXURE – 17: BANK GUARANTEE AGAINST UNDERTAKING FOR CLASS ‘A’ OR CLASS ‘B’ ELECTRICAL CONTRACT
LICENSES**

(On non-judicial stamp paper worth Rs.0.25% of B.G. Value/- of Govt. of Rajasthan)

To,

The Superintending Engineer [IT]

Jaipur Vidyut Vitran Nigam Limited

Old Powerhouse Premises Near Ram Mandir

Jaipur-302 006

Dear Sir,

Whereas Jaipur Vidyut Vitran Nigam Limited, Jaipur (hereinafter called the Purchaser) has issued a tender enquiry for “Implementation of Feeder Data Monitoring System” against tender no. TN-108.

Whereas M/s(hereinafter called the bidder) has furnished a bid for “Implementation of Feeder Data Monitoring System on System as a Service (SaaS) Basis” to the Superintending Engineer(IT), Jaipur Vidyut Vitran Nigam Limited, Jaipur or his nominated officer(s).

Whereas in accordance with the provision of the RFP of the aforesaid TN-....., the bidder can deposit a bank guarantee for undertaking to furnish the Class ‘A’ or Class ‘B’ electrical contract licenses issued by Electrical Inspectorate of Govt. of Rajasthan within 2 months from the date of award of contract.

Whereas M/s..... (the bidder) have requested us (Name of the Bank) to furnish the bank guarantee, for undertaking to furnish the Class ‘A’ or Class ‘B’ electrical contract licenses issued by Electrical Inspectorate of Govt. of Rajasthan within 2 months from the date of award of contract, for an amount equivalent to Rs..... (in words also) only.

RFP for “Implementation of Feeder Data Monitoring System on System as a Service (Saas) Basis” against TN-108

Under this Bank Guarantee, we (Name of the Bank) hereby undertake unconditionally and irrevocably to guarantee as primary obligator and not as Surety merely, the payment to the purchaser on his first demand without whatsoever right of objection on our part and without his first claim to the bidder, in the amount not exceeding (amount of guarantee in figures and words).

Payment pursuant to this undertaking will be demanded by the purchaser from the Bank and will be met by the Bank without question in the case in which the bidder, on receipt of the order and/ or after the acceptance of this tender, makes default in furnishing the required Class 'A' or Class 'B' Licenses issued by Electrical Inspectorate of Govt. of Rajasthan within 2 months from the date of award of contract. As to whether the occasion or ground has arisen for such demand the decision of the Superintending Engineer (IT), Jaipur Vidyut Vitran Nigam Limited shall be final.

The liability of the Bank shall not at any time exceed Rs. (Rupees).

The undertaking will be determined on but will not withstanding such determination, continue to be in force till the expiry of 3 months from that date.

No indulgence or grant of time by the purchaser to the bidder without the acknowledgement of the Bank will discharge the liabilities of the Bank under this guarantee.

The guarantee herein contained shall not be affected by any change in the constitution of the bidder.

All disputes arising under the said guarantee between the Bank and the bidder or between the bidder and the purchaser pertaining to the guarantee shall be subject to the jurisdiction of Courts only at JAIPUR in Rajasthan.

The Bank further undertakes not to revoke this guarantee during its currency except with the previous consent of the Superintending Engineer (IT), Jaipur Vidyut Vitran Nigam Limited, Jaipur.

Notwithstanding anything contained herein before, the Bank's liability under this guarantee i.e. restricted to Rs..... (Rupees) and the guarantee shall remain in force up to. Unless demand or claim in writing is presented on the Bank within three months from that date, the Bank shall be released and discharged from all liabilities there-under. However, the validity of the bank guarantee shall be extended as and when required by the purchaser.

IN WITNESS WHEREOF the Bank has executed these presents the day month and year .
